

April 2, 2025

"PHILIPPINES: Macroeconomic Frameworks Technical Assistance: Scoping Mission" was mistakenly released on March 28, 2025, containing outdated information from the scoping mission conducted two years ago. A revised and updated HLS (High Level Summary) will be published in due course, summarizing the progress made by the Department of Finance of the Philippines since the scoping mission in January 2023, including continuing enhancements in its macro-fiscal analysis frameworks supported by the multi-year capacity development partnership with the IMF.
