I. General Department

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 and the actuarial valuation of pension benefits under IAS 19 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2025 Annual Financial Statements](#) and the notes thereto.

GENERAL DEPARTMENT

The International Monetary Fund (IMF) conducts its operations and transactions through the General Department. The General Department comprises three accounts: (i) the General Resources Account; (ii) the Investment Account; and (iii) the Special Disbursement Account.

Assets
SDR 516.5 billion
(US\$701.6 billion)

Precautionary balances (est.)
SDR 26.8 billion
(US\$36.4 billion)

GENERAL RESOURCES ACCOUNT (GRA)

The financial operations of the IMF with its member countries (members) are primarily conducted through the GRA. The assets and liabilities in the GRA reflect the payment of member quota subscriptions, use and repayment of GRA credit, borrowings and repayments to lenders, collection of charges from borrowers, payment of remuneration on creditor positions and interest to lenders, and other operations. A core responsibility of the IMF is to provide financial assistance to members experiencing actual or potential balance of payments problems. Upon the request of a member, GRA resources are made available either under a financing arrangement or in the form of outright purchases (disbursements). An arrangement is a decision by the IMF Executive Board (Executive Board) that gives a member the assurance that the IMF stands ready to provide resources to the member during a specified period and up to a specified amount, in accordance with the terms of the financing instrument.

Credit outstanding
SDR 90.7 billion
(US\$123.2 billion)

Active arrangements
21

GRA net income
SDR 358 million
(US\$488.6 million)

INVESTMENT ACCOUNT (IA)

The IA holds resources transferred from the GRA, which are invested to broaden the IMF's income base. The IA comprises two subaccounts: the Fixed-Income Subaccount (FI) and the Endowment Subaccount (EA). Assets in these subaccounts are managed externally, except for investments with the Bank for International Settlements and short-term investments (residual cash balances).

Annual transfers from the IA to the GRA cover administrative expenses, drawing on both the FI and the EA. Transfers from the FI and EA require Executive Board decisions, with the latter following a policy framework that provides for annual payouts based on the return outlook and the objective of preserving real value.

Fixed-Income net asset value
SDR 30.0 billion
(US\$40.7 billion)

Endowment net asset value
SDR 8.0 billion
(US\$10.9 billion)

Total net investment income
SDR 1.2 billion
(US\$1.7 billion)

SPECIAL DISBURSEMENT ACCOUNT (SDA)

The SDA is the vehicle used to receive profits from the sale of gold held by the IMF at the time of the Second Amendment of the IMF's Articles of Agreement (April 1978). SDA resources can be used for various purposes, as specified in the Articles of Agreement, including transfers to the GRA for immediate use in operations and transactions and transfers to the IA. The SDA's resources can also be used for operations and transactions that are not authorized by other provisions of the Articles of Agreement but are consistent with the purposes of the IMF, such as providing balance of payments assistance on special terms to low-income members. The SDA did not hold any resources at April 30, 2025, and October 31, 2025.

EXCHANGE RATE at October 31, 2025: SDR 1 = US\$1.35839. **Six months average:** SDR 1 = US\$1.36467.

AVERAGE INTEREST RATES for the six months ending October 31, 2025 were as follows: SDR interest rate and rate of remuneration: 2.909 percent, and rate of charge: 3.509 percent.

GRA reserves *	33,859	33,501
Precautionary balances (est.) **	26,782	25,905

*The end-October 2025 balance excludes the effects of the remeasurement of pension assets/liabilities which are recorded at end-April 2025.

** Precautionary balances consist of the reserves of the GRA (excluding SDR 4.4 billion attributable to the profits from the limited gold sales in 2009–10 that have been earmarked for the Endowment Subaccount). In determining precautionary balances, the net asset/liability under retirement benefit plans calculated under IAS 19 is excluded from the GRA reserves, and any net liability measured using a discount rate that reflects the expected long-term return on plan assets, would be deducted from the GRA reserves. The end-October 2025 precautionary balances accrue for the transfer from the FI after estimating the EA payout (pro-rated year-to-date) but excludes the impact of a second distribution from the GRA to the Interim Placement Administered Account (IPAA) under the Multi Year Distribution Plan. The first distribution of SDR 1,380 million was transferred from the GRA to the IPAA on June 1, 2025.

