## HEAVILY INDEBTED POOR COUNTRIES (HIPC) INITIATIVE AND MULTILATERAL DEBT RELIEF INITIATIVE (MDRI)— STATISTICAL UPDATE

IMF staff regularly produces papers proposing new IMF policies, exploring options for reform, or reviewing existing IMF policies and operations. The following documents has been released and are included in this package:

- The **Staff Report** on Heavily Indebted Poor Countries (HIPC) Initiative and Multilateral Debt Relief Initiative (MDRI)—Statistical Update, prepared by IMF staff and completed on March 15, 2016.

The staff report was issued to the Executive Board for information.

The policy of publication of staff reports and other documents allows for the deletion of market-sensitive information.

Electronic copies of IMF Policy Papers  
are available to the public from

## HEAVILY INDEBTED POOR COUNTRIES (HIPC) INITIATIVE AND MULTILATERAL DEBT RELIEF INITIATIVE (MDRI)— STATISTICAL UPDATE

### EXECUTIVE SUMMARY

The HIPC Initiative and MDRI are nearly complete, with 36 countries having already reached the completion point under the HIPC Initiative. Chad, in April 2015, is the latest country to reach the completion point. Debt relief under the Initiative has alleviated debt burdens substantially in recipient countries and has enabled them to increase their poverty-reducing expenditure by over one and a half percentage points of GDP between 2001 and 2014.

Creditor participation in the HIPC Initiative has been strong amongst the multilateral and Paris Club creditors; however participation from other creditor groups still needs to be strengthened. The total cost of debt relief to creditors under the HIPC Initiative is currently estimated to be US\$74.8 billion, while the costs to the four multilateral creditors providing relief under the MDRI is estimated at US\$41.6 billion in end-2014 present value terms.

Approved By  
**Sean Nolan (IMF) and  
 John Panzer (World  
 Bank)**

Prepared by Joyce Miharu Saito under the supervision of Mark Flanagan and S. Ali Abbas (IMF), and by Signe Zeikate under the supervision of Mark Roland Thomas (WB).

## INTRODUCTION

1. This report provides an update on the status of implementation for the HIPC Initiative and the MDRI and the cost estimates of these Initiatives in end-2014 present value (PV) terms.<sup>1</sup> Updates are also provided to the overall progress made under the Initiative to date. In particular, the following figures and tables are updated:

- Trends in poverty-reducing spending and debt service in HIPCs (Annex III Tables AIII1–3)
- Costs of the initiatives by creditor and country (Tables 2 and 3 and Annex III Tables AIII4–14)
- Non-Paris Club bilateral creditor participation (Annex III Table AIII15)
- Commercial creditor litigation against HIPCs (Annex III Table AIII16)

## PROGRESS IN THE IMPLEMENTATION OF THE HIPC INITIATIVE

2. **All 36 countries that have reached decision point under the HIPC Initiative have now reached the completion point.** In April 2015, Chad became the latest country to reach the completion point and qualified for irrevocable debt relief.<sup>2</sup>

**Table 1. List of Heavily Indebted Poor Countries  
(As of end-September 2015)**

<b>36 Post-Completion-Point HIPCs<sup>1/</sup></b>			
Afghanistan	Congo, Dem. Rep. of the	Haiti	Niger
Benin	Congo, Rep. of	Honduras	Rwanda

Cameroon	Ghana	Mali	Tanzania
Central African Republic	Guinea	Mauritania	Togo
Chad	Guinea-Bissau	Mozambique	Uganda
Comoros	Guyana	Nicaragua	Zambia
<b>3 Pre-Decision-Point HIPCs<sup>2/</sup></b>			
Eritrea	Somalia	Sudan	

1/ Countries that have qualified for irrevocable debt relief under the HIPC Initiative.

2/ Countries that are eligible or potentially eligible and may wish to avail themselves of the HIPC Initiative and MDRI.

<sup>1</sup>This is an update to the earlier report "[Heavily Indebted Poor Countries \(HIPC\) Initiative and Multilateral Debt Relief Initiative \(MDRI\)—Statistical Update](#)" December 12, 2014 that provided debt relief cost estimates in end 2013 PV terms. As agreed by the [IMF and IDA Boards](#) the core information on debt service and poverty-reducing expenditure, the cost of debt relief, creditor participation rates, and litigation against HIPCs should continue to be made available and updated regularly on the IMF and World Bank websites.

<sup>2</sup>For further details, see "Chad: Enhanced Heavily Indebted Poor Countries Initiative - Completion Point Document and Multilateral Debt Relief Initiative" May 13, 2015.

