## Table B1. Advanced Economies: Unemployment, Employment, and Real per Capita GDP (concluded)

 <sup>1</sup> Compound annual rate of change for employment and per capita GDP; arithmetic average for unemployment rate.
 <sup>2</sup> National definitions of unemployment may vary.
 <sup>3</sup> In this table, Other Advanced Economies means advanced economies excluding the G7 (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and Euro Area countries.

# Table B2. Emerging Market and Developing Economies: Real GDP (Annual percent change)

Note: The country group composites for fiscal data are calculated as the sum of the U.S. dollar values for the relevant individual countries. <sup>1</sup> Percent of GDP. <sup>2</sup> In this table, Other Advanced Economies means advanced economies excluding the G7 (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and

<sup>3</sup> Percent of potential GDP.
 <sup>4</sup> Annual data are period averages, for the United States, 10-year Treasury bond yield at constant maturity; for Japan, 10-year government bond yield; for the Euro Area, a weighted average of national 10-year government bond yields.

Note: The country group composites for fiscal data are calculated as the sum of the U.S. dollar values for the relevant individual countries. <sup>1</sup> On a national income accounts basis except as indicated in footnotes. See Box A1 for a summary of the policy assumptions underlying the projections.

<sup>2</sup> Adjusted for valuation changes of the foreign exchange stabilization fund.
 <sup>3</sup> Based on ESA95 methodology, according to which swap income is not included.

<sup>4</sup> Data for 2009 and 2010 reflect the impact of banking support measures. The fiscal balance estimates excluding these measures are –11.7 percent of GDP for 2009 and -11.5 percent of GDP for 2010.

<sup>5</sup> Data cover the central government and social security funds and are on a cash basis. The 2011 fiscal balance includes 0.7 percent of GDP in recapitalization costs of the largest state bank, which were treated as state aid.

Data cover the consolidated central government, including social security funds but excluding privatization.

Data are on a cash basis.

<sup>9</sup> Government net lending/borrowing is revenue minus expenditure plus balance of state-owned enterprises, excluding privatization receipts.
<sup>9</sup> Data exclude total social contributions and payments, not only social security.

Data are on a budget basis.

<sup>11</sup> Data are on an administrative basis and exclude social security transactions. <sup>12</sup> Data are on a national income basis and exclude social security transactions.

<sup>13</sup> In this table, Other Advanced Economies means advanced economies excluding the G7 (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and Euro Area countries.

Note: The country group composites for fiscal data are calculated as the sum of the U.S. dollar values for the relevant individual countries.

<sup>1</sup> On a national income accounts basis. The structural balance position is defined as actual net lending/borrowing minus the effects of cyclical output from potential output, corrected for one-time and other factors, such as asset and commodity prices and output composition effects. Because of the margin of uncertainty that attaches to estimates of cyclical gaps and to tax and expenditure elasticities with respect to national income, indicators of structural budget positions should be interpreted as broad orders of magnitude. Moreover, it is important to note that changes in structural balances are not necessarily attributable to policy changes but may reflect the built-in momentum of existing expenditure programs. In the period beyond that for which specific consolidation programs exist, it is assumed that the structural deficit remains unchanged.

<sup>3</sup> Excludes one-time receipts from the sale of assets, including licenses.
 <sup>3</sup> Excludes one-time measures based on authorities' data and, in the absence of the latter, receipts from the sale of assets.

<sup>4</sup> In this table, Other Advanced Economies means advanced economies excluding the G7 (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and Euro Area countries.

<sup>5</sup> Excludes commonwealth government privatization receipts.

<sup>6</sup> Excludes oil and income on the Government Pension Fund-Global.

<sup>7</sup> Government net lending/borrowing is revenue minus expenditure plus balance of state-owned enterprises, excluding privatization receipts.

#### Table B8. Emerging Market and Developing Economies: General Government Net Lending/Borrowing and Overall Fiscal Balance (Percent of GDP)

<sup>1</sup> Georgia and Mongolia, which are not members of the Commonwealth of Independent States, are included in this group for reasons of geography and similarities in

<sup>2</sup> Deta for fiscal years 2009/10, 2010/11, and 2011/12 exclude payments for electricity arrears and commodity operations.
 <sup>3</sup> Calculations are based on Argentina's official GDP data. See footnote to Table A4.
 <sup>4</sup> Data for 2011 exclude South Sudan after July 9. Data for 2012 and onward pertain to the current Sudan.
 <sup>5</sup> Data for Syria are excluded for 2011 onward due to the uncertain political situation.

