The Caribbean at a Crossroads: Improved Prospects, Higher Risks

Alejandro Werner, Director
& Trevor Alleyne, Assistant Director
Western Hemisphere Department
September 3, 2015

2015 High-Level Caribbean Conference in St. Kitts
Agenda

— The world outlook
  — Global overview
  — Key tourism source markets
  — Major emerging economies

— The Caribbean
  — Outlook
  — Risks
  — The Fund and the Caribbean
Globally, considerable diversity exists between advanced and emerging economy prospects.

United States: renewed momentum with lower unemployment.

Canada: growth has stalled from the lower oil prices, but labor markets have held up.

The U.K. outlook is relatively good.

The Euro Area is recovering.

Latin America’s economic prospects have dimmed substantially.

China’s growth is slowing down.
Modest and uneven global prospects will affect the Caribbean through various channels.

Key markets: in United States, higher consumption is driving growth.

United States: Key Indicators
(percent change from prev. qtr., s.a.a.r.)

- Real GDP
- Personal Consumption Expenditures

Sources: Bureau of Economic Analysis Haver Analytics; and July 2015 WEO.

United States: Actual and Potential GDP (trillions of chained 2009 dollars)

- Real GDP
- Potential GDP

Output gap
+/-

Sources: World Economic Outlook.
Labor markets and household wealth have continued to improve, with confidence strong.

**Change in Nonfarm Payrolls and Unemployment Rate**

- **Sources:** U.S. Bureau of Labor Statistics, Haver Analytics, and Fund staff calculations.

**U.S. Consumer Confidence and International Travel Expenditures**

- **Sources:** The Conference Board; Univ. of Mich.; Haver Analytics; CTO; Fund staff est. 1/ Quarterly totals seasonally adjusted by Fund staff. 2/ Avg of Conference Board and Univ. of Mich. surveys.
In this context, the Fed is likely to tighten policy, further bolstering a strong U.S. dollar.
Key markets: in the Euro area, a recovery is taking hold.

**Euro Area: Growth & Unemployment**

- Real GDP Growth (pct chg, qoq, saar; rhs)
- EA-19 Unemployment Rate (pct; lhs)

**Consumer Confidence and Tourism Imports**

- French & German Tourism Imports (pct of GDP)
- Avg. French & German Consumer Confidence (Jan. 2012=100) 1/

Sources: Eurostat; Haver Analytics; July 2015 WEO and Fund staff estimates.

1/ Seasonally Adjusted by Fund staff.
Key markets: in the United Kingdom; growth is holding up and confidence is rising.

U.K.: Real GDP and Unemployment

U.K.: Real GDP and Unemployment

Consumer Confidence and Travel Service Imports

Sources: GfK; Office for National Statistics; Haver Analytics; and Fund staff estimates.

Sources: Office for National Statistics; Haver Analytics; July 2015 WEO; and Fund staff estimates.
Key markets: in Canada, concerns for growth and household finances are emerging.

**Canada: Real GDP & Unemployment**

- Real GDP (3m/3m pct chg, saar; rhs)
- Unemployment rate (percent; lhs)

**Consumer Confidence and Tourist Expenditures Abroad**

- Expenditure Abroad (pct chg, qoq; lhs)
- Economic Mood Index (diffusion index; lhs)

Sources: World Economic Outlook.

Sources: Nanos Research Corp.; Bloomberg, LP; CTO; and Fund staff estimates. 1/ Quarterly totals seasonally adjusted by Fund staff.
Business fixed investment is also decreasing, with low oil prices a drag on profitability.

**Canada: Business Investment and Corporate Profits**

*(percent change from prev. qtr, saar)*

- **Business investment (excl. residential; left scale)**
- **Corporate profits (right scale)**

**Canada: Oil and Gas Industry Capital Investment Plans (C$ billions)**

Sources: Statistics Canada; Bank of Canada; and Haver Analytics.

Sources: Canadian Association of Petroleum Products; and Canadian Energy Research Institute.
Major EMs: a substantial slowdown has been taking place.

| Emerging Market and Developing Economies: Real GDP Growth (in percent) | Proj. |
|---|---|---|---|---|---|---|
| Emerging & developing economies | 6.3 | 5.2 | 5.0 | 4.6 | 4.2 | 4.7 |
| Of which: | | | | | | |
| Brazil | 3.9 | 1.8 | 2.7 | 0.1 | -1.5 | 0.7 |
| Russia | 4.3 | 3.4 | 1.3 | 0.6 | -3.4 | 0.2 |
| India | 6.6 | 5.1 | 6.9 | 7.3 | 7.5 | 7.5 |
| China | 9.5 | 7.7 | 7.7 | 7.4 | 6.8 | 6.3 |
| South Africa | 3.2 | 2.2 | 2.2 | 1.5 | 2.0 | 2.1 |

Major EMs: in China, slowing growth is expected to keep commodity prices low.
China’s devaluation and lower equity prices reflect economic & financial stability concerns.