3. Three pre-decision-point countries—Eritrea, Somalia, and Sudan—have yet to start the process of qualifying for debt relief under the Initiative.<sup>3</sup>

- **Eritrea.** There have been no updates from the previous report in the case of Eritrea. As reported in the previous update, Eritrea has benefitted from the development of mining and the production of gold since 2011 and base metals since 2013, but its political situation remains fragile. The last Article IV Consultation for Eritrea took place in 2009 and there has been no discussion with the authorities of an IMF-supported program.
- **Somalia.** With the support of the World Bank and the IMF, the External Debt Technical Working Group was established on April 11, 2014 to help tackle Somalia’s accumulated arrears and debt and to ensure that Somalia builds a credible track record of economic reforms needed for a SMP. Although Somalia is ineligible to receive financial assistance from the IMF and the World Bank due to its longstanding arrears of about US\$331.7 million and US\$287.4 million as of August 30, 2015 respectively (Somalia’s arrears to the AfDB accounted for about UAC67.4 million, or US\$94.5 million), both the IMF and the World Bank have been providing technical assistance (TA) and capacity development in key areas of their expertise. IMF support has been directed toward budget preparation, fiscal policy, central banking, financial governance and the development of macroeconomic statistical data systems. IMF staff has also been working on collecting basic real, fiscal, monetary, and external sector data and establishing a macroeconomic and financial framework. Significant progress has been achieved in these areas, particularly with respect to: (i) preparation of the national budgets; (ii) development of national and external macroeconomic statistics; and, (iii) development of central bank accounting and governance practices. In addition, the IMF has been providing extensive support from headquarters on issues related to tax policy administration; central bank operations, banking and licensing supervision, and the development of a proper AML/CFT framework. On July 27, 2015, Somalia had its first Article IV Consultation since November 18, 1989. Discussions on a possible SMP have commenced and further discussions are ongoing.

The World Bank is providing TA to senior staff of the Ministry of Finance on the full range of budget and policy management issues, with the objectives of strengthening budget preparation, documentation, improving transparency and accountability in the mobilization and use of public resources, and building capacity for improved public financial management. TA is also being provided to improve statistical-and analytical work capacity. The innovative High Frequency Survey is now starting its second phase, while the first series of Economic Updates was published in 2015 with a special focus on Fiscal Federalism. Programs have been lined-up for investment in key economic infrastructure, such as the Berbera marine services PPP and

---

<sup>3</sup>Nepal remains potentially eligible. The potential eligibility of Myanmar remains in doubt. For further discussion, see “Heavily Indebted Poor Countries (HIPC) Initiative and Multilateral Debt Relief Initiative (MDRI)—Status of Implementation and Proposals for the Future of the HIPC Initiative”; IDA/R2011–0310 and IMF Policy Paper; November 8, 2011.

sustainable water management in Puntland and Somaliland. Urban infrastructure studies are slated to begin in 2016.

Importantly, the Multi-Partner Fund (MPF)<sup>4</sup> administered by the World Bank was established in 2014 to provide a platform for coordinated financing for sustainable reconstruction and development in Somalia. The MPF focuses on areas of urgent need specified in the Somali Compact, and where the World Bank has a comparative advantage. The MPF supports peace-building and state-building goals, i.e. economic foundations, revenue and services, and the cross-cutting priority of institutional capacity development. The four key areas of thematic focus include: (i) core government functions, (ii) infrastructure, (iii) productive sectors and (iv) natural resource management. Over the first year of MPF implementation, important steps have been taken in the areas of payroll reform, strengthening of the Financial Management Information System as well as efforts to strengthen budget preparation and payments systems. The MPF is also engaging with the government to support the development of a high quality and sustainable civil service; while through the Recurrent Cost and Reform Financing Project under the MPF, the World Bank is supporting macro-fiscal stability by providing predictable financing for salary payments and other recurrent costs for a given period. Finally, the World Bank has been facilitating dialogue between government and the private sector in the oil and gas, energy, and information and communications sectors.

- **Sudan.** Sudan is in debt distress, according to the most recent debt sustainability analysis completed in 2014 and is eligible for debt relief under the HIPC Initiative,<sup>5</sup> but has yet to meet all qualifications. The normalization of relations with external creditors, including the IMF, other multilateral institutions, and bilateral creditors, is a key pillar for debt relief. Sudan's large external arrears continue to hinder its access to external financing and weigh heavily on its development. Sudan remains in arrears to the IMF, the World Bank, and the AfDB. Its arrears stood at SDR 974.02 million to the IMF as of July 31, 2015 (about US\$1,358.5 million), US\$809 million to World Bank and UAC214.5 million (or US\$300.6 million) to the AfDB as of August 30, 2015. The procedural steps needed to reach the Decision Point under the HIPC Initiative are as follows:<sup>6</sup> (i) receive financing assurances from creditors for HIPC debt relief, (ii) establish a track record of performance (e.g. through an SMP judged to be of Upper-Credit Tranche quality by the Executive Board of the IMF), and (iii) clear its arrears to the IMF; World Bank and the AfDB and have an arrears clearance plan with the remaining external creditors. At this stage, it is not

---

<sup>4</sup>The Multi-Partner Fund has been established for a 10-year period to support implementation of the Somali Compact. The contributing donors include the World Bank, the European Union and five European national development agencies. See: The Multi-Partner Fund URL: <http://www.worldbank.org/en/news/feature/2014/10/27/the-world-bank-group-in-somalia-helping-to-rebuild-state-institutions-piece-by-piece> .

