1/ A new convention with FRIGUIA covering the period January 1995-December 2009 was signed in February 1995. It overhauls the taxation of FRIGUIA. The TSPM previously paid by FRIGUIA on exported alumina (US\$12.25 per metric ton) as an advance payment for the corporate tax and the dividend (65 percent) was replaced by a specific tax of US\$0.5 per ton on consumed bauxite (about US\$1.75 per ton of produced alumina) and by a corporate tax of 30 percent. FRIGUIA will also be subject to an annual lump-sum local tax. In addition, FRIGUIA is exempted of the payment of the IMF, and imports related to the production of alumina are exempted (except imports of fuel oil, which are subject to a flat tariff of 5.6 percent). The convention will be reviewed every five years.
