1/ Fiscal year is April-March.

2/ Royalties from exports of water relating to the Lesotho Highlands Water Project (LHWP).

3/ Spending from accumulated earmarked customs and water revenues attributed to LHWP.

4/ Based on Ministry of Finance records, which differ from those of the Central Bank of Lesotho.

5/ Treated as financing. Positive implies understatement of financing or revenues, or overstatement of expenditure. For 1992/93 and 1993/94, residual represents mainly grant receipts blocked pending satisfaction of project conditions and reimbursements of costs incurred by the water component of the LHWP for work on the hydroelectric component.

1/ Fiscal year (April-March) in which indicated revenue payments are received.

2/ Fiscal year of data on which calculations are based (rates, dutiable base).

3/ Customs and excise revenues as percent of dutiable base (imports and excisable production, and duties) for SACU as a whole (data year).

4/ Basic rate multiplied by 1.42, as initial compensation for disadvantages to smaller members.

5/ One-half of difference between 20 percent and revenue (compensation) rate.

6/ Revenue (compensation) rate plus stabilization factor.

7/ At least 17.0 percent and no more than 23.0 percent; the calculated stabilized rate applies if it falls between 17-23 percent.

In recent years, the lower limit of 17.0 percent has been the operative rate applied to the dutiable base.

8/ Lesotho's imports (c.i.f. and duty-paid, adjusted to include electricity, estimated border shopping, etc.), excisable goods produced and consumed, and duties collected in the data year.

9/ Stabilized rate (actual) times dutiable base. Referred to as "accrued receipts" of data year.

10/ Stabilized rate (actual) times increase in dutiable base from two years earlier (as allowance for growth in dutiable base to revenue year).

11/ Minor adjustments made to account for revisions in base data, usually of previous data year. Calculated here as a residual.

12/ As reported in government revenue data.

13/ Basic rate times dutiable base. Referred to as "accrued receipts based on basic rate only."

On November 28, 1997, the buying and selling rates for the U.S. dollar were M 4.8445 and M 4.8675, respectively, per US\$1. Authorized dealers are permitted to conduct forward exchange operations through their correspondent banks abroad at rates quoted by the latter. Forward exchange cover is not, however, common in Lesotho. There are no taxes or subsidies on purchases or sales of foreign exchange.

Exchange control territory

Lesotho forms part of the CMA, which is an exchange control territory comprising Lesotho, Namibia, South Africa, and Swaziland. The amended Trilateral Monetary Agreement among Lesotho, South Africa, and Swaziland became effective on April 1, 1986 (and was further amended in 1989). Namibia, which was an indirect party to the agreement by virtue of its relationship with South Africa, officially became a party following its independence in March 1990. Payments within the CMA are unrestricted and unrecorded except for statistical and customs purposes. In its relations with countries outside the CMA, Lesotho applies exchange controls that are largely similar to those applied by South Africa and Swaziland.

Administration of control

The Central Bank of Lesotho controls external currency transactions and delegates to commercial banks the authority to approve certain types of current payments up to established limits. Permits are issued by the Department of Customs and Excise on the recommendation of the Department of Trade and Industry. Licenses for financial institutions accepting deposits and insurance companies, brokers, and agents are issued by the Central Bank of Lesotho.

Prescription of currency

There are no regulations prescribing the currencies that can be used in particular transactions.

Imports and import payments

Lesotho is a member of the Southern African Customs Union (SACU) with Botswana, Namibia, South Africa, and Swaziland. All imports originating in any country of the SACU are unrestricted (except certain food imports on a temporary basis); those from countries outside the SACU are usually licensed in conformity with the import regulations of the SACU. Lesotho reserves the right to restrict certain imports. Import permits are valid for all countries and entitle the holder to buy the foreign exchange required to make payments for imports from outside the SACU.

Exports and export proceeds

Most exports are shipped without license to or through South Africa, except the exportation of diamonds. Unless otherwise permitted, all export proceeds must be remitted to Lesotho within six months of the date of the export transaction.

Payments for, and proceeds, from invisibles

Limits on purchase of foreign exchange for payments to nonresidents for current transactions were abolished on January 8, 1998, except a number of indicative limits on the purchase of foreign exchange by Lesotho residents for purposes of travel and full time study abroad. The indicative limits on travel allowances are as follows: M 80,000 per adult and M 25,000 per child under 12 years of age, per calendar year; and M 500,000 per firm/company for business travel, per calendar year. The indicative limits on basic education allowance for a student are M 80,000 per annum plus M 20,000 per annum to cover traveling expenses during vacation periods. The indicative limits for a student accompanied by a spouse who is not studying are M 160,000 per annum and M 40,000 per annum, respectively. These indicative limits are applied specifically to prevent unauthorized capital outflows, and amounts in excess of these limits are approved when the applicant provides documents in support of a bona fide request.

Capital

Inward capital transfers should be properly documented to facilitate the subsequent repatriation of interest, dividends, profits, and other income. No person may either borrow foreign currency, register shares in the name of a nonresident, or act as a nominee for a nonresident without prior approval.

Applications for outward transfers of capital are considered on their merits. The rulings on applications for inward and outward capital transfers may depend on whether the applicant is a temporary resident foreign national, a nonresident, or a resident. Certain tax incentives for inward direct investment are provided to manufacturers approved by the Pioneer Industries Board under the Pioneer Industries Encouragement Act of 1969. Funds in blocked maloti accounts may be invested in quoted securities and other such investments approved by the Central Bank of Lesotho. The transfer by nonresidents of dividends and profits from

investments held in Lesotho is not restricted, provided that these funds were not obtained through excessive use of local borrowing facilities. Emigrants may transfer up to M 200,000 per family or up to M 100,000 per person. An emigrant family or an individual may export one automobile only, with a maximum value of M 75,000, provided that the automobile was purchased at least one year before emigration.

Gold

Residents may freely purchase, hold, and sell any gold coins that are legal tender.