**China: Stock Prices & Exchange Rates**
(Jan. 2, 2014=100)

- **Shanghai Stock Price Index (lhs)**
- **RMB-US$ exch rate (rhs; - = depr)**

**China: Economic Activity Indicators**
(yr/yr pct change, 3-mo moving avg)

- **Real industrial value added**
- **Electricity production**

Sources: Haver Analytics; and Fund staff calculations.

Sources: CEIC; Haver Analytics; and Fund staff calculations.
Major EMs: LAC growth is set nearly to stall; prospects differ across sub-regions.

Petroleum Exports

Sources: CEIC; PdVSA; and Fund staff est.
Generally strong advanced economy activity appears to be aiding Caribbean tourist arrivals.

Tourist Arrivals in the Tourism-Based Caribbean\(^1\)  
(Jan. 2012=100, 3-month moving avg)

- United States
- Canada
- Europe \(^2\)

Sources: CTO; ECCB; and Fund staff estimates. \(^1\) Seasonally adjusted by Fund staff. \(^2\) U.K. arrivals for St. Kitts and Nevis.
Increased demand for citizenship programs is a new global phenomenon

- A growing number of high net-worth individuals in some emerging economies seek:
  - Fewer travel restrictions and;
  - Safe havens from political uncertainty
- Caribbean economies operating Citizenship programs have benefited significantly from inflows.

**Number of Approved Applicants of Selected Programs in 2013**

- US
- Canada (Quebec)
- Portugal
- St. Kitts and Nevis
- UK

**Number of Households with Wealth Exceeding US$1 Million**

- (In thousands)

Sources: Authorities and recent press reports.
But, sharp exchange rate depreciation elsewhere boosts competitiveness gaps.

Sources: IFS and Fund staff calculations.
... and global banks’ de-risking activities may impact correspondent banking relations.

Global Factors

- Tax information sharing agreements entail further cost.
- AML/CFT compliance complex and costly.
- New regulatory requirements to discourage risk taking; banks desire to preserve profitability.

Global trend towards de-risking.

Caribbean especially vulnerable
Growth: better than the past in most tourism-based economies, and surprisingly resilient in commodity exporters.

Tourism has performed well; low commodity prices benefit importers, but hurt exporters ...

Tourism Arrivals & Key Markets' Unemployment

- Stay-Over Arrivals (millions; lhs)
- Key Mkts' Unemp. Rate (pct; rhs, inverted) 1/

Sources: WEO; CTO; Central Banks and tourism orgs.
1/ Average of U.S., Canada, and U.K., weighted by shares in ECCU, Jamaican, and Barbadian arrivals over 2001-2013.

Real GDP and Key Commodity Prices (pct chg, three-year moving averages)

- Gold Prices (rhs)
- Crude Oil Prices (rhs)
- Guyana: Real GDP
- Suriname: Real GDP
- Trin. & Tob.: Real GDP

Sources: WEO and Fund staff estimates.
... with both tourism and commodities affecting external positions.

Current Account Balance, 2014-15
(percent of GDP)

- Improvement from 2014
- Deterioration from 2014
- Current Account Balance in 2015

Change in Current Account (2014-2015; percentage points of GDP)

- Due to lower net oil exports
- Due to higher service exports
- Due to other factors
- Total change in current account balance

Sources: WEO and Fund staff calculations.
Still, medium-run legacies of the crisis will take some time to address.

### Real GDP in the Caribbean
(indexes, 2002=100, shaded region denotes projections)

![Real GDP Chart](chart-image)

**Source:** WEO and Fund staff calculations.

1/ Based on simple average growth.  
2/ Period is 2002-07.

### Unemployment Rates, 2008-14
(percent)

- **Grenada**: 28.9%  
- **St. Lucia**: 24.4%  
- **Bahamas**: 15.0%  
- **Barbados**: 12.7%  
- **Belize**: 11.1%  
- **Jamaica**: 15.3%  
- **Suriname**: 8.9%  
- **Trinidad & Tobago**: 4.0%

**Sources:** WEO; National Authorities; and Fund staff calculations.

Despite adjustment efforts in some countries, debt is set to rise in most of the Caribbean.