<sup>5</sup>See [IMF Country Report No. 14/364](https://www.imf.org/external/pubs/ft/dsa/pdf/2014/dsacr14364.pdf), Debt Sustainability Analysis. <https://www.imf.org/external/pubs/ft/dsa/pdf/2014/dsacr14364.pdf>

<sup>6</sup>See IMF Country Report No. 14/364, Box 3.

possible to assign a firm timeline for the fulfillment of these steps, and to date, there is no indication from Sudan or from its creditors regarding such timeline.

**4. At this point, there is one country, Zimbabwe, for which eligibility to receive assistance under the HIPC Initiative remains unclear.** To receive HIPC debt relief, Zimbabwe would need to qualify for the Initiative. Zimbabwe remains in debt distress and will need a comprehensive arrears clearance framework with the international community.<sup>7</sup> The recent indebtedness assessments based on reconciled loan-by-loan debt data indicate that Zimbabwe has met the indebtedness criterion for eligibility under the HIPC Initiative. However, to be eligible for assistance, the country also needs to clear its arrears to the PRGT.<sup>8</sup> On the World Bank side, a modification of, or exception to IDA's HIPC Initiative income criteria would be required. On qualification, the most recent assessment indicates that based on end-2013 debt-to-exports ratio, Zimbabwe would not qualify for the HIPC debt relief initiative. Qualification largely depends on the levels of debt vis-à-vis exports based on the latest fiscal year data, and on policy performance. The authorities presented an arrears clearance strategy to creditors outside the HIPC framework during a meeting in Lima in October 2015. This strategy aims to clear Zimbabwe's arrears to multilateral institutions by using both its own resources and external borrowing. Following clearance of the IFI arrears, the strategy envisages rescheduling of the Paris Club debt in the context of a regular IMF ECF program. The third review of the recently expired SMP with the IMF covering the period from October 2014 to December 2015 is expected to be completed in June 2016 (the first and second reviews were completed in April 2015 and October 2015 respectively). The main objectives of the SMP were to strengthen Zimbabwe's external position, as a prerequisite to arrears clearance and resumption of debt service; and to show that the country has the capacity to implement policy reforms that could justify a financial arrangement with the Fund.

---

<sup>7</sup>See Staff Reports for [the 2014 Article IV Consultation](#), and [First review under the Staff-Monitored Program](#).

<sup>8</sup>Due to arrears to the Poverty Reduction and Growth Trust (PRGT), in 2001 Zimbabwe was removed from the IMF's list of PRGT-eligible countries. Zimbabwe made payments to the PRGT in 2012, 2013 and 2014 totaling US\$7.5 million, US\$1.8 million, and US\$1.95 million respectively. Payments in 2015 through end-July totaled US\$1.05 million. As of end-August 2015, Zimbabwe's arrears to the IMF and the Bank amounted to US\$120.5 million (SDR 79.51 million) and US\$1,147 million, respectively.

## DEBT SERVICE RELIEF AND POVERTY REDUCING EXPENDITURE

(Figure 1, Annex I Table AI2 and Annex III Tables AIII1–3)

5. Debt relief under the HIPC and MDRI Initiatives has substantially alleviated debt burdens in recipient countries and has enabled them to increase their poverty-reducing expenditures (Figure 1 and Annex III Table AIII1). However, recent data indicate that the decline in debt service has moderated and the debt service burden may increase in the near future.

6. At the same time, Millennium Development Goal (MDG) outcomes have been marked by significant heterogeneity across regions and countries, resulting in uneven progress. The poorest achievements by HIPCs have been reported in the education and health-related sectors. Only a few HIPCs met the MDG targets in the areas of (1) a decrease in maternal mortality rates and (2) an increase in primary school completion rates. HIPCs have performed relatively better in the areas of (1) gender equality in primary education and (2) access to safe drinking water. Increasing incidence of humanitarian crises stemming from pandemics, natural disasters, war, and conflicts have also impaired some of HIPC's development gains (Annex I Table AI2).<sup>9</sup>

<sup>9</sup>The assessment is based on WB "Global Monitoring Report: Development Goals in an Era of Demographic Change" 2015/2016.

## UPDATE OF THE COSTS OF THE INITIATIVES

7. The total cost of debt relief to creditors under the HIPC Initiative is estimated at US\$74.8 billion in end-2014 present value (PV) terms (Table 2). The increase in debt relief costs in comparison to the previous estimates in end-2013 PV terms are explained by Chad's completion of the HIPC Initiative and by an increase in PV values due to a lower SDR discount rate.<sup>10</sup>

8. The total cost of the MDRI for the four participating multilateral creditors is estimated at US\$41.6 billion in end-2014 PV terms (Table 3, Annex III Table AIII4).

**Table 2. HIPC Initiative: Costs by Main Creditor and Country Group**

Non-HIPCs 5/	<b>0.2</b>		<b>0.2</b>	0.2

Sources: Country authorities, and World Bank, IMF, AfDB and IaDB staff estimates.