* Less than 0.5 percent, and combined amount to 1 percent.

¹ Includes nonnegotiable, non-interest-bearing notes that members are entitled to issue in substitution for currencies, and outstanding currency valuation adjustments.

² The 16th General Review of IMF Quotas has been approved but is not yet effective. Therefore, amounts reflect the current quota based on subscription payments made under the 14th General Review of IMF Quotas.

** Less than SDR 50,000 or 0.005 percent.

SCHEDULE 2: Financial Resources and Liquidity Position in the General Resources Account at October 31, 2025, and April 30, 2025

(in millions of SDRs)

	October 31, 2025	April 30, 2025
Usable resources:		
Usable currencies	286,131	285,002
SDR holdings	16,207	17,684
Total usable resources¹	302,338	302,686
Undrawn balances under GRA lending commitments ²	(63,726)	(72,836)
Uncommitted usable resources	238,611	229,850
Repurchases one-year forward ³	8,060	9,848
Prudential balance ⁴	(77,726)	(77,726)
One-year forward commitment capacity (FCC)⁵	168,945	161,972
Memorandum items:		
Resources committed under borrowing arrangements		
New arrangements to borrow (NAB) ⁶	364,401	364,401
Bilateral borrowing agreements ⁷	122,672	118,455
Quota subscriptions of members that finance IMF transactions	388,628	388,628
Liquid liabilities		
Reserve tranche positions	113,873	115,003

Components may not sum exactly due to rounding.

¹ Usable resources consist of (i) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers, (ii) SDR holdings, and (iii) any unused amounts under credit lines that have been activated.

² Includes undrawn balances under current GRA arrangements.

³ Repurchases by members falling due during the coming 12-month period.

⁴ Prudential balance is set at 20 percent of quota subscriptions of members whose currencies are used in the financing of IMF transactions.

⁵ The FCC does not include commitments under the NAB and bilateral commitments from members to boost the IMF's resources, because none of these are currently activated.

⁶ Outstanding drawings and commitments under the NAB cannot exceed SDR 364.4 billion.

⁷ During the six months ended, October 31, 2025, one lender ratified its extension under the 2020 Bilateral Borrowing Agreements (BBAs) beyond December 31, 2024 (see Schedule 5). Further increases in the amount committed under the BBAs are anticipated as lenders continue to complete their domestic process to extend their BBAs beyond December 31, 2024. Once the extensions are ratified, the terms of these BBAs will be extended retroactively from January 1, 2025.

¹ Amounts denominated in the currency of commitment.

² Increases in the amount committed under the Bilateral Borrowing Agreements (BBAs) are anticipated as lenders continue to complete their domestic process to extend their BBAs beyond December 31, 2024. Once the extensions are ratified, the terms of these BBAs will be extended retroactively from January 1, 2025.

³ During the six months ended, October 31, 2025, the lender ratified its extension under the BBAs beyond December 31, 2024.

II. SDR Department

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2025 Annual Financial Statements](#) and the notes thereto.

THE SPECIAL DRAWING RIGHT (SDR)

The SDR is an international interest-bearing reserve asset created by the IMF in 1969 to supplement its member countries' official reserves. SDRs are allocated to participants in the SDR Department, all of whom are also members of the IMF. At October 31, 2025, SDR 660.8 billion had been allocated. SDR allocations play a role in providing liquidity and supplementing member countries' official reserves.

Further details can be found in the link below.

<https://www.imf.org/en/Topics/special-drawing-right>

The value of the SDR is based on a basket of five currencies—the Chinese renminbi, the euro, the Japanese yen, the British pound, and the US dollar.

USES OF SDRs

Transactions

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves in accordance with the IMF's Articles of Agreement and decisions adopted by the IMF Executive Board (Executive Board).¹ Participants may also conduct such transactions with any participant or prescribed holder through voluntary trading arrangements (VTA) to buy and sell SDRs. Participants can use SDRs in operations and transactions involving the General Resources Account (GRA) of the General Department, such as the payment of a portion of the participant's quota, payment of charges, and repurchases.² The GRA can use SDRs in operations and transactions involving participants, such as purchases, payment of remuneration, and repayment of GRA borrowings.

