Energy and carbon emissions

CO₂ emissions and primary energy

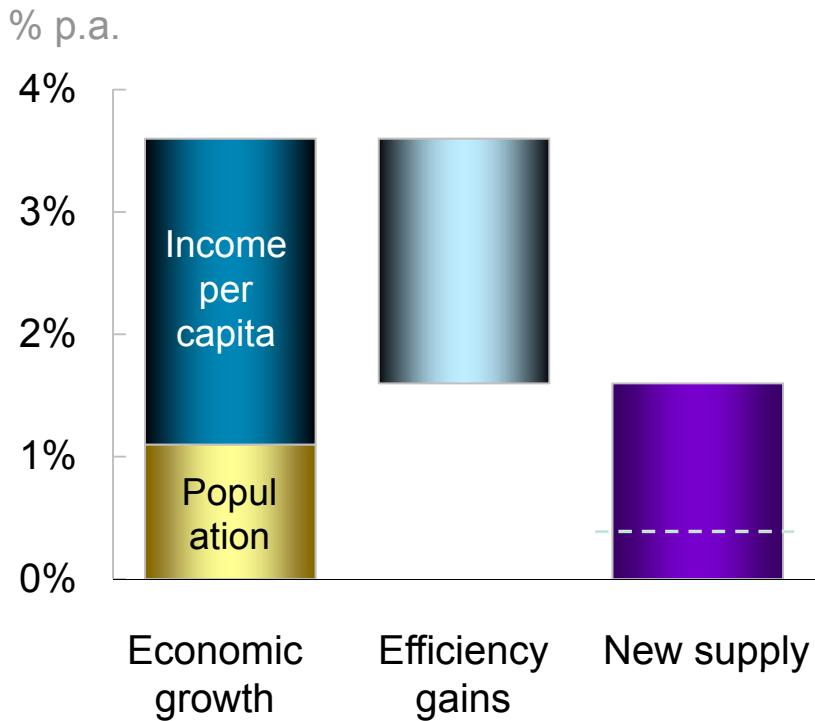

Growth of CO₂ emissions

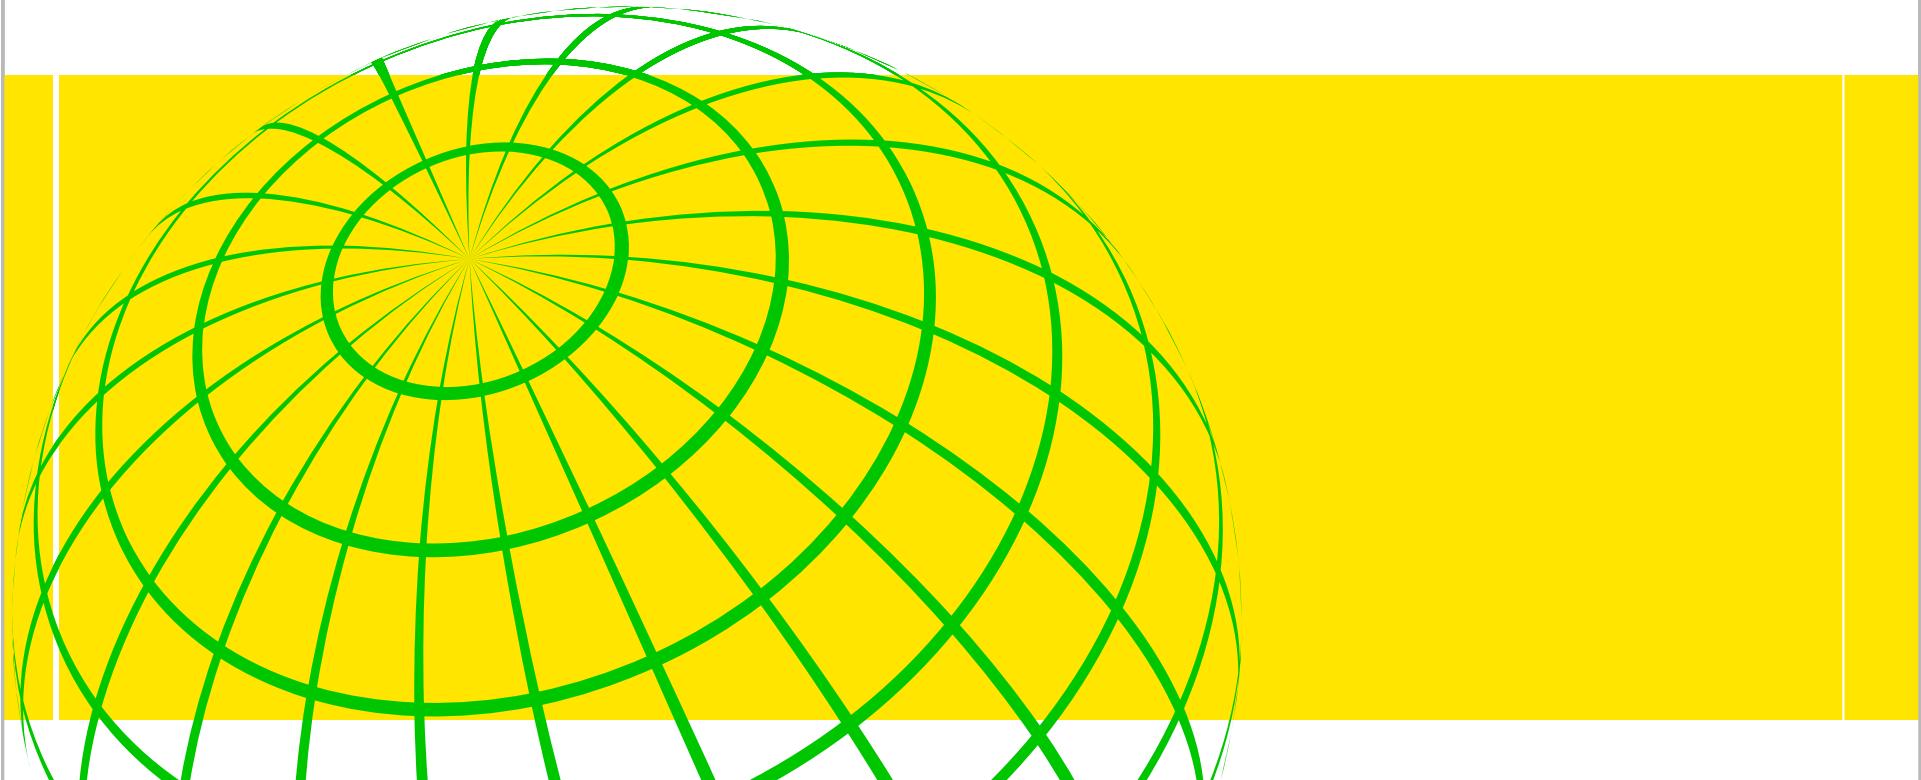

Conclusion

- Economic growth needs energy
- Competition and innovation are the key to meeting this need
 - energy efficiency
 - new supplies
- Wide ranging implications