1/ Estimates are preliminary and subject to a number of assumptions, including the timing of HIPC decision and completion points, and, where applicable, of arrears clearance.

2/ These countries have qualified for MDRI relief. Figures are based on actual disbursements and commitments.

3/ The estimated costs for IMF reflect the stock of debt eligible for MDRI relief, which is the debt outstanding (principal only) as of end-2004 and that has not been repaid by the member and is not covered by HIPC assistance (EBS/05/158 Revision 1, 12/15/2005); including the cost of the MDRI-type beyond-HIPC debt relief to Liberia equivalent to US\$171.9 million on June 30, 2010.

4/ There is no remaining MDRI-eligible debt to the IMF. MDRI Trusts have been liquidated in 2015. The cost to the IMF for providing debt relief to Somalia and Sudan was not included in the original costing estimates; new financing would need to be secured when these members are ready to clear their arrears and embark on the HIPC Initiative and possible beyond-HIPC debt relief.

5/ IMF MDRI assistance to Cambodia and Tajikistan.

## CREDITOR PARTICIPATION: MULTILATERAL CREDITORS

(see Annex III Tables 5, 6A, 6B, 7A, 7B, 8A, 8B, 9 and 10)

**9.** Over ninety-nine percent of multilateral creditors, estimated by their share in the total cost of HIPC debt relief to post-completion-point HIPCs, have committed to participate in the HIPC Initiative (Annex III, Table 5). A number of multilateral creditors receive support from the Debt Relief Trust Fund (DRTF), administered by IDA, to fulfill the provision of committed debt relief.<sup>11</sup> As of end-August 2015, donors have contributed a total of US\$6.8 billion to the DRTF (See Annex III Table 10).<sup>12</sup> The DRTF has accumulated investment income amounting to US\$604 million and has disbursed about US\$7.1 billion. The remaining amount of resources available in the DRTF (US\$0.4 billion)<sup>13</sup> is estimated to be sufficient to help finance the expected debt relief costs to eligible creditors in respect to pre-decision point HIPCs.<sup>14</sup>

## CREDITOR PARTICIPATION: OFFICIAL BILATERAL AND COMMERCIAL CREDITORS

(see Annex III Tables AIII11–16)

**10.** Paris Club creditors have committed to provide debt relief estimated at US\$21.4 billion in end-2014 PV terms to the 36 countries that have reached their decision points (Tables 11 and 12). Most members of the Paris Club have also voluntarily committed to provide additional debt relief beyond that required under the HIPC Initiative (Tables 12 and 13).

**11.** The share of debt relief attributable to non-Paris Club official bilateral creditors is estimated at US\$4.8 billion in end-2014 PV terms (Tables 14 and 15). Thus far, a little less than half of this expected debt relief has been delivered. Securing the participation of non-Paris Club official bilateral and private commercial creditors has been a challenge since the inception of the HIPC Initiative. Approximately 30 percent of the non-Paris Club creditors are yet to participate in the HIPC Initiative. Staffs of the World Bank and the IMF have continued to rely on the use of moral suasion and on the efforts by the HIPCs themselves to increase the participation of these creditors. (Table 15).

<sup>11</sup>Eligible creditors include: AfDB, BOAD, CABEI, CDB, CMCF, EADB, FONPLATA, IaDB, IBRD, IFAD, IDA and NDF. These estimates exclude resources necessary for the IMF to provide debt relief to pre-decision point countries.

<sup>12</sup>Annex III Table 10 excludes contributions from AfDB, which are non-cash transactions.

<sup>13</sup>Includes pledges from Germany and the United States that total about US\$145 million.

<sup>14</sup>Future debt relief costs are based on current estimates of completion point dates, debt outstanding, as well as assumptions regarding the applicable discount rates. These estimates do not take into consideration possible future additional debt relief to currently eligible HIPCs, additional relief due to potential slippages in completion point dates or other factors, including granting of debt relief to additional countries such as Myanmar, the potential eligibility of which could not be assessed because of lack of data, or Zimbabwe, which currently does not meet the HIPC Initiative eligibility criteria.

