

2016–17

# JapanIMF Scholarship

## Program for Asia

A scholarship for junior government officials  
in Asia who wish to pursue graduate-level economics  
at Japanese universities

Funded by the Government of Japan

Administered by the IMF Regional Office  
for Asia and the Pacific (OAP)

**S**ince its inception in 1993, the program has targeted promising junior officials from key economic policymaking agencies as part of the International Monetary Fund's capacity building efforts. With the long-lasting support of the Government of Japan and under the administration of the IMF Regional Office for Asia and the Pacific (OAP) in Tokyo, the JISPA has awarded graduate-level scholarships for study in Japan to around 670 officials from over 20 emerging and developing economies in the Asia and the Pacific region, including some Central Asian countries.

JISPA alumni now occupy key positions in macroeconomic agencies in the region, including senior positions in central banks and ministries of finance. Against this background, the JISPA has developed a solid reputation and established itself as a prestigious program among Asian officials. Their achievements and contribution to their countries continue to encourage junior officials, such as you, to apply for the JISPA.

The JISPA is evolving to meet the changing needs of the macroeconomic management agencies in a challenging global environment. The curriculum offered by each partnership university provides a greater focus on banking and other financial sector issues, in addition to core macroeconomics subjects. OAP also arranges various activities for scholars, including several seminars by IMF staff on topical policy issues facing the global economy.

Please review carefully the material in this brochure and contact us directly if you have questions about the scholarship program.

## I. Introduction

The Japan-IMF Scholarship Program for Asia (JISPA) was first introduced in 1993. It is funded by the Government of Japan, administered by the International Monetary Fund (IMF), and conducted at various graduate schools in Japan. Its objective is to contribute to institutional capacity building in economic policymaking to promote the sustainable growth of emerging and developing economies in Asia and the Pacific. By training future macroeconomic managers in these countries, the JISPA aims to enable them to better formulate sound economic and financial stability policies needed for sustainable growth and development.

The JISPA targets highly motivated government officials who may serve as future macroeconomic policy makers with the capacity and vision to contribute effectively to the economic development of their countries. Scholarship awards are made on the basis of the candidate's academic record and work background, mathematical and statistics skills, English language proficiency, and potential for contributing to the macroeconomic and financial management and economic development of their country. The assessment also includes qualities such as the candidate's commitment to public service, willingness to learn, and openness to new ideas.

Currently, the JISPA is open to qualified candidates from the following countries:

**Bangladesh, Bhutan, Cambodia, China, India, Indonesia, Kazakhstan, Kyrgyz Republic, Lao P.D.R., Malaysia, Maldives, Mongolia, Myanmar, Nepal, Pacific Island Countries, Papua New Guinea, Philippines, Sri Lanka, Tajikistan, Thailand, Timor-Leste, Turkmenistan, Uzbekistan, and Vietnam.**

The scholarship covers tuition-related costs and most living expenses for the scholar herself/himself. Officials who receive the JISPA scholarship cannot accept other scholarships. Scholars are expected to devote full time to their studies while in Japan.

The program comprises two tracks: the partnership track, discussed in Part II of this brochure, and the open track, discussed in Part III. Because of the strong competition for scholarships, the JISPA is highly selective. In 2016-17, a total of 35 new scholarships are available to candidates for the partnership track. There is no fixed limit on new scholarships for the open track, but generally only a small number of scholarships are awarded.

## II. The Partnership Track

The partnership track of the JISPA allows scholars to study in specially designed graduate level courses concentrating on macroeconomics at an IMF partnership university. The partnership universities are:

- National Graduate Institute for Policy Studies (GRIPS): one-year and two-year programs
- Hitotsubashi University: two-year program
- International University of Japan (IUJ): two-year program
- University of Tokyo (UTokyo): two-year program

All subjects, including the thesis component, are taught entirely in English.

The universities offer programs for JISPA scholars designed to equip scholars to engage in macroeconomic policy dialogue at the international level. All of the programs have a strong macroeconomic oriented focus, with core courses offered in macroeconomic and financial theory and policies. In addition, the programs offer optional subjects that will help scholars pursue their particular interests and research agenda. All programs contain a thesis or research paper component that will allow the student to develop policy research skills.

