

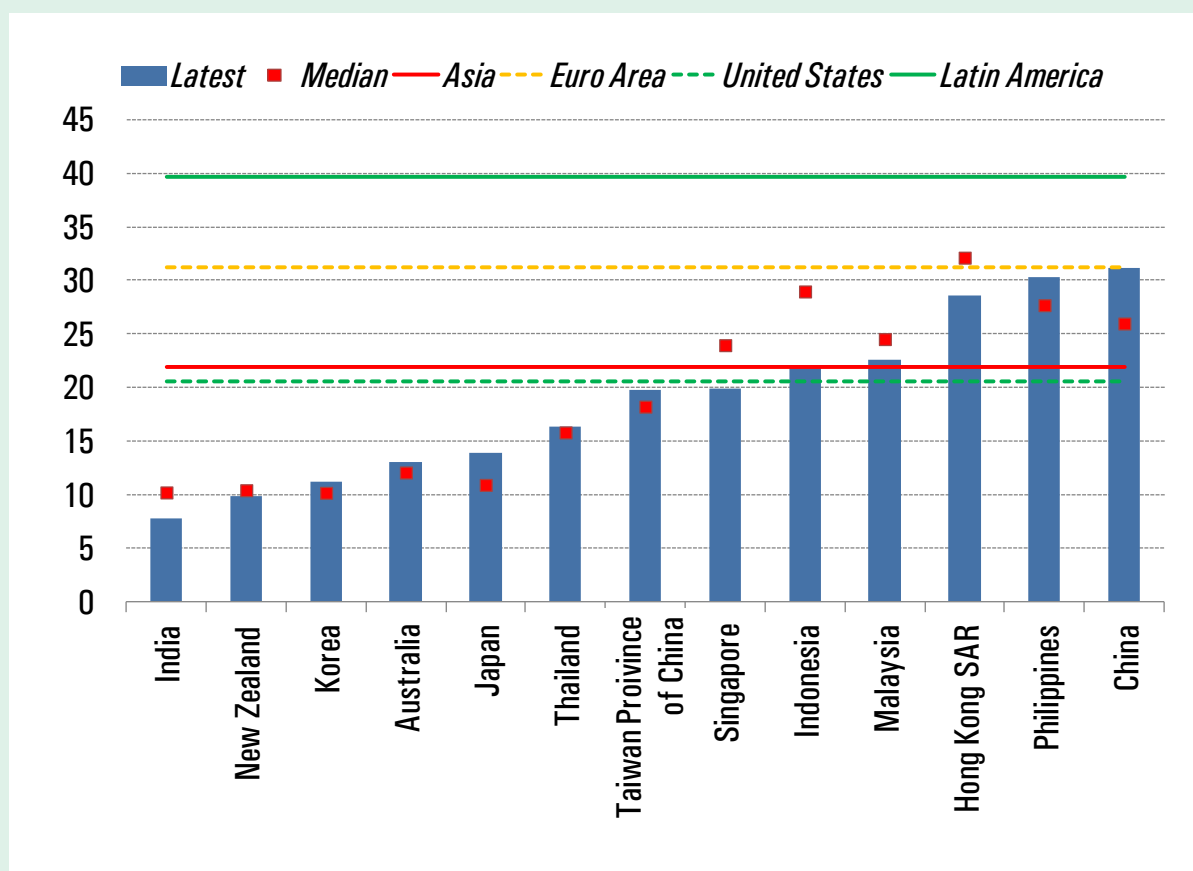

Figure 1.23. Selected Asia: Liquidity Ratio¹

(In percent)

Sources: Bankscope; and IMF staff calculations.

¹ Median for 2000-2012. Latest values available since 2012 are used. Total liquid assets/ total deposits + short-term borrowing + other short-term liabilities. In India's case, assets used for the purpose of meeting the statutory liquidity requirement are about 23 percent of net liabilities. The estimates shown in this chart exclude such assets.