## Annex I. Country Status Under the Enhanced HIPC Initiative

**Table AI1. HIPC Pre-Decision Point Countries**

Country	Recent Political Development	Risk of Debt Distress	PRSP Status	IMF Program and Macroeconomic Status	Decision Point Date
<b>Eritrea</b>	Eritrea became independent in 1991 following a long conflict and remains a fragile state. President Isaias Afewerki has been in power since independence; and his party, the Eritrean People's Liberation Front, is the single political party. An unresolved border dispute with Ethiopia has dominated Eritrea's relations with its neighbors. The United Nations imposed sanctions against Eritrea in 2009 for supporting the Somali al Shabab militias. In 2011 another UN resolution required strict scrutiny of the government's use of resources from the exploitation of minerals.	In debt distress 12/1/2009	There is no recent PRSP and no ongoing work towards its preparation.	There are no ongoing discussions on a Fund-supported program. The 2009 Article IV Consultation was concluded in December 2009. A team from the African Department will visit Asmara. The forthcoming staff visit will take place in mid-February, 2016.	Uncertain
<b>Somalia</b>	Since Somalia's recognition in April 2013, and despite the challenging political and security conditions, the authorities have been actively engaging with the IMF and the international community. Unfortunately, the high turnover of government officials is impairing the continuity of policy discussions and absorption of technical assistance (TA). Senior government officials and institutions continue to be the targets of terrorism. The economy is growing while consumer price inflation remains moderate. In 2014, economic activity is estimated to have expanded, with real GDP rising by 3.7 percent and the CPI increasing by 1.3 percent, thanks to high household consumption (from population growth and returning members of the Diaspora), government operations, and private-sector fixed capital formation. Nominal GDP amounted to US\$5.7 billion. The most significant industries are: (i) agriculture, livestock, and fisheries; (ii) information and communications; (iii) wholesale and retail trade; and (iv) financial services. These estimates are subject to substantial uncertainty on account of poor data quality.	N/A	The World Bank is currently working on the PRSP process and documentation. The authorities prepared an economic recovery plan which outlines the government program to address poverty reduction issues.	Somalia has not had an IMF-supported program since 1987. Although the IMF cannot provide financial assistance to Somalia until it clears its arrears status, the IMF has been providing technical assistance in its key areas of expertise. On February 6, 2015, the IMF launched a US\$9.3 million multi-donor trust fund to support technical assistance and capacity building. IMF TA missions covered the following areas: (i) diagnosis of macroeconomic and institutional conditions; (ii) development of a possible currency reform program; (iii) preparation of the national budget; (iv) central bank accounting and governance; and, (v) development of statistical systems. In addition, FAD, LEG and MCM have been providing extensive support from headquarters on issues related to tax policy administration; central bank operations, banking and licensing supervision; and, the development of a proper AML/CFT framework. Somalia had a successful Article IV Consultation on July 27, 2015. IMF staff and the Somali authorities have made significant progress in the development of initial GDP estimates, the preparation of the national budgets, and financial accounting and reporting at the central bank.	N/A

Table AI1. HIPC Pre-Decision Point Countries (concluded)

Country	Recent Political Development	Risk of Debt Distress	PRSP Status	IMF Program and Macroeconomic Status	Decision Point Date
<b>Sudan</b>	In April 2015, President Al-Bashir was re-elected for five years.	In debt distress 12/30/2014	The Interim-PRSP was officially shared with the World Bank in November, 2012. The I-PRSP and the Joint Staff Advisory Note were discussed at the Fund's and Bank's Executive Boards in September, 2013. The Government is implementing the Interim-PRSP and started the process to prepare a full PRSP.	A staff-monitored program (SMP) for January-December 2014 was approved by IMF management on March 7, 2014. Its second review was completed on November 19, 2014. The 2014 Article IV consultation was concluded on September 17, 2014. The next Article IV consultation is planned for the first half of 2016.	N/A

**Table AI2. HIPC Completion-Point Countries: Progress towards Achieving the MDGs**

Country name	End poverty and hunger	Primary school completion rate	Increase the Ratio of girls to boys enrollment in primary and secondary education	Decrease child mortality rate	Decrease infant mortality rate	Decrease maternal mortality rate	Increase access to an improved water source	Increase access to improved sanitation facilities
Afghanistan	Insufficient data	Insufficient data	Sufficient progress	Moderately off target	Seriously off target	Insufficient progress	Insufficient progress	Seriously off target

Togo	Seriously off target	Insufficient progress	Sufficient progress	Moderately off target	Seriously off target	Seriously off target	Seriously off target	Seriously off target
Uganda	Sufficient progress	Seriously off target	Target met	Target met	Target met	Moderately off target	Target met	Seriously off target
Zambia	Seriously off target	Seriously off target	Insufficient data	Target met	Insufficient progress	Moderately off target	Moderately off target	Seriously off target

**Note:** The category “Target met” indicates that the MDG has already been met. The category “Sufficient progress” means that the last observed five year average growth rate indicates that MDG is on track to be met if growth rate is maintained. The category “Insufficient progress” is defined as meeting the MDG between 2015 and 2020. The category “Moderately off target” indicates that MDG might be met between 2020 and 2030. The category “Seriously off target” indicates that MDG will not be met even by 2030 unless a reversal in progress has occurred. The category “Insufficient data” is defined as having not enough data points to be able to estimate 5 year average or that the starting value is missing.

## Annex II. Country Coverage, Data Sources, and Assumptions for the HIPC Initiative and MDRI Costing Exercise

### A. Country Coverage

- The costing analysis for the 36 post-decision-point countries includes: Afghanistan, Benin, Bolivia, Burkina Faso, Burundi, Cameroon, Central African Republic, Chad, Côte d'Ivoire, Comoros, Democratic Republic of the Congo, Republic of Congo, Ethiopia, The Gambia, Ghana, Guinea, Guinea-Bissau, Guyana, Haiti, Honduras, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nicaragua, Niger, Rwanda, São Tomé and Príncipe, Senegal, Sierra Leone, Tanzania, Togo, Uganda, and Zambia.
- The costing analysis for the pre-decision-point countries is based on 3 HIPCs: Eritrea, Somalia, and Sudan.

