Unemployment rate (In percent)	5.4	5.9	5.7	5.4	5.8

Source: Fiji Bureau of Statistics, Labor Market Quarterly Surveys.

1/ Paid employment refers to wage and salary earners as opposed to subsistence workers and self-employed. The data are based on annual employment surveys which exclude mostcane cutters and other seasonal and temporary workers whose period of employment does not coincide with the survey period which is the last week of June.

2/ Labor force estimated by applying 1986 census labor force participation rates to age-specific population estimates. Employment figures include paid employees, unpaid workers estimated using slightly modified census proportions, and estimates of cane cutters. Unemployment is a residual item. 1996 estimates are provisional results of the 1996 census.