<sup>1</sup> Defined as the ratio, in common currency, of the unit labor costs in the manufacturing sector to the weighted average of those of its industrial country trading partners, <sup>2</sup> In nominal effective terms. Average July 30–August 27, 2012, compared with June 28–July 26, 2012, rates. <sup>3</sup> A synthetic euro for the period prior to January 1, 1999, is used in the calculation of real effective exchange rates for the euro. See Box 5.5 in the October 1998 *World Economic Outlook*.

# Table B11. Emerging Market and Developing Economies: Broad Money Aggregates (Annual percent change)

Standard presentation in accordance with the IMF's Balance of Payments Manual, Fifth Edition (1993).

Comprises capital transfers including debt forgiveness and acquisition/disposal of nonproduced, nonfinancial assets.

Private financial flows comprise direct investment, portfolio investment, and other long- and short-term investment flows. Because of limitations on the data coverage for net

 <sup>4</sup> As defined in the *World Economic Outlook* (see footnote 5). It should be noted that there is no generally accepted standard definition of external financing.
 <sup>5</sup> Defined as the sum of, with opposite sign, the goods and services balance, net income and current transfers, direct investment abroad, change in reserve assets, net acquisition of other assets (such as recorded private portfolio assets, export credit, and the collateral for debt-reduction operations), and net errors and omissions. Thus, net external financing, according to the definition adopted in the World Economic Outlook, measures the total amount required to finance the current account, direct investment outflows, net reserve transactions (often at the discretion of the monetary authorities), net acquisition of nonreserve external assets, and net transactions underlying the errors and omissions (not infrequently reflecting capital flight).

<sup>6</sup> Including other transactions on the capital account.
 <sup>7</sup> Debt-creating foreign direct investment liabilities are not included.
 <sup>8</sup> Net disbursement of long- and short-term credits, including exceptional financing, by both official and private creditors.

9 Changes in liabilities.

<sup>11</sup> This is often referred to as the resource balance and, with opposite sign, the net resource transfer.

<sup>12</sup> Net external financing plus amortization due on external debt.
 <sup>13</sup> Net external borrowing plus amortization due on external debt.

# Table B20. Emerging Market and Developing Economies by Region: Balance of Payments and External Financing <sup>1</sup> (concluded) (Billions of U.S. dollars)

<sup>1</sup> For definitions, see footnotes to Table B19. <sup>2</sup> Credit and loans from the IMF can be found at www.imf.org/external/np/fin/tad/extrep1.aspx. <sup>3</sup> Georgia and Mongolia, which are not members of the Commonwealth of Independent States, are included in this group for reasons of geography and similarities in economic structure.

<sup>1</sup> Georgia and Mongolia, which are not members of the Commonwealth of Independent States, are included in this group for reasons of geography and similarities in economic structure. <sup>2</sup> Apart from interest, debt service for a particular year includes amortization of short-term debt on an original maturity basis outstanding at the end of the previous year, plus the portion of long-term debt outstanding at the end of the previous year maturing during the current year. The projections incorporate the impact of exceptional financing items. <sup>3</sup> Total debt at year-end in percent of exports of goods and services in year indicated.

 Table B23. Emerging Market and Developing Economies by Region: External Debt, by Maturity and Type of Creditor (concluded)

 (Billions of U.S. dollars)

<sup>1</sup> Georgia and Mongolia, which are not members of the Commonwealth of Independent States, are included in this group for reasons of geography and similarities in economic structure.

 Table B24. Emerging Market and Developing Economies by Analytical Criteria: External Debt, by Maturity and Type of Creditor (Billions of U.S. dollars)

<sup>1</sup> Data refer to trade in goods and services. <sup>2</sup> Georgia and Mongolia, which are not members of the Commonwealth of Independent States, are included in this group for reasons of geography and similarities in economic structure. <sup>3</sup> Interest payments and amortization on total debt. Projections incorporate the impact of exceptional financing items. Excludes service payments to the IMF.