### B. Data Sources

- Staff estimates are based on HIPC Initiative decision and completion-point documents for all 36 post-decision-point countries or estimates presented in Heavily Indebted Poor Countries (HIPC Initiative)—List of Ring-Fenced Countries that Meet the Income and Indebtedness Criteria at end-2004 for the 3 pre-decision-point HIPCs.
- Data was updated through end-August 2015.

### C. Assumptions for the HIPC Initiative and MDRI Costing Exercise

- Calculations of total costs include costs under the original and enhanced HIPC Initiative frameworks and the MDRI.
- Cost estimates for the HIPC Initiative are based on debt data after full use of traditional debt-relief mechanisms.
- The following exchange rates have been used for the MDRI calculations:

**IDA and AfDF.** The initial MDRI Trust Fund replenishment rate of 1.477380 U.S. dollars per SDR was applied for the period FY07-FY08. Cost estimates for FY09-FY11 and FY12-FY14 are based on the IDA15 and IDA16 foreign exchange reference rates of 1.52448 and of 1.50233 U.S. dollars per SDR, respectively. Cost estimates for FY15 onward are based on the IDA 17 replenishment rate of 1.50718 U.S. dollars per SDR.<sup>1</sup>

<sup>1</sup>IDA 17 covers the period from July 1 2014 to June 30 2017.

**IMF.** The exchange rate of the date that debt relief was delivered, and, in cases where debt was not yet delivered, the rate as of end-December 2014 was used.

**IaDB.** Currency units in U.S. dollars at end-2006.

#### **D. Update of Cost Estimates in Present Value Terms**

- The cost of HIPC Initiative assistance calculated in PV terms at the time of the decision-point is discounted to end-2014 using the average interest rate applicable to the debt relief. This rate was estimated at 2.36 percent and corresponds to the implicit long-term interest rate of currencies that comprise the SDR basket over the period 2012–14, calculated as a 6-month average of the Commercial Interest Reference Rate (CIRR) over this period, weighted by the participation of the currencies in the SDR basket. The same rate was used to calculate MDRI debt relief in end-2014 PV terms.

## Annex III. Tables

**Table AIII1. Summary of Debt Service and Poverty Reducing Expenditures 2001–20<sup>1</sup>**  
(In millions of U.S. dollars, unless otherwise indicated)

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020

1/ Data refer to 36 post-decision-point HIPCs, unless specified otherwise.

2/ Debt service paid covers 2001-2014, and debt service due covers 2015-2020. For post-completion point HIPCs, debt service due reflects the negotiated relief by the debtor countries, additional debt relief, provided by some Paris Club Creditors on a voluntary basis, and MDRI (countries that have reached the completion point in the more recent years, debt service projections assume full HIPC Initiative debt relief along with additional debt relief by the Paris Club and MDRI). See Appendix Table 2 for a detailed breakdown.

3/ As defined in PRSPs; excludes data for years in countries for which data is not available. See Table 3 for a country breakdown.

Sources: HIPC country documents, and World Bank and IMF staff estimates.

Note: Data corresponding to years of decision and completion points under the enhanced HIPC Initiative are in thin and thick boxes, respectively.

1/ Debt service paid covers 2001–2014, and debt service due covers 2015–2020. For post-completion point HIPCs, debt service due reflects the negotiated relief by the debtor countries, additional debt relief, provided by some Paris Club Creditors on a voluntary basis, and MDRI (for countries that have reached the completion point in the more recent years, debt service projections assume full HIPC Initiative debt relief along with additional debt relief by the Paris Club and MDRI).

2/ Data reported on a fiscal year basis.

3/ Reached decision point in 2000.

4/ Reached completion point in 2000.

Sources: HIPC country documents, and World Bank and IMF staff estimates.

Note: Data corresponding to years of decision and completion points under the enhanced HIPC Initiative are in thin and thick boxes, respectively.

1/ The coverage of poverty-reducing expenditures varies across countries, but is generally consistent with the definition in the PRSP and the budget of each HIPC. In some countries, the definition of poverty-reducing expenditures has evolved over time to include more sectors; therefore, some of the increase in such spending over the 2001–2003 period may reflect changes in the definition. In the majority of countries expenditures on health and education are included but beyond that there are wide variations in the sectoral spending included.

2/ Central government revenue excluding grants.

3/ Reached decision point in 2000.

4/ Reached completion point in 2000.

5/ Data reported on a fiscal year basis.

<b>Total Debt Relief Committed</b>			...	<b>76,378</b>	<b>50,428</b>	<b>126,806</b>

Sources: HIPC documents, and World Bank and IMF staff estimates.

1/ Committed debt relief under the assumption of full participation of creditors.

