# Figure 5.15. Advanced Economies' Labor Income Share, Labor Compensation, and Employment: Robustness to Alternative Skill Classification[1]

Income Share of Labor
(weighted; percent of GDP)

Real Labor Compensation per Worker
(weighted; index, 1980 = 100)

Employment
(weighted; index, 1980 = 100)

Sources: Haver Analytics; International Labor Organization, Labor Statistics Database; OECD, Employment and Labour Market Statistics, National Accounts Statistics, and STAN Industrial Database; United Nations, *National Accounts Statistics* (2004); and IMF staff calculations.

[1]For the analysis by skill level, advanced economies include Austria, Belgium, Canada, Denmark, Finland, France, Germany, Italy, Japan, Norway, Portugal, Sweden, the United Kingdom, and the United States; weighted using series on GDP in U.S. dollars from the World Economic Outlook database.
