Challenge #2: Dealing with long COVID-19

Vaccine Deliveries by End-2021

(As of March 19, million doses)

Sources: Duke Global Health Innovation Center's Launch and Scale Speedometer, and IMF staff calculations.

Timeline to Vaccinate 60 Percent of Population

Sources: Survey of country teams and IMF staff calculations.
Notes: Syringes represent countries. Gray indicates no response.

Cost of Vaccinating 60 Percent of Population

Sources: IMF, World Economic Outlook, World Bank, and IMF staff calculations.

Challenge #3: Addressing scarring

Extreme Poverty in SSA
(Persons living below \$1.90, millions)

Sources: Mahler et al. (2021) and IMF staff calculations.

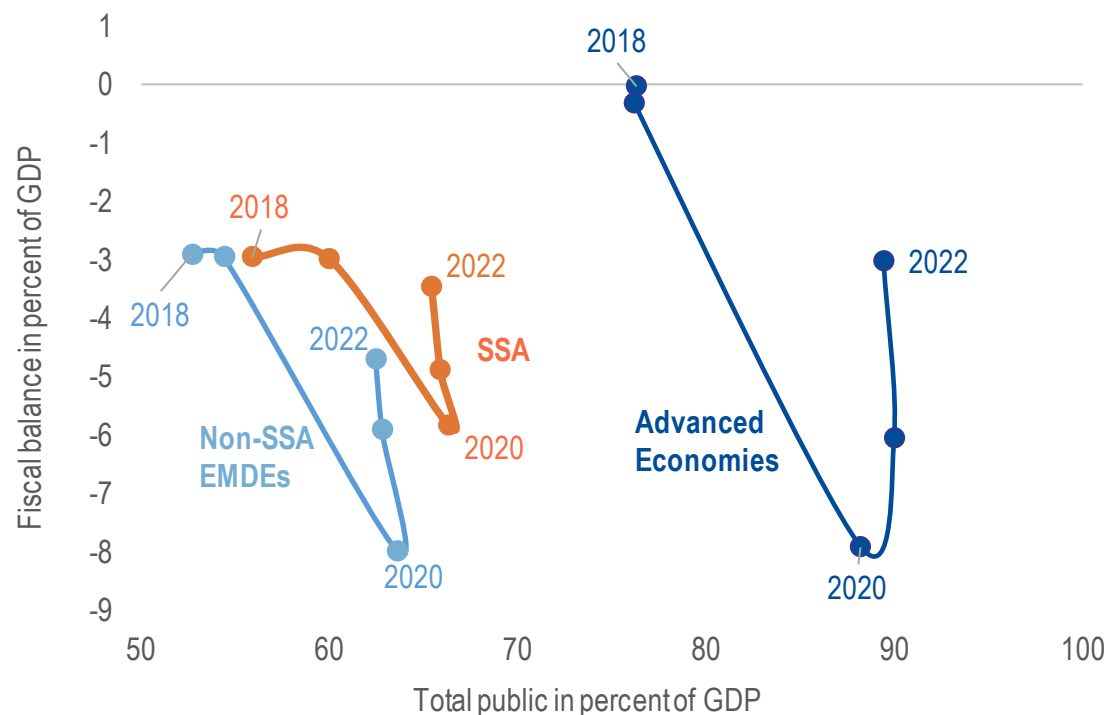

Learning Losses due to COVID
(Average missed days of instruction, 2020)

Sources: ILO and IMF staff calculations.

Challenge #4: Repairing public sector balance sheets...

Average Fiscal Balance and Public Debt, 2018–22

Debt Risk Status for PRGT Eligible SSA Countries

Source: IMF, World Economic Outlook.

Source: IMF, Debt Sustainability Analysis Low-Income Developing Countries database.
 Note: Debt risk ratings for Cabo Verde begins in 2014, and South Sudan in 2015.
 PRGT = poverty reduction and growth trust.

...and private sector balance sheets

Change in Monthly Sales, 2020

(Percent, average)

Sources: World Bank Business Pulse Surveys and Enterprise Surveys and IMF staff calculations.

Income Losses, May/June 2020

(Percent of surveyed households)

Sources: World Bank High-Frequency Phone Surveys on Covid-19 and IMF staff calculations.

Non-Performing Loans

(Percent of total gross loans)

Source: IMF Financial Soundness Indicators.