**Change in Projected Primary Balances, 2014-16 (percent of GDP)**
- Improvement from 2014
- Worsening from 2014
- Primary Balance in 2016
- Debt-Stabilizing Primary Balance, 2016

**Change in General Government Debt, 2014-16 (percent of GDP)**
- Increase in debt, 2014-16
- Decrease in debt, 2014-16
- Projected debt in 2016

Sources: WEO and Fund staff calculations.
Determined efforts to strengthen the financial sector will need to continue.

**Nonperforming Loans**
(Percent of total loans)

- ECCU
- Jamaica
- Other Tourism-Based 1/
- Commodity Exporters 1/

1/ Simple average of countries in group, as available. Observations are shown only if more than half of countries in group reported NPL data. Sources: Country Authorities and Fund staff calculations.

**Private Sector Credit**
(2010=100)

- ECCU
- Jamaica
- Other Tourism-Based 1/
- Commodity Exporters 1/

1/ Simple average of countries in group, as available. Observations are shown only if more than half of countries in group reported data.
Both upside and downside risks to the outlook exist, and some reflect recent events.

**Upside**
- Low fuel prices, for tourism-based economies
- Stronger advanced economy growth
- Sustained demand for citizenship programs
- Easier U.S. access to Cuba diverts non-U.S. tourists to other Caribbean Islands.

**Downside**
- Low fuel prices, for commodity exporters
- U.S. monetary policy
- Disruptions to Citizenship programs
- Correspondent banking
- Cuba opening results in lower tourism
- Natural disasters
- Petrocaribe disruptions
- Concerns about China?
Low fuel prices: boosting tourist-based economies, restraining commodity exporters.

Past episode: upside risk to projections?
Expectations are less positive for tourism-based and more negative for commodity exporters than in the 1986 episode.

Econometrics\(^1\)/: Moderate effects
Estimated average 2015-16 growth effects:
- Tourism-based, +0.6 ppt
- Commodity exp., -0.8 ppt

The effects of the plunge are may partly reverse: oil prices are off their trough and are expected to rise further.

Oil price outlook: slight rise expected

Average real GDP growth (percent, simple averages)
- Tourism-Based
- Commodity Exporters

Growth Impact of 2014-15 Oil Price Drop (pct points)
- Tourism-Based Caribbean
- Commodity Exporters

Source: Fund staff estimates.

Oil Prices (US$/barrel)
Sources: WEO, April, 2015.

\(^1\)/ Fixed-effects panel regression, with sample of 139 counties over 1980-2013, with cases of armed conflicts excluded. Dependent variable, percent change in real GDP; explanatory variables: percent changes of trading partners’ GDP, REER, lagged oil prices interacted with country group dummy vars., and dummy vars. for various crises.
Fed tightening may pass through to borrowing costs and real exchange rates.

Higher Interest Rate Scenarios: Caribbean Interest Expenditures and Public Debt (percent of GDP; simple avg.)

Real Effective Exchange Rates (indexes, January 2012 = 100)

Sources: WEO and Fund staff calculations.

Sources: INS and Fund staff calculations.
With ER pegs, restoring competitiveness will imply action on high costs & low productivity.

1/Average constructed using average implied productivity growth rates using data for Antigua and Barbuda, Grenada, and St. Lucia during 2002-13, Dominica 2009-13, and St. Kitts and Nevis 2003-12. Ratio of real GDP to employment. 2/ Average constructed using average implied productivity growth rates for Bahamas, Barbados, Belize, Guyana, Jamaica, Suriname, and Trinidad and Tobago. Ratio of real GDP to employment.
Cuban tourism has expanded rapidly without U.S. visitors, who mainly go to other islands.

Caribbean Tourism Arrivals

- Outter Ring: 2014
  - Others 34%
  - Dominican Republic 25%
  - Cuba 15%
  - Jamaica 10%
  - USA 9%
  - Canada 13%
  - Europe 21%

- Inner Ring: 2004
  - Others 34%
  - Dominican Republic 25%
  - Cuba 23%
  - Jamaica 21%
  - USA 16%
  - Europe 13%

Sources: Caribbean Tourism Org. and staff calculations. 1/ Includes the ECCU; Bahamas; Barbados; and Belize.

Cuban tourist arrivals by source

- 2014
  - 3.0 million tourists
  - USA 3%
  - Canada 39%
  - Other 33%
  - Europe 25%

Sources: CTO; WTO; and IMF calculations.
Destinations more dependent on the US could face greater challenges of open US-Cuba travel

- **Preliminary work suggests:**
  - Cuba’s tourism would expand by attracting new US tourists
  - However, there will be some “trade diversion”
  - And rest of Caribbean may gain from displaced tourists originally going to Cuba

- **US-Cuba tourism will grow, but immediate jump in arrivals unlikely**
  - Cuba has structural problems that could limit ability to expand its tourist capacity rapidly.
  - Removal of embargo will take some time

### Caribbean tourist arrivals in 2014 by source

Sources: CTO; WTO; and IMF calculations.
Citizenship programs: high demand and more programs. A tailwind, for now.

