### Initial Assessment, Reassessment, and Update—Definitions

Initial Assessment: An assessment of observance of a standard done for the first time. An initial assessment results in a ROSC.

Reassessment: An assessment repeated following an initial assessment and resulting in a ROSC that replaces the previous one.

Update: An analysis of key developments regarding areas covered by a ROSC. It does not include a reassessment of the degree of observance of the standard.

-Accounting and Auditing ROSCs are counted together as one ROSC because they are assessed concurrently and presented together in a single document.

-Assessments of observance of AML/CFT principles conducted by the FATF and FATF-style regional bodies (FSRB) are included.

-Assessments of offshore financial centers (OFCs) are not included, unless they are part of an FSAP.