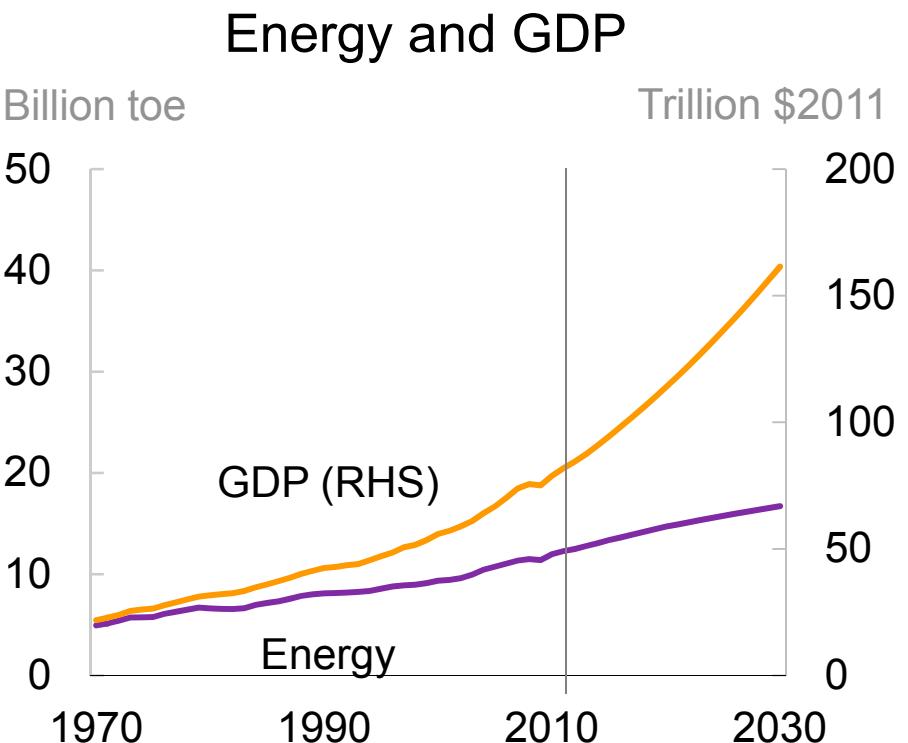

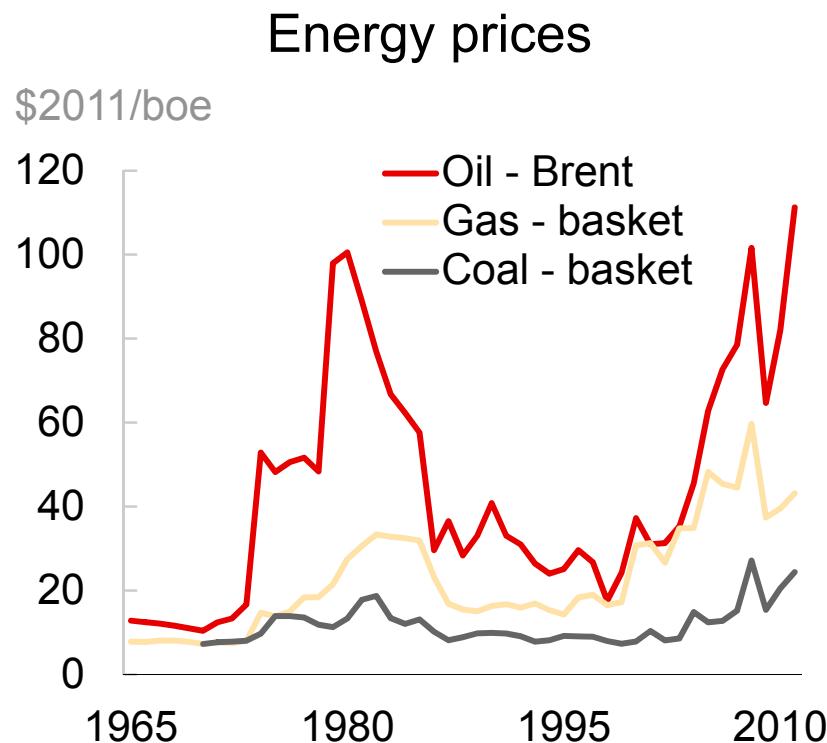

January 2013

BP Energy Outlook 2030

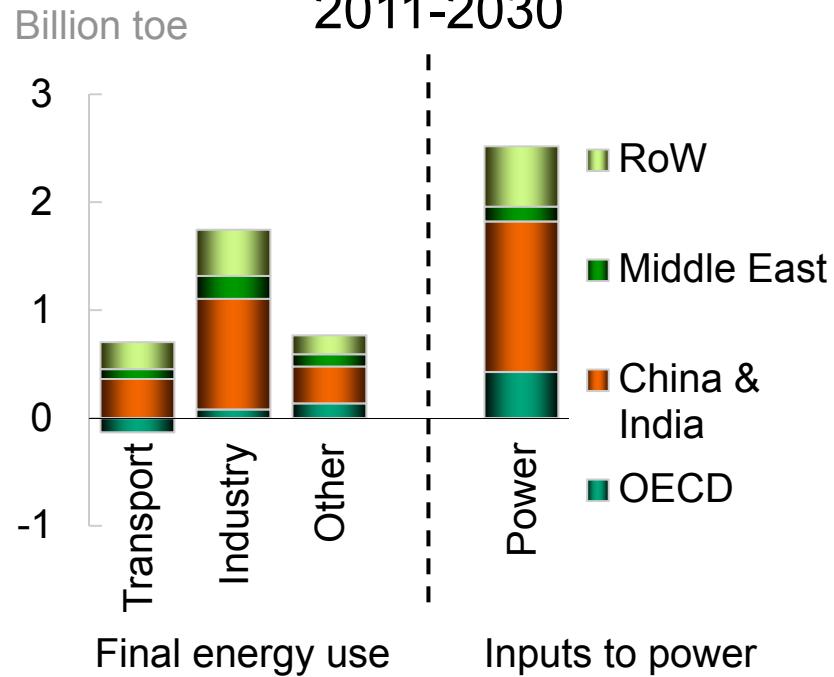