Unit of Account

The financial statements and quarterly reports on IMF Finances are presented in SDRs, which is the IMF's unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in US dollar equivalents on the basis of market exchange rates.

The weights and amounts of the currencies in the SDR basket are as shown in Table 1. The next review of the method of valuation of the SDR will take place in 2027, unless developments in the interim justify an earlier review. Further details can be found at:

** Less than SDR 500,000.

¹ IMF-related operations include IMF's General Resources Account, Trust Accounts, Administered Accounts, and SDR Department operations.

² SDR trades relate to non-IMF transactions (e.g., acquisition and sales of SDRs through the voluntary trading arrangements market or through bilateral arrangements, or prescribed operations such as the settlement of financial obligations).

³ The change in the balance primarily reflects the transfer of SDR 1,380 million from the GRA to the Interim Placement Administered Account.

III. Concessional Lending and Debt Relief Trusts

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2025 Annual Financial Statements](#) and the notes thereto.

The International Monetary Fund (IMF) is the Trustee of the following trusts:

(i) The Poverty Reduction and Growth Trust (PRG Trust); (ii) The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (PRG-HIPC Umbrella Account); and (iii) The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (CCR Umbrella Account). Collectively, these trusts are referred to as the “Concessional Lending and Debt Relief Trusts” or the “Trusts”. The Trusts provide loans on concessional terms and/or debt relief assistance to qualifying low-income member countries. On October 15, 2024, the Executive Board approved a modification of the interest rate mechanism to introduce a tiered interest rate structure in the PRG Trust. Under the new interest rate mechanism, differentiated interest rates apply to all new arrangements and disbursements approved on or after May 1, 2025.

POVERTY REDUCTION AND GROWTH TRUST

The PRG Trust provides loans on concessional terms to qualifying low-income member countries. Financing is available under the following facilities:

- The Extended Credit Facility (ECF) for members with protracted balance of payments problems under three- to five-year arrangements;
- The Standby Credit Facility (SCF) for actual or potential short-term balance of payments needs under one- to three-year arrangements;
- The Rapid Credit Facility (RCF) for urgent balance of payments needs, which provides financial support in outright loan disbursements.

The operations of the PRG Trust are currently conducted through four Loan Accounts, five Subsidy Accounts (including the General Subsidy Account, three Earmarked Subsidy Accounts, and the Subsidy Reserve Account), the Reserve Account, the Deposit and Investment Account, and the Long-Term Investment Account.

PRG-HIPC TRUST AND RELATED UMBRELLA ACCOUNT

The PRG-HIPC Trust provides financial assistance in the form of grants or loans to low-income member countries that qualify for the HIPC Initiative. The HIPC Initiative helps these member countries reduce their external debt burden to sustainable levels. The PRG-HIPC Trust receives and invests resources, which consist of grant contributions, transfers from the Special Disbursement Account (SDA), transfers of earnings from Administered Accounts, and net earnings from investments. The PRG-HIPC Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the PRG-HIPC Trust are administered in the PRG-HIPC Umbrella Account on behalf of the recipients.

Resources
SDR 364 million
(US\$ 494.5 million)

CCR TRUST AND RELATED UMBRELLA ACCOUNT

The CCR Trust provides balance of payments assistance in the form of grants to eligible low-income member countries following qualifying catastrophic natural or public health disasters. The CCR Trust receives and invests resources, which consist of grant contributions, transfers from the SDA, and net earnings from investments. The CCR Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the CCR Trust are administered in the CCR Umbrella Account on behalf of the recipients.

IV. Resilience and Sustainability Trust

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the April 30, 2025 Annual Financial Statements and the notes thereto.

The Resilience and Sustainability Trust (RST, or the Trust) provides affordable long-term financing to support countries undertaking macro-critical reforms to reduce risks to prospective balance of payments stability, including those related to climate change and pandemic preparedness. The RST complements IMF lending under the General Resources Account (GRA) and the Poverty Reduction and Growth Trust (PRG Trust) by focusing on longer-term structural challenges.