2/ Nominal MDRI costs include principal and interest foregone for all multilaterals participating in the Initiative, except IMF, which only include principal. The estimated costs for IMF reflect the stock of debt eligible for MDRI relief, which is the debt outstanding (principal only) as of end-2004 and that has not been repaid by the member and is not covered by HIPC assistance (EBS/05/158 Revision 1, 12/15/2005).

3/ Topping-up assistance and assistance provided under the original HIPC Initiative are expressed in PV-terms as of the time of the decision point.

4/ No totals are shown because the amounts are in different PV terms (according to the date of the decision point).

5/ Also reached completion point under the original HIPC Initiative. The assistance includes original debt relief.

6/ Assistance includes topping up at completion point.

7/ IMF MDRI debt relief to Cambodia and Tajikistan.

8/ Liberia received MDRI-type (beyond-HIPC) debt relief at end-June 2010, which was financed from the Liberia Administered Account.

Sources: HIPC documents, and World Bank staff estimates.

1/ Total delivered HIPC assistance to end-2014.

2/ Nominal MDRI costs include principal and interest foregone.

3/ The total amounts shown are only indicative, as they represent the sum of individual commitments expressed in different PV terms, corresponding to the time of the decision point of each HIPC.

4/ Also reached completion point under the original HIPC Initiative. The assistance includes original debt relief.

5/ The assistance includes topping-up at completion point.

Source: International Monetary Fund.

1/ Includes interest on amounts committed under the enhanced HIPC Initiative.

2/ Excludes remaining HIPC Initiative assistance delivered.

3/ Includes commitment under the original HIPC Initiative.

4/ Côte d'Ivoire reached its decision point under the original HIPC Initiative in 1998, but did not reach its completion point under the original HIPC Initiative. Debt relief of SDR 17 million, committed to Côte d'Ivoire under the original HIPC Initiative, was therefore not delivered.

5/ Afghanistan, Comoros, Haiti, and Togo did not have MDRI-eligible credit and did not receive MDRI debt relief from the IMF. Chad, Côte d'Ivoire, and Guinea had fully repaid MDRI-eligible debt by completion point date.

6/ Haiti received from the Post-Catastrophe Debt Relief Trust SDR 178 million on July 21, 2010.

7/ Liberia received MDRI-type (beyond-HIPC) debt relief at end-June 2010, which was financed from the Liberia Administered Account.

1/ The figures in this table were converted from SDR amounts using annual average US\$/SDR exchange rates for the HIPC disbursements and the exchange rate on the date of delivery of final debt relief disbursement.

2/ Includes also interest earned both on the commitment amount in PRG-HIPC Trust and on the amount in HIPC Umbrella Account.

3/ Haiti also received from the Post-Catastrophe Debt Relief Trust SDR 178 million on July 21, 2010.

4/ Liberia received MDRI-type (beyond-HIPC) debt relief of SDR 116.2 million at end-June 2010 financed from the Liberia Administered Account; equivalent to US\$171.9 million on June 30, 2010.

1/ The total amount of HIPC Initiative debt relief has been provided through arrears clearance operation.

2/ Weighted by each country's share in total debt service before HIPC.

2/ Debt service after HIPC for interim HIPC countries assumes that interim debt relief is provided according to the schedule determined at decision point.

Source: Paris Club Secretariat.

1/ Columns (1) to (7) describe the additional debt relief provided following a specific methodology under bilateral initiatives and need to be read as a whole for each creditor.

In column (1), "HIPCs" stands for eligible countries effectively qualifying for the HIPC process. A "100 percent" mention in the table indicates that the debt relief provided under the enhanced HIPC Initiative framework will be topped up to 100 percent through a bilateral initiative.

2/ Australia: Australia cancelled all HIPC claims.

3/ Belgium: cancellation at completion point 100 percent of ODA loans contracted before December 31, 2000.

4/ Denmark provides 100 percent cancellation of ODA loans and non-ODA credits contracted and disbursed before September 27, 1999.

5/ France: cancellation of 100 percent of debt service on pre-cutoff date commercial claims on the government as they fall due starting at decision point. Once countries have reached completion point, debt relief on ODA claims on the government will go to a special account and will be used for specific development projects.

6/ Finland: no post-Cutoff date claims

7/ If not treated in the Agreed Minutes at Completion Point, debt cancellation of 100 % only on a case by case basis.

8/ Italy: cancellation of 100 percent of all debts (pre- and post-cutoff date, ODA and non-ODA) incurred before June 20, 1999 (the Cologne Summit).

At decision point, cancellation of accrued arrears and maturities falling due in the interim period. At completion point, cancellation of the stock of remaining debt.

9/ The Netherlands: 100 percent ODA (pre- and post-cutoff date debt will be cancelled at decision point); for non-ODA: in some particular cases (Benin, Bolivia, Burkina Faso, Ethiopia, Ghana, Mali, Mozambique, Nicaragua, Rwanda, Tanzania, Uganda and Zambia), the Netherlands will write off 100 percent of the consolidated amounts on the flow at decision point; all other HIPCs will receive interim relief up to 90 percent reduction of the consolidated amounts.