Energy: prices demand growth

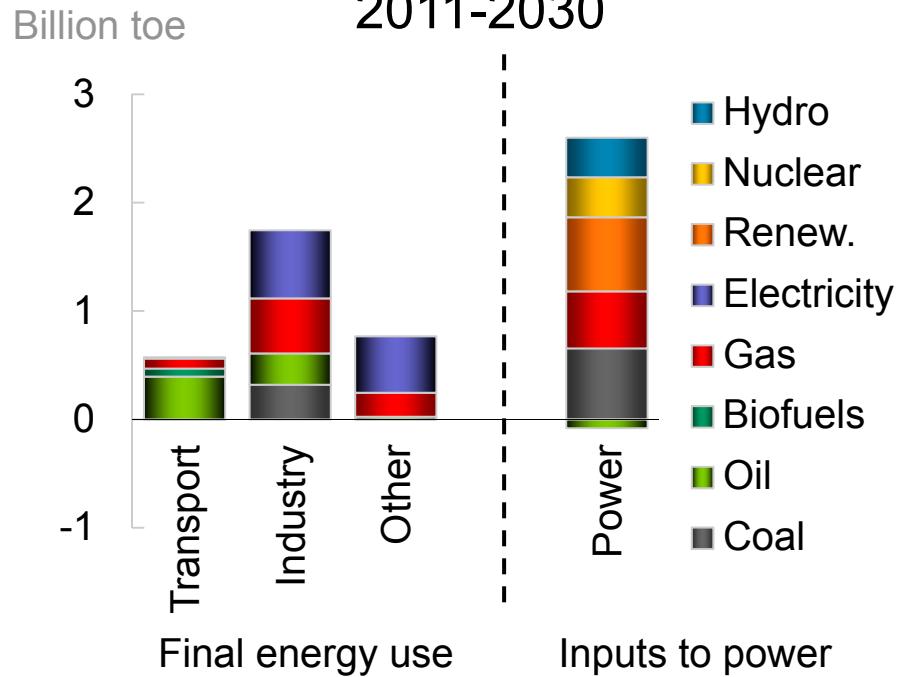

The power sector leads primary energy growth

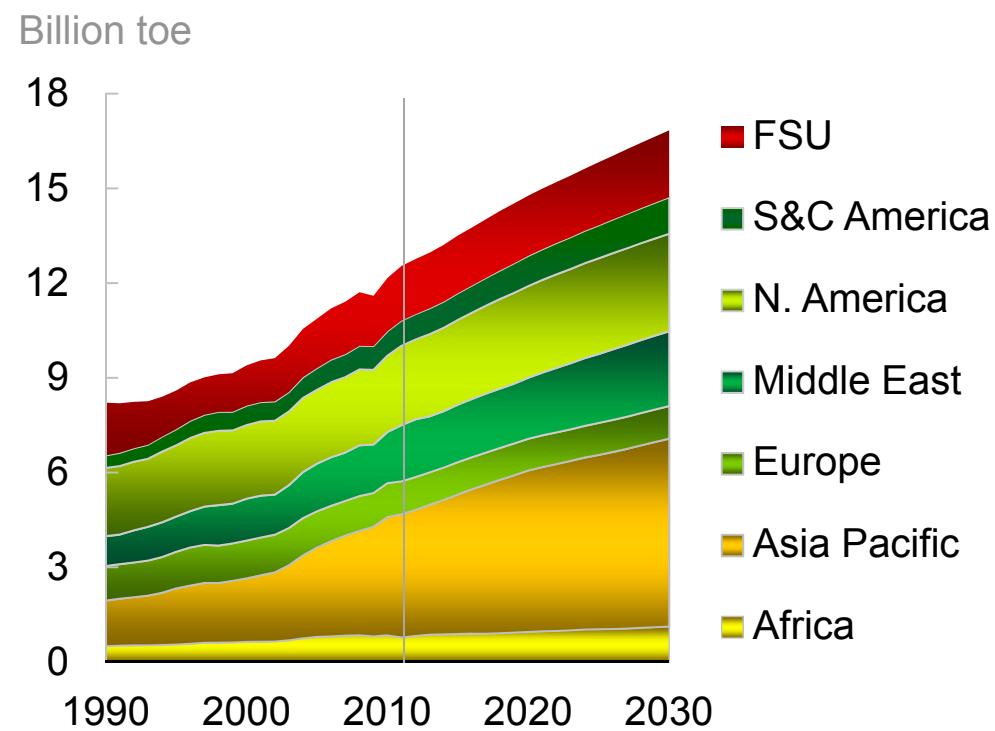

