|--|------------|
| Preface | vii |
| Executive Summary | ix |
| I Introduction | I |
| II Impediments to Financial Market Development in Smaller Economies | 5 |
| Intrinsic Obstacles | 5 |
| Structural Obstacles | 8 |
| Institutional Obstacles | 10 |
| Policy Rigidities | 11 |
| Lack of Political Will and Vested Interests | 13 |
| III Foreign Exchange Markets | 14 |
| Stylized Facts | 14 |
| Market Development: From Central Bank Dominance to Market-Led | 15 |
| Fixed Exchange Rate Regime Issues | 18 |
| IV Money and Secondary Government Securities Markets | 20 |
| Stylized Facts | 20 |
| Market Development | 20 |
| V Secondary Equity Markets | 26 |
| Stylized Facts | 26 |
| Market Development | 26 |
| VI Regional Integration | 33 |
| The Potential Benefits of Regional Integration for Smaller Economies | 33 |
| Preconditions: Strong Linkages and Potential Business Opportunities | 34 |
| Government Policies: Markets Lead and Governments Supervise | 34 |
| Infrastructure Centralization | 35 |
| Annex I. Stylized Facts: Foreign Exchange Markets | 36 |
| Degree of Market Development | 36 |
| Potential Reasons for the Lack of Smaller Economy Foreign Exchange Market | |
| Development | 37 |
| Case Studies | 39 |
| Annex II. Stylized Facts: Money and Secondary Government Securities Markets | 47 |
| Money Markets | 47 |
| Secondary Government Securities Markets | 47 |

| | |
|---|-----------|
| Annex III. Stylized Facts: Secondary Equity Markets | 50 |
| Cross-Country Data and Patterns | 50 |
| Case Studies | 53 |
| Annex IV. Case Studies: Regional Integration | 67 |
| Market Integration in Europe | 67 |
| Integration of the Baltic Markets with Nordic Area Markets | 67 |
| Central America | 68 |
| Other Examples of Smaller Economy Regional Equity Market Integration | 69 |
| References | 70 |

| A1.2. | Median Daily Exchange Rate Percent Change, Emerging Markets and Smaller Economies with Floating Exchange Rate Arrangements | 38 |
| A1.3. | Maximum Daily Exchange Rate Percent Change, Emerging Markets and Smaller Economies with Floating Exchange Rate Arrangements | 39 |
| A2.1. | Market Turnover of Government Securities by Foreign Institutions | 49 |
| A2.2. | Market Turnover of Government Securities, Emerging Market Countries and Smaller Economies | 49 |
| A3.1. | Market Capitalization, 2005 | 51 |
| A3.2. | Smaller Economies and Emerging Market Countries: Number of Listed Companies | 52 |
| A3.3. | Smaller Economies and Emerging Market Countries: Market Capitalization | 53 |
| A3.4. | Smaller Economies and Emerging Market Countries: Turnover | 53 |

Boxes

| | | |
|-------|--|----|
| 3.1. | The Danish Foreign Exchange Market | 19 |
| 5.1. | Stock Exchange Trading Systems in Smaller Economies | 28 |
| A3.1. | Implications of the Literature for Secondary Equity Markets in Smaller Economies | 50 |

The following conventions are used in this publication:

- In tables, a blank cell indicates “not applicable,” ellipsis points (. . .) indicate “not available,” and 0 or 0.0 indicates “zero” or “negligible.” Minor discrepancies between sums of constituent figures and totals are due to rounding.
- An en dash (–) between years or months (for example, 2005–06 or January–June) indicates the years or months covered, including the beginning and ending years or months; a slash or virgule (/) between years or months (for example, 2005/06) indicates a fiscal or financial year, as does the abbreviation FY (for example, FY2006).
- “Billion” means a thousand million; “trillion” means a thousand billion.
- “Basis points” refer to hundredths of 1 percentage point (for example, 25 basis points are equivalent to ¼ of 1 percentage point).

As used in this publication, the term “country” does not in all cases refer to a territorial entity that is a state as understood by international law and practice. As used here, the term also covers some territorial entities that are not states but for which statistical data are maintained on a separate and independent basis.
