I. General Department

Quarterly Report on IMF Finances

The Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and items presented are prepared in accordance with International Financial Reporting Standards' measurement and recognition requirements.

Assessments for potential expected credit loss under IFRS 9 and the actuarial valuation of pension benefits under IAS 19 are conducted annually for the year-end financial statements.

The Quarterly Report should be read in conjunction with the [April 30, 2021 Annual Financial Statements](#) and the notes included therein.

GENERAL DEPARTMENT

The IMF conducts its operations and transactions through the General Department. The General Department comprises three accounts: (i) the General Resources Account (GRA); (ii) the Investment Account (IA); and (iii) the Special Disbursement Account (SDA).

GENERAL RESOURCES ACCOUNT (GRA)

The financial operations of the IMF with its members are primarily conducted through the GRA. The assets and liabilities in the GRA reflect the payment of member quota subscriptions, use and repayment of GRA credit, borrowings and repayments to lenders, collection of charges from borrowers, payment of remuneration on creditor positions and interest to lenders, and other operations.

A core responsibility of the IMF is to provide financial assistance to member countries experiencing actual or potential balance of payments problems. Upon the request of a member country, GRA resources are made available either under a financing arrangement or in the form of outright purchases (disbursements). An arrangement is a decision by the IMF Executive Board that gives a member the assurance that the IMF stands ready to provide resources to the member during a specified period and up to a specified amount, in accordance with the terms of the financing instrument.

INVESTMENT ACCOUNT (IA)

The IA holds resources transferred from the GRA, which are invested to broaden the IMF's income base. The Rules and Regulations of the IA adopted by the Executive Board provide the framework for the implementation of the expanded investment authority authorized under the Fifth Amendment of the Articles of Agreement. The IA comprises two subaccounts: the Fixed-Income Subaccount and the Endowment Subaccount. Assets are invested by external managers, except for investments with the Bank for International Settlements and short-term investments (residual cash balances).

SDR 6.7 billion

SPECIAL DISBURSEMENT ACCOUNT (SDA)

The SDA is the vehicle used to receive profits from the sale of gold held by the IMF at the time of the Second Amendment of the IMF's Articles of Agreement (April 1978). SDA resources can be used for various purposes, as specified in the Articles of Agreement, including transfers to the GRA for immediate use in operations and transactions, transfers to the IA, or operations and transactions that are not authorized by other provisions of the Articles but are consistent with the purposes of the IMF, in particular to provide balance of payments assistance on special terms to low-income member countries. At October 31, and April 30, 2021, the SDA did not hold any resources.

EXCHANGE RATE at October 31, 2021: SDR 1 was equal to US\$1.41538.

AVERAGE INTEREST RATES for the six months ended October 31, 2021: SDR Interest Rate: 0.050%, Adjusted rate of charge: 1.050%, Adjusted rate of remuneration: 0.050%.

II. SDR Department

Quarterly Report on IMF Finances

The Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and items presented are prepared in accordance with International Financial Reporting Standards' measurement and recognition requirements.

Assessments for potential expected credit loss under IFRS 9 are conducted annually for the year-end financial statements.

The Quarterly Report should be read in conjunction with the [April 30, 2021 Annual Financial Statements](#) and the notes included therein.

THE SPECIAL DRAWING RIGHT (SDR)

The SDR is an international reserve asset, created by the IMF in 1969 to supplement its member countries' official reserves. SDRs are allocated to participants in the SDR Department, all of whom are also members of the IMF. As of October 31, 2021, SDR 660.7 billion had been allocated, including SDR 456.5 billion allocated on August 23, 2021 and SDR 182.6 billion allocated in 2009. The new SDR allocation can play a role in providing liquidity and supplementing member countries' official reserves, as was the case with the 2009 allocations.

Further details can be found in the link below.

<https://www.imf.org/en/Topics/special-drawing-right>

The value of the SDR is based on a basket of five currencies—the Chinese renminbi, the Euro, the Japanese yen, the Pound sterling, and the U.S. dollar.