At completion point, all HIPCs will receive 100 per cent cancellation of the remaining stock of the pre-cutoff date debt.

10/ Norway has cancelled all ODA claims.

11/ Due to the current World Bank/IMF methodology for recalculating debt reduction needs at HIPC completion point, Norway has postponed the decisions on whether or not to grant 100% debt reduction until after HIPCs' completion point.

12/ Russia has no ODA claims

13/ Spain provides 100 percent cancellation of ODA and non-ODA claims contracted before January 1, 2004

14/ Sweden has no ODA claims.

15/ Switzerland has cancelled all ODA claims.

16/ Switzerland usually writes off 100 percent of government-owned claims of the remaining debt stock at Completion Point and provides at least full HIPC debt relief of claims held by the ECA (100% cancellation of all remaining claims with the exception of Honduras and Cameroon).

17/ United Kingdom: "beyond 100 percent" full write-off of all debts of HIPCs as of their decision points, and reimbursement at decision point of any debt service paid before the decision point.

18/ United States: cancellation of 100 percent of all debts (pre- and post-cutoff date, ODA and non-ODA) incurred before June 20, 1999 (the Cologne Summit).

At decision point, cancellation of accrued arrears and maturities falling due in the interim period. At completion point, cancellation of the stock of remaining eligible debt.

19/ 100% debt relief provides for countries reached Completion Point before December 31, 2006 as of December 21, 2006 and for countries reached Completion Point after December 31, 2006 as of date of Completion Point. No payments are expected from debtors from those dates.

20/ Exception is short term debt category

Sources: HIPC Country Documents; IMF staff estimates.

<sup>1/</sup> Non-Paris Club creditors include those creditors that did not indicate their intention to participate in the Paris Club meeting at the time the completion point document for a particular country was being prepared. Thus, the claims of some creditors that are not permanent members of the Club, but were invited by the Paris Club to participate in the completion point debt negotiation for a given country and signed the Paris Club Agreed Minutes at the end of this negotiation, are not considered in here.

<sup>2/</sup> Listed as Yugoslavia in decision point documents.

<sup>3/</sup> Excludes claims held by the Československa Obchodní Banka on Mozambique at the time of decision point.

<sup>4/</sup> Guatemala's claims on Nicaragua were taken over by Spain in a debt swap. Spain has agreed to provide HIPC Initiative debt relief to Nicaragua on those claims.

Sources: HIPC documents; country authorities; and Fund and Bank staff estimates.

1/ Based on information received as of September 2015. The information covers only creditors that have claims on post-completion-point countries. The information presented in the table is now based only on responses received from the IMF country team with consultations from the authorities. Creditors are not going to be surveyed which is a change in methodology compared to the previous status reports monitoring relief from the non-Paris creditors.

2/ Argentina, Brazil, the Republic of Korea, Kuwait, Mexico, Morocco, Portugal, South Africa, and Trinidad and Tobago are associated members of the Paris Club. As such, these countries participate in negotiation sessions of the Paris Club on a case-by-case basis, provided that certain conditions are met. Generally, creditors participating in a negotiation session for a particular country are considered Paris Club members for the purpose of HIPC calculations, insufficient to quantify it.

4/ Partition of HIPC loans outstanding at decision point and the associated debt relief among members of the Former Yugoslavia is being determined with the help of the authorities.

5/ Guatemala's claims on Nicaragua were taken over by Spain in a debt swap. Spain has agreed to provide HIPC debt relief to Nicaragua on those claims.

6/ In June 2003, India announced its intention to write off all non-export credit claims on HIPCs. However, several agreements remain unsigned.

7/ The details for the debt relief provided are now available to be able to better estimate the effort by these creditors.

1/ Commercial creditors lawsuits against HIPCs are reported without assessing the merits of these disputes. The information reported in this table reflects responses by the authorities, and it should not be considered a complete summary of all commercial creditor proceedings against HIPCs. The cases reported here are either ongoing or recently settled. Past cases can be found in previous Statistical Updates.

2/ Either original creditor or holder of current claim.

3/ "Judgment awarded" refers to cases in which the creditor has obtained a judgement against the HIPC but has not yet recovered the full payment on its claim. Settled refers to cases where the judgement has been awarded and both parties have been settled on their claims.

4/ Excludes accumulated interest, charges, and penalties.

5/ Amount could include interest, charges, and penalties.

6/ Judgement has been appealed. Approximate amount in USD, amount reported EUR 167 million.

7/ Approximate amount in USD, amount reported EUR 5 million. Excludes accumulated interest, charges, and penalties.

8/ Approximate amount in US\$ representing the equivalent of CFA 88,886 million (original claims) and CFA 109,784 million (claimed by creditor).

9/ An agreement reached in June 25, 2015 reduced the total amount to US\$20 millions, in which US\$5 million has been paid and the remaining balance will be paid in 20 years with 1.75 percent annual interest rate.