Challenge #5: Catalyzing external financing

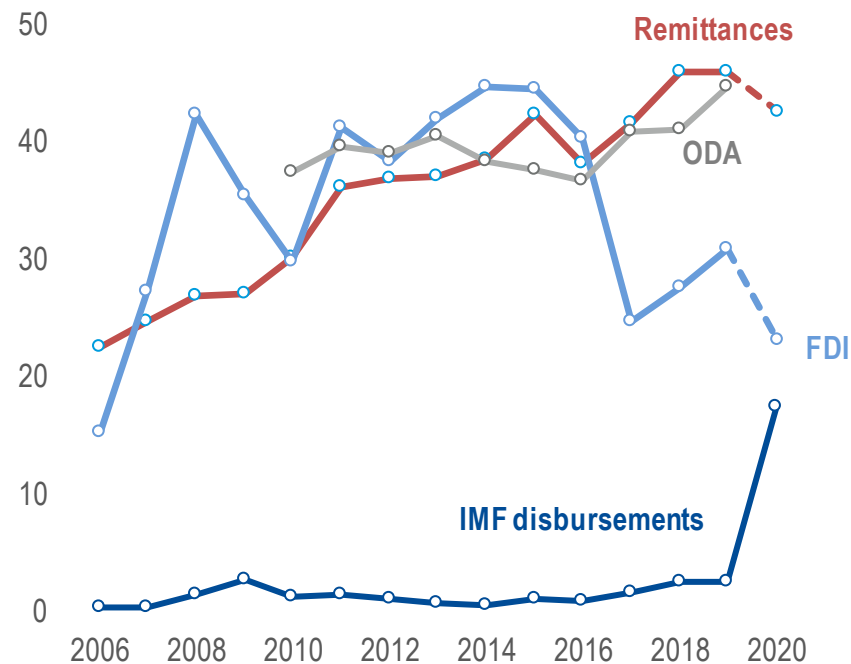

Additional External Financing Needs, 2021–25

Source: IMF staff calculations.

SSA: Selected Inflows

(Billion US\$)

Sources: IMF, World Economic Outlook, World Bank, and IMF staff calculations.
Notes: Excluding Mauritius. FDI and Portfolio inflow data for 2020 are based on the WEO database. Remittances inflows for 2020 are projections.

Challenge #6: Advancing transformative reforms

Potential for Digitalization

(Value of mobile money transactions, billion US\$)

Source: GMSA, Global Mobile Money Dataset

Note: Sub-Saharan Africa includes 42 countries, East Asia and Pacific includes 15 countries and does not include China or Japan, and South Asia includes 7 countries.

Potential for Diversification

(Percent of exports)

Sources: UN Comtrade and IMF staff calculations.