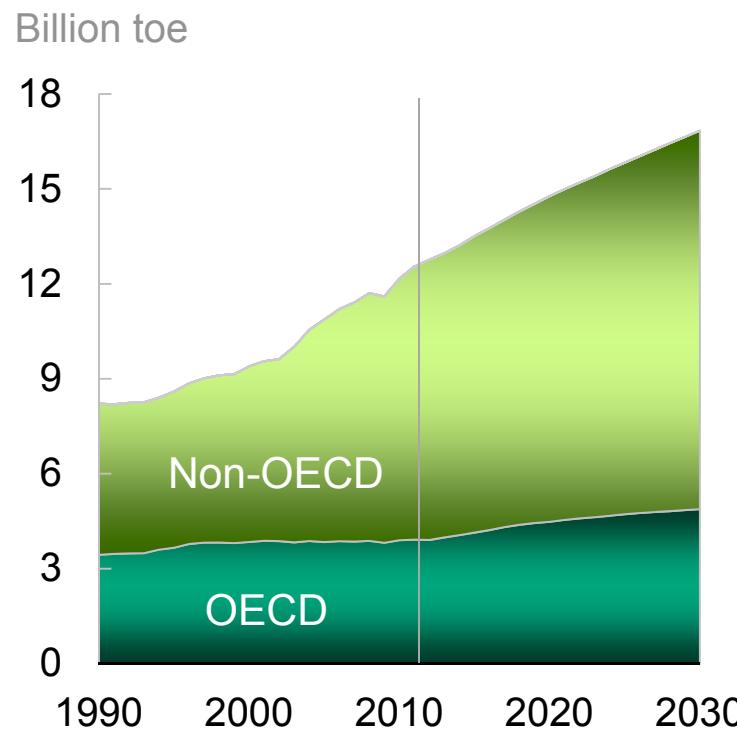

Growth by sector and region,
2011-2030

Growth by sector and fuel,
2011-2030

Emerging economies dominate energy production