The RST provides loans to eligible members of the IMF under the Resilience and Sustainability Facility (RSF). The operations of the Trust are conducted through a Loan Account, a Reserve Account, and a Deposit Account. The IMF, as Trustee, may only accept a commitment to the Loan Account where the contributor also makes corresponding contributions to the Reserve Account and to the Deposit Account, equal to at least 2 percent and 20 percent, respectively, of its Loan Account commitment amount. Stand-alone contributions (i.e., deposits) to the Reserve Account and/or the Deposit Account are permitted.

RST borrowers pay the Special Drawing Rights (SDR) interest rate plus a margin which varies for three different groups of eligible borrowers. Group A countries, i.e., PRG Trust-eligible members that are not presumed blenders (countries that can access PRG Trust resources only in conjunction with GRA resources) under the IMF framework for blended access to PRG Trust and GRA resources, or countries that have per capita gross national income (GNI) at or below the income threshold for entry onto the PRG Trust-eligibility list, pay the SDR interest rate plus a margin of 55 basis points capped at 2¼ percent. Group B countries (presumed blenders and non-PRG Trust-eligible small states with per capita GNI below ten times the International Development Association (IDA) operational cutoff) pay a margin of 75 basis points. Group C countries (all other RST eligible countries not in Groups A or B) pay a margin of 95 basis points. Margin income on Trust loans that accumulate in the Loan Account is transferred to the Reserve Account on a quarterly basis.

Investment of Reserve Account and Deposit Account resources

The resources of the RST may be invested in a short duration fixed-income strategy and liquidity instruments such as deposits with the Bank for International Settlements. For investment purposes, resources of the RST in the Short Duration Fixed-Income component (SDFI) are pooled with resources of the PRG Trust, invested in the same class of assets, and investment positions and net investment income are attributed proportionately to each relevant trust or account.

V. Administered Accounts

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2025 Annual Financial Statements](#) and the notes thereto.

ADMINISTERED ACCOUNTS

At the request of its members, the IMF has established special-purpose accounts to administer resources contributed for financial and technical services consistent with the purposes of the IMF.

The instruments establishing the Administered Accounts provide the terms and conditions, as agreed with the IMF and contributing parties, under which the resources may be used. The assets of each account are separate from the assets of all other accounts of, or administered by, the IMF. The assets of each account are not to be used to discharge liabilities or to cover losses incurred in the administration of other accounts.

The changes in total assets of these accounts were as follows:

	April 30, 2025	Transfers in	Net income and Change in receivables	Transfers out and Change in payables	October 31, 2025
<i>(in millions of SDRs)</i>

Administered Account for Interim Holdings of Voluntary Contributions for Fund Activities ⁵	—	—	—	—	—

¹ The Somalia Administered Account was terminated, effective August 1, 2025, having successfully fulfilled its purpose to facilitate fundraising and the delivery of debt relief to Somalia under the Heavily Indebted Poor Countries (HIPC) Initiative and beyond-HIPC assistance. The remaining balances were either transferred to the PRG-HIPC Trust or refunded to the contributors.

² During the six months ended on October 31, 2025, Ukraine received a loan from Canada (SDR 1,239.2 million). Loan tranches and grant proceeds of the Administered Account for Ukraine are transferred to Ukraine's SDR holdings account on a pass-through basis. Net income on the account represents administrative fees paid by donors and related interest.

³ The account was established in April 2024 and was set up primarily as a pass-through vehicle to channel resources from China to provide bilateral co-financing of members' programs alongside an IMF program. Since its inception, there have been no transactions, other than the payment of the administrative fees.

⁴ The Interim Placement Administered Account (IPAA) was established in October 2024 to temporarily hold annual distribution amounts from the General Resources Account (GRA) pursuant to the terms of the IPAA Instrument, pending sufficient assurances by members for new commitments of Poverty Reduction and Growth Trust (PRG Trust) subsidy resources. During the six months ended October 31, 2025, SDR 1,380.0 million was placed in the IPAA from the GRA and earned interest income of SDR 16.7 million, which was transferred to the PRG Trust Subsidy Resources Account through November 1, 2025.

⁵ The Administered Account for Interim Holdings of Voluntary Contributions for Fund Activities is open, however it did not have any balances at October 31, 2025, and April 30, 2025, or any activities during the six months ended October 31, 2025.