Policy priorities: Expanding what is possible

Protect lives and livelihoods

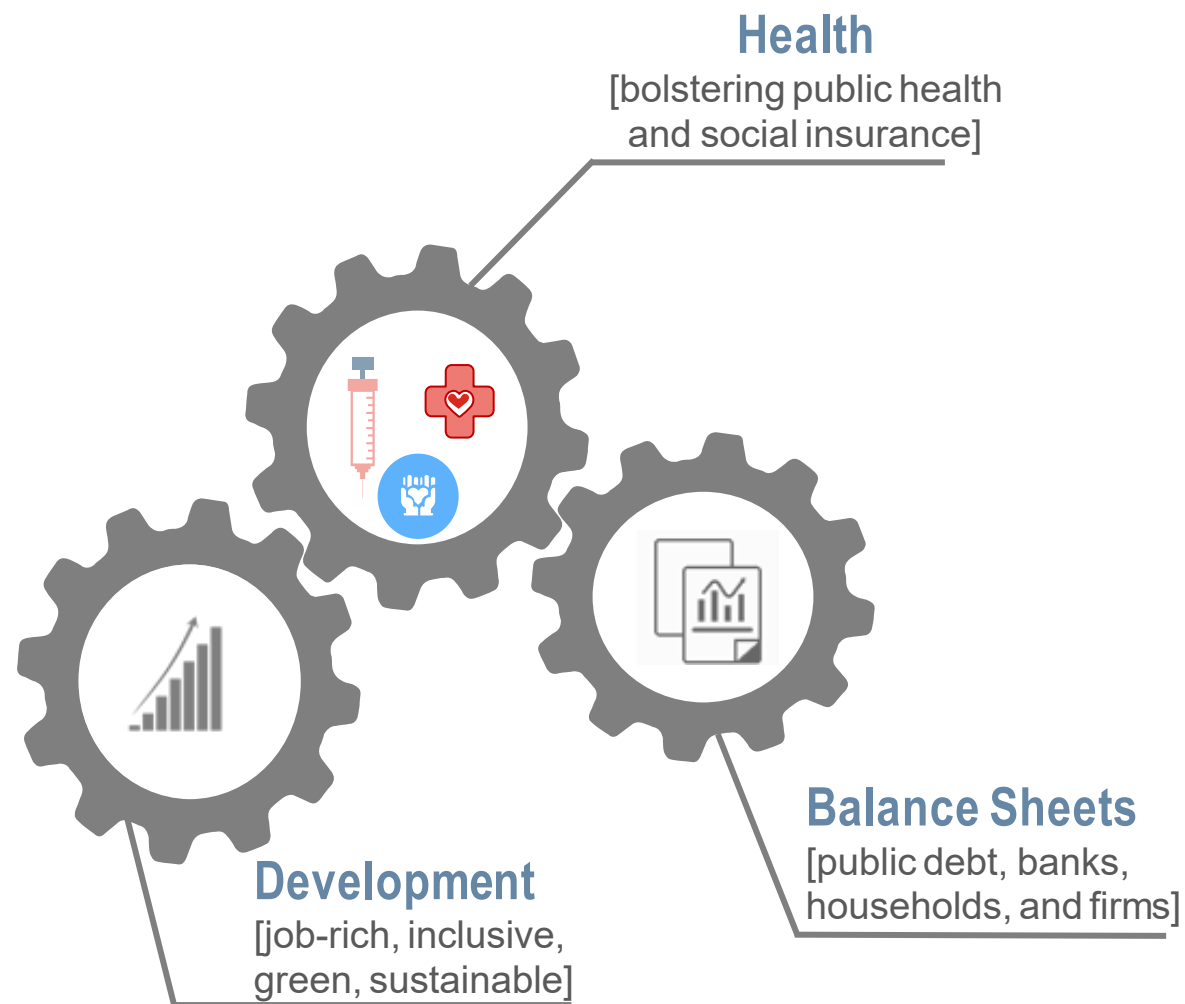

- Plan and secure funding for vaccine purchase and distribution and where needed seek donor support.
- Prevent health systems from being overwhelmed.

Create policy space

- Prioritize spending and mobilize domestic revenue to create space in near term.
- Address debt vulnerabilities and where needed seek debt-restructuring/reprofiling.

Attract private capital and promote private sector development.

- Improve the business climate.

Zimbabwe: Growth improving due to (i) positive weather shock (ii) stabilizing macro environment (iii) Covid-19 relatively well managed and (iv) global recovery

