Access to Finance of Households and Firms in the Western Balkans

March 2015
Throughout the WBS, access to finance remains low compared to European standards...

Constraints remain especially for the lower income countries in the region, the bottom 40 percent of income earners and women.
In particular the use of savings products lags behind….

Usage of Financial Services

- % of adults that took a loan in the past year
- % of adults that saved in the past year

Euro Area
SRB
MNE
MKD
KSV
HRV
BIH
ALB

% of adults that took a loan in the past year
% of adults that saved in the past year
Access to financial services of enterprises remains a key obstacle in the WBS...
Enterprise surveys conducted by the WBG show strong dependence on internal funds in the region...
Lending is highly dependent on collateral…

**Collateral requirements (%)**

The enabling environment for Enterprise Finance would benefit from further improvement…

- **Legal Rights Index [Collateral Regimes], DB:** measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending by reducing the probability of default or losses of lenders given default.

- **Depth of Credit Information Index, DB:** measures rules and practices affecting the coverage, scope, and accessibility of credit information available through either a public credit registry or a private credit bureau.
Financing needs are broad and vary by stage of development...
## Enterprise Finance – Policy Responses