Still-high demand for Citizenship by Investment (CBI) programs.

More programs are resuming or coming on-stream.

Upside and downside risks exist.

**Timeline of Current and Prospective Caribbean Citizenship Programs:**

- **1984:** St. Kitts & Nevis
- **1993:** Dominica
- **2013:** Antigua & Barbuda
- **2014:** Grenada (restarted); governance reforms in St. Kitts & Nevis and Antigua & Barbuda.
- **2015:** St. Lucia (legislation passed)

**Upside risks:**
- Boost growth through investment, but risks overheating.
- Improved fiscal and external balances, if saved.

**Downside risks:**
- If not managed prudently, higher fiscal vulnerability.
- Competition.
- Reputation and visa requirements.

1/ Not reflecting ECP inflows to real estate investments in St. Kitts and Nevis.

Sources: Country authorities and Fund staff calculations.

**Graph: St. Kitts and Nevis vs. Dominica CBI Inflows (In Percent of GDP)**

- St. Kitts and Nevis
- Dominica
... and the Caribbean has specific vulnerabilities to derisking.

Global Factors

- New regulatory requirements to discourage risk taking; banks desire to preserve profitability.
- Tax information sharing agreements entail further cost.
- AML/CFT compliance complex and costly.

Caribbean-Specific Vulnerabilities

- Caribbean seen as a high-risk area due to AML/CFT issues and offshore banking.
- Small Caribbean portfolios may not be sufficiently lucrative to justify risk and costs of compliance.
- Significant disruption from loss of CBRs, requiring alternate arrangements.

Global trend towards derisking, with Caribbean especially vulnerable.
Natural disasters remain a major vulnerability.

One reason for lack of progress toward fiscal sustainability is the recurrence of natural disasters—more frequent and more costly to small islands (SIDS).

They are ten times as vulnerable as the rest of the world, losing 2 percent of GDP on average every year (compared with 0.3% GDP in r.o.w.)

<table>
<thead>
<tr>
<th>SIDS compared with the rest of the world</th>

Average Annual Losses from Natural Disasters (pct of GDP, top-50 Fund members)

Sources: EM-DAT; World Development Indicators; Fund staff est.
Despite stronger performance, key policy recommendations remain relevant.

**Fiscal Policy:**
*Now is an opportune time to set the course for sustainability.*
- **Tourism-based Caribbean**: More adjustment needed to put debt on a downward trajectory.
- **Commodity exporters**: Address lower revenues to assure medium-run sustainability.

**Competitiveness:**
*Structural reforms will promote growth led by the private sector.*
- **Price**: Addressing factors supporting high costs (energy, finance, wages, etc.) esp. with real exch. rate appreciation.
- **Structural**: Easing restrictions to businesses by a vigorous reform agenda.

**Financial Stability:**
*Determined efforts are needed to address vulnerabilities.*
- **ECCU**: Prompt implementation of remaining elements of regional strategy.
- **Caribbean-wide**: Remove frictions preventing timely resolution of NPLs; upgrading frameworks for supervision & regulation.
The Fund will continue to assist its Caribbean members.

- Financial support
  - Disaster assistance
  - Lending for adjustment and reform
- TA (HQ and CARTAC)
- Surveillance (Article IVs, etc.)
- Outreach
- Research work agenda
The Fund will remain engaged in countries through programs and disaster relief.

**Ongoing/Future Work**

**Continuing:**
- Energy, tax incentives, and financial sector

**Additional topics:**
- Labor markets
- Competitiveness
- Cuba opening
- Natural disasters
The Post-2015 Development Agenda will have an important influence on Fund activities.

A UN Summit (Sept. 2015) will launch the post-2015 Development Agenda, including SDGs (17 objectives including inclusive growth, poverty reduction, environmental sustainability, and resilience to climate change, among others).

The Fund is developing a strategy to incorporate the SDGs into key operations including surveillance, programs, and capacity-building.

Already: access to concessional financing for PRGT-eligible countries has been raised by 50%; access to disaster-relief financing (RCF, RCI) has been raised by 50%; now 0-interest on RCF loans.

Going forward: policy development – focusing on revenue mobilization, infrastructure, financial deepening, and a better response to natural disasters.