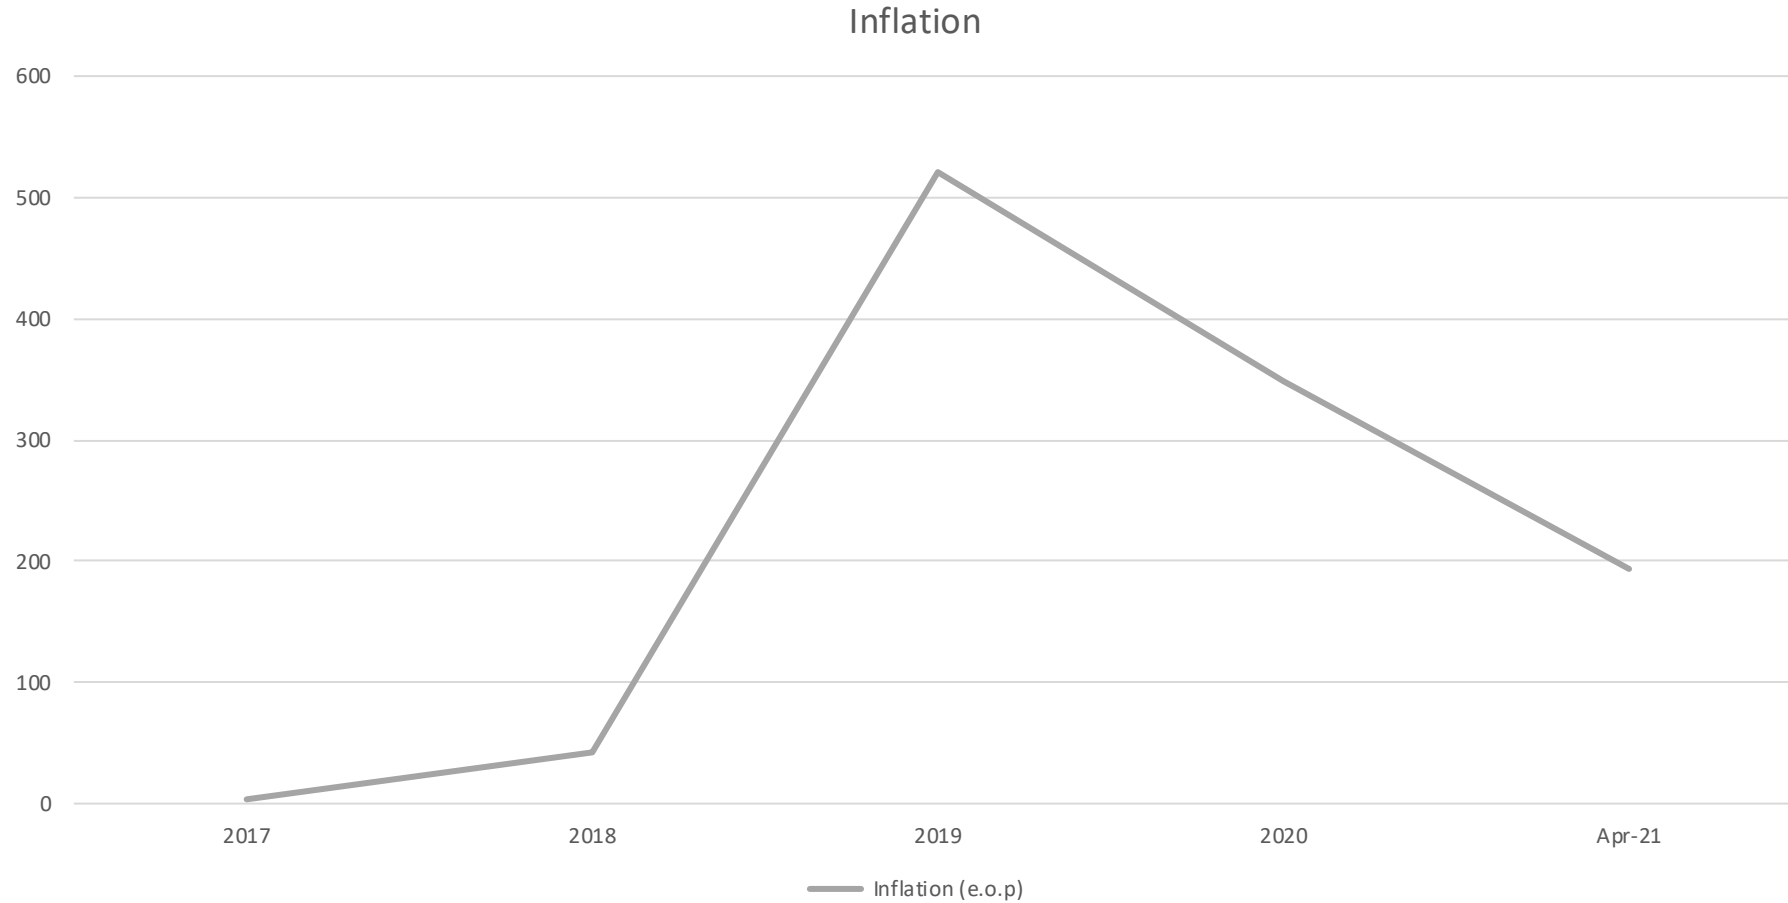

Source: IMF.

Zimbabwe: Exchange rate stabilized following the introduction of the auction system in June 2020

Zimbabwe: With more stable exchange rate, disinflation has set in and peak inflation was reached in 2020

Source: IMF.

Zimbabwe: Strong fiscal adjustment in 2018/19 means budget balance is close to equilibrium

Source: IMF.
