Democratic Republic of São Tomé and Príncipe: Statistical Appendix

This Statistical Appendix for the **Democratic Republic of São Tome and Príncipe** was prepared by a staff team of the International Monetary Fund as background documentation for the periodic consultation with the member country. It is based on the information available at the time it was completed on **March 3, 2004.** The views expressed in this document are those of the staff team and do not necessarily reflect the views of the government of the **Democratic Republic of São Tome and Príncipe** or the Executive Board of the IMF.

The policy of publication of staff reports and other documents by the IMF allows for the deletion of market-sensitive information.

To assist the IMF in evaluating the publication policy, reader comments are invited and may be sent by e-mail to publicationpolicy@imf.org.

Copies of this report are available to the public from

Sources: São Tomé and Principe authorities; and staff calculations.

^{1/} The land distribution project was initiated in 1993 with the objective of distributing land from government agricultural estates to small and medium-sized farms. At end-1992, the government estates covered 65,367 hectares, of which 33,821 hectares were cultivated.

^{2/} Computed using only small and medium-sized farms. Forest and other noncultivable areas are not owned by individual households.

Exchange and Payments System

(As of December 31, 2003)

Exchange arrangement

- 1. The currency of São Tomé and Príncipe is the dobra (Db). Since 1994, the official exchange rate has been determined as a daily average of the exchange rates in the foreign exchange bureaus, parallel market, and commercial banks. On December 31, 2003, the exchange rate (middle rate) for the U.S. dollar was Db 9,541. Rates for other currencies are determined on the basis of the exchange rates of the U.S. dollar for the currencies concerned.
- 2. Foreign exchange transactions are divided into three categories for the purpose of assessing charges on purchases and sales of foreign exchange: import payments, transactions in foreign checks, and collection of export proceeds.
- 3. On import-related transactions, when a letter of credit is opened, a stamp duty of 0.25 percent of the import value and a postage levy of US\$2 are levied.
- 4. On foreign checks for collection, the commercial banks charge a postage levy of US\$2 for each transaction. For collection of export proceeds, a commission of 0.125 percent is charged by banks—with a minimum of US\$25 and a maximum of US\$300—when a letter of credit is opened, and a fee of 0.125 percent is charged by banks when funds are received. A postage levy of Db 39,000 is also charged.
- 5. There are no arrangements for forward cover against exchange rate risk.

Administration of control

- 6. Available information indicates that current account transactions are free of restrictions; a review of regulations and practices is being conducted by the authorities, together with Fund staff.
- 7. Importers and exporters are required to register with the Directorate of External Commerce.

Bilateral agreements

8. The bilateral payment agreement with Cape Verde is not operative; its resulting debt was fully paid by the Central Bank of São Tomé and Príncipe in March 2000. The bilateral payment arrangement with the Central Bank of Angola is not operative; its resulting debt has

¹ The weights are based on the recorded dollar value of the previous day's transactions in the commercial banks and the foreign exchange bureaus, and an estimate of the dollar value of transactions in the parallel market.

- 48 - ANNEX II

been converted into government debt, and not yet been paid but is the subject of rescheduling discussions.

Imports and import payments

9. All registered importers are permitted to make the related import payments. Import licenses are automatically granted by the Directorate of External Commerce. When importers open letters of credit, the commercial banks can require them to lodge a deposit ² in domestic currency equivalent to between 0 percent and 100 percent of the value of the letters of credit, depending on the creditworthiness of the importer.

Wire payments

10. All wire transfer payments are subject to a stamp tax of 0.5 percent. In addition, commercial banks charge a commission of US\$2 for clients (and US\$4 for nonclients).

Exports and export proceeds

11. For the purpose of collecting information, all exports require the completion of registration forms, which specify the quantity and c.i.f. or f.o.b. value of the export shipment.

Proceeds from invisibles

12. Travelers may bring in any amount of domestic or foreign currency.

Capital account transactions

13. Inward foreign investments are governed by the investment code of October 15, 1992. Foreign capital investment, excluding investment in the petroleum and mining sectors, is permitted on the same basis as domestic investment. Repatriation of profits is permitted. Transfers are permitted for repayment of financing, under agreements with the governments and for the amortization of private sector investments in activities considered to be in the national interest. Nonresidents holding foreign currency accounts can freely transfer funds abroad. Personnel working under technical assistance programs are allowed to transfer their savings in accordance with the terms of their contracts.

² Currently, these deposits are not remunerated.