USES OF SDRS

Transactions

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves in accordance with the IMF's Articles of Agreement and decisions adopted by the IMF Executive Board. Participants may also conduct such transactions with any participant or prescribed holder through voluntary trading arrangements to buy and sell SDRs. Participants can use SDRs in operations and transactions involving the General Resources Account (GRA) of the General Department, such as the payment of quota, payment of charges, and repurchases. The GRA can use SDRs in operations and transactions involving participants, such as purchases, payment of remuneration, and repayment of borrowings.

Unit of Account

The financial statements and quarterly reports on IMF Finances are presented in SDRs, which is the IMF's unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in U.S. dollar equivalents on the basis of market exchange rates. The specific amounts of the currencies in the basket, effective October 1, 2016, are as shown in the table. [Further details can be found on IMF.ORG.](#)

III. Concessional Lending and Debt Relief Trusts

Quarterly Report on IMF Finances

The Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and items presented are prepared in accordance with International Financial Reporting Standards' measurement and recognition requirements.

Assessments for potential expected credit loss under IFRS 9 are conducted annually for the year-end financial statements.

The Quarterly Report should be read in conjunction with the [April 30, 2021 Annual Financial Statements](#) and the notes included therein.

The International Monetary Fund (IMF) is the Trustee of the following trusts:

(i) The Poverty Reduction and Growth Trust (PRG Trust); (ii) The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (the PRG-HIPC Umbrella Account); and (iii) The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (CCR Umbrella Account). Collectively, these trusts are referred to as the “Concessional Lending and Debt Relief Trusts” or the “Trusts”. The Trusts provide loans on concessional terms and/or debt relief assistance to low-income member countries.

POVERTY REDUCTION AND GROWTH TRUST (PRG TRUST)

The PRG Trust provides loans on concessional terms to qualifying low-income member countries. Financing is available under the following facilities:

- The Extended Credit Facility (ECF) for members with protracted balance of payments problems under three- to five-year arrangements;
- The Standby Credit Facility (SCF) for actual or potential short-term balance of payments needs under one- to three-year arrangements;
- The Rapid Credit Facility (RCF) for urgent balance of payments needs, which provides financial support in outright loan disbursements.

The operations of the PRG Trust are currently conducted through four Loan Accounts, four Subsidy Accounts, and the Reserve Account.

New Developments in the PRG Trust Accounts Structure

On July 14, 2021, the Executive Board approved amendments to the PRG Trust Instrument, which included the creation of two new accounts: (i) the Deposit and Investment Account (DIA) and (ii) the Subsidy Reserve Account (SRA).

The purpose of the DIA is to borrow resources to generate net investment earnings for the benefit of the SRA or, at the request of donors, the General Subsidy Account. The SRA is designed to subsidize PRG Trust lending after the resources in other Subsidy Accounts are exhausted and provide additional reserve coverage as a second-line backstop after the Reserve Account.

PRG-HIPC TRUST AND RELATED UMBRELLA ACCOUNT

The PRG-HIPC Trust provides financial assistance in the form of grants or loans to low-income member countries that qualify for the HIPC Initiative. The HIPC Initiative helps these member countries reduce their external debt burden to sustainable levels. The PRG-HIPC Trust receives and invests resources, which consist of grant contributions, transfers from the Special Disbursement Account, transfers of earnings from Administered Accounts, and net earnings from investments. The PRG-HIPC Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the PRG-HIPC Trust are administered in the PRG-HIPC Umbrella Account on behalf of the recipients.

The CCR Trust provides balance of payments assistance in the form of grants to eligible low-income member countries following catastrophic natural or public health disasters. The CCR Trust receives and invests resources, which consist of grant contributions, transfers from the SDA, and net earnings from investments. The CCR Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the CCR Trust are administered in the CCR Umbrella Account on behalf of the recipients.

New Developments under the COVID-19 Debt Relief Initiative

On October 6, 2021, the Executive Board approved the CCRT-eligibility of two member countries, enabling them to request and receive grants for debt service relief. On the same date, the Executive Board also approved the disbursement of grants for the fourth tranche of debt relief assistance to 24 eligible member countries, including the two new CCRT-eligible member countries, impacted by the COVID-19 pandemic. The grants were used by the member countries to make debt service payments on their eligible debt.
