# World Economic and Financial Surveys

This series (ISSN 0258-7440) contains biannual, annual, and periodic studies covering monetary and financial issues of importance to the global economy. The core elements of the series are the *World Economic Outlook* report, usually published in May and October, and the annual report on *International Capital Markets*. Other studies assess international trade policy, private market and official financing for developing countries, exchange and payments systems, export credit policies, and issues discussed in the *World Economic Outlook*. Please consult the IMF *Publications Catalog* for a complete listing of currently available World Economic and Financial Surveys.

## World Economic Outlook: A Survey by the Staff of the International Monetary Fund

The *World Economic Outlook*, published twice a year in English, French, Spanish, and Arabic, presents IMF staff economists' analyses of global economic developments during the near and medium term. Chapters give an overview of the world economy; consider issues affecting industrial countries, developing countries, and economies in transition to the market; and address topics of pressing current interest.

## Issues in International Exchange and Payments Systems

by a staff team from the IMF's Monetary and Exchange Affairs Department

The global trend toward liberalization in countries' international exchange and payments systems has been widespread in both industrial and developing countries and most dramatic in Central and Eastern Europe. Countries in general have brought their exchange systems more in line with market principles and moved toward more flexible exchange rate arrangements in recent years.

## Private Market Financing for Developing Countries

by a staff team from the IMF's Policy Development and Review Department led by Steven Dunaway

The latest study surveys recent trends in flows to developing countries through banking and securities markets. It also analyzes the institutional and regulatory framework for developing country finance; institutional investor behavior and pricing of developing country stocks; and progress in commercial bank debt restructuring in low-income countries.

\$25.00 (academic rate: \$20.00); paper.

1995. ISBN 1-55775-526-4. **Stock #WEO-1595.**

## Toward a Framework for Financial Stability

by a staff team led by David Folkerts-Landau and Carl-Johan Lindgren

This study outlines the broad principles and characteristics of stable and sound financial systems, to facilitate IMF surveillance over banking sector issues of macroeconomic significance and to contribute to the general international effort to reduce the likelihood and diminish the intensity of future financial sector crises.

\$25.00 (academic rate: \$20.00); paper.

1998. ISBN 1-55775-706-2. **Stock #WEO-016.**

## Trade Liberalization in IMF-Supported Programs

by a staff team led by Robert Sharer

This study assesses trade liberalization in programs supported by the IMF by reviewing multiyear arrangements in the 1990s and six detailed case studies. It also discusses the main economic factors affecting trade policy targets.

\$25.00 (academic rate: \$20.00); paper.
