**Proposed Amendment on the Reform of the IMF Executive Board and
Fourteenth General Review of Quotas—Status of Acceptances and Consents**

Prepared by the Finance, Legal, and Secretary's Department

Approved by Andrew Tweedie, Sean Hagan, and Jianhai Lin

November 9, 2012

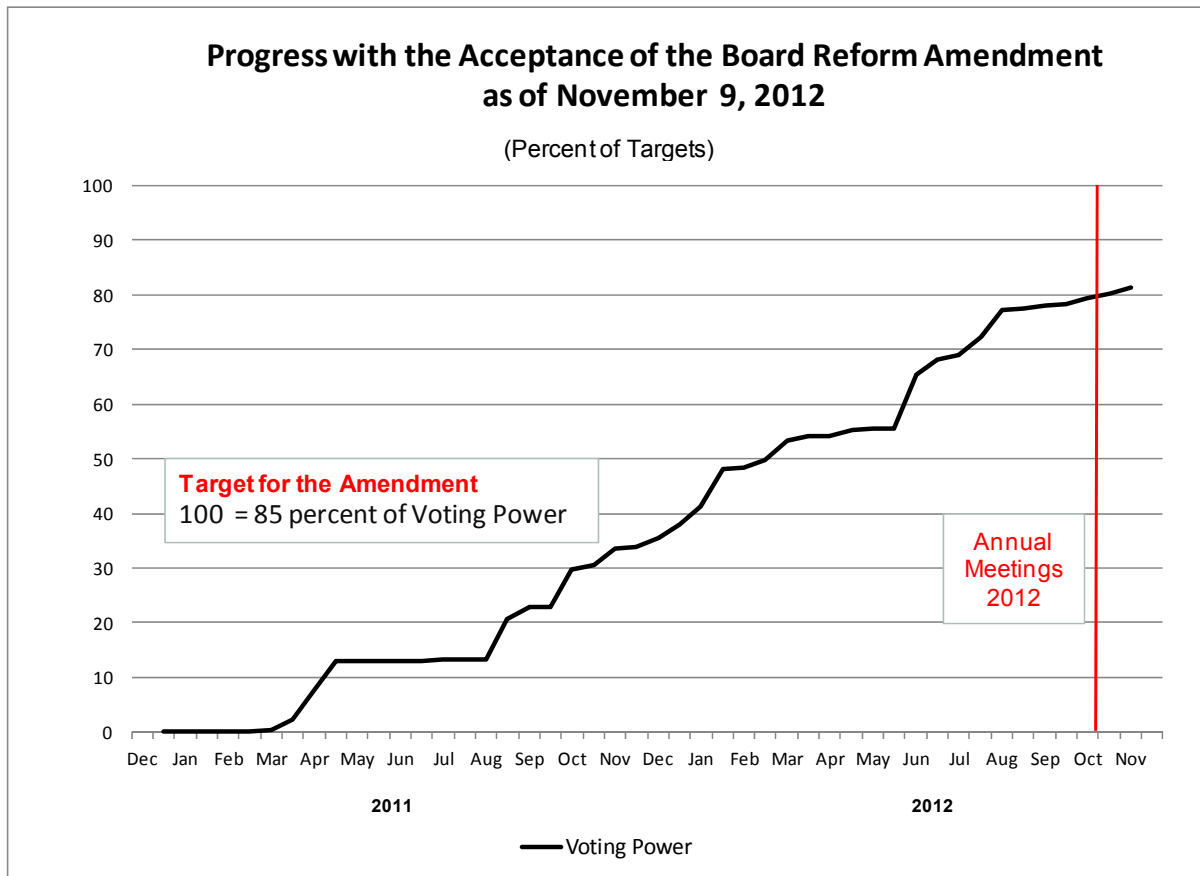

1. This status report reviews progress toward implementation of the 2010 Governance and Quota Reforms. It updates the status of consents to the proposed quota increases under the 14th General Review of Quotas and of acceptances of the Proposed Seventh Amendment on the Reform of the Executive Board (“Board Reform Amendment” or “Seventh Amendment”) as set out in the Board of Governors Resolution No. 66-2.
2. For the proposed quota increases under the 14th General Review of Quotas to become effective, members having not less than 70 percent of the total of quotas on November 5, 2010 must consent to the increases in their quotas and the proposed Board Reform Amendment must have entered into force.¹ The proposed Board Reform Amendment enters into force once the Fund certifies that three-fifths of the members (i.e., currently 113 members) representing 85 percent of the total voting power have accepted the proposed amendment.
3. As of November 9, 137 members having 75.56 percent of quotas as of November 5, 2010 had consented to their proposed quota increases under the 14th General Review of Quotas. As of the same date, 125 members having 69.43 percent of the total voting power had accepted the proposed Board Reform Amendment (see attached Tables).
4. The previous status report was issued to the Executive Board on October 3.² Since then, six additional members have consented to their proposed quota increase and twelve more members have accepted the proposed Board Reform Amendment. Overall, the membership has already achieved both the quota threshold for effectiveness of the quota increases under the 14th General Review of Quotas and one of the thresholds, namely the required number of members, for the entry into force of the Board Reform Amendment. However, the membership is about four-fifths of the way toward meeting the voting power threshold for the entry into force of the Board Reform Amendment, which is also necessary

¹ The third condition set out in Resolution No. 66-2 has been met with the entry into force on March 3, 2011 of the Voice and Participation Amendment (Sixth Amendment) of the Fund's Articles of Agreement, approved under Board of Governors Resolution No. 63-2.

for the effectiveness of the quota increase. Therefore, it remains critically important to reach the required voting power threshold as soon as possible. Staff and management will continue to work with country authorities to secure the needed acceptances in close collaboration with Executive Directors in the period ahead.

5. The staff will continue to report monthly to the Executive Board on the status of acceptances.³