The partnership universities have been selected for their strong program content and excellent teaching faculties, but have different strengths and

characteristics. **Applicants are therefore urged to study the contents of the programs offered by each university carefully before applying, as the application must indicate which university they wish to enroll in.**

**The application deadline for the partnership track is December 1, 2015.** After an initial screening of applications, selected candidates will be contacted by the IMF to arrange an interview, which is typically done in their countries with representatives from the partnership universities. A math and/or English examination may also be administered at this time. Final selection will be made on the basis of the interview, math and English competencies, the application form, and any other supplementary information.

# The Japan-IMF Scholarship Program (JISPA) Partnership Universities: Program Descriptions

## National Graduate Institute for Policy Studies (GRIPS)

**G**RIPS is a graduate school specializing on education and research in the area of policy studies, located in Roppongi, one of the trendiest cultural and international districts in the heart of Tokyo. GRIPS was established in 1997 by the Japanese government, with aims to produce first-class policy makers for 21st century and conduct cutting-edge researches on policy studies. Economics, Political Science, International Relations, Public Administration, Operation Research and Social Engineering comprise major academic disciplines of the university.

The predecessor of GRIPS was the Graduate School of Policy Sciences established in 1977 at Saitama University, the first graduate school for policy studies in Japan.

Based on research outputs and impacts, Economics at GRIPS has consistently ranked Third in Japan.

### Macroeconomic Policy Programs

For JISPA scholars, GRIPS offers One year Macroeconomic Policy Program and Two year Macroeconomic Policy Program (MEP). One year MEP requires 34 credits for graduation and grants a **Master of Public Policy**; Two year MEP requires 44 credits and grants a **Master of Arts in Public Economics**. Qualified candidates with strong competency who are highly motivated to complete an intensive one year program are encouraged to apply for One year MEP. Qualified candidates who have flexible working schedules, willing to devote more time to thesis writing, and have a desire to develop more advanced analytical skills, are welcomed to Two year MEP.

MEP is a professionally oriented program designed to train modern macroeconomic policy makers and professionals who need to understand macroeconomic fluctuation and the roles of monetary and fiscal policies in domestic and global economies. It values education in principles and theories of macroeconomics, combining rigorous

training in analytical and quantitative methods with emphasis on macroeconomic policy analysis, design, and implementation.

It is a program developed from the successful tradition of Transition Economy Program, a partner of JISPA since the inception of the scholarship program.

### The Faculty

The MEP is supported by full time faculty and visiting lectures. About 20 full time faculty members consist of the core faculty of the program. The core faculty includes not only Japanese professors, but also international scholars. Faculty at GRIPS include both members with solid academic trainings and outstanding publication records as well as practitioners with extensive experiences in civil services and public policy management. All of them are committed to educating new generational of policy makers and have rich experiences in teaching and thesis supervisions.

### The Curriculum

The curricula are designed around four pillars: Macroeconomics, Microeconomics, Financial Economics, and Econometrics. The curricula consist of five components: required courses, a policy paper (One year Program)/thesis (Two year Program), quantitative analysis courses, disciplinary courses, and other electives courses. The required courses and quantitative analysis courses provide solid training in principles and theories of macroeconomics and practical analytical skills for designing and evaluating macroeconomic policies. The variety of disciplinary courses gives students the chance to select courses for developing their specialization in specific areas of interests, such as monetary policy, fiscal policy, international trade, financial markets.

### Required Courses

Students of Macroeconomic Policy Programs must take the following seven courses: Macroeconomics I, II; Microeconomics I, II; International Finance, Public

Economics, Introduction to Applied Econometrics, and Introduction to Public Policy Studies.

### Policy Paper/Thesis

One year MEP students are required to write a policy paper (4 credits); Two year MEP students are required to write a master thesis (8 credits). Both policy paper and thesis writings will be supervised by core faculty members with thesis seminars.

### Quantitative Analysis Courses

Students must take at least two of the following courses: Applied Time Series Analysis for Macroeconomics, Mathematics for Economic Analysis, Quantitative Social Systems Analysis, Statistics, Introduction to Quantitative Methods (Two year Program), and Cost Benefit Analysis I (Two year Program).

### Disciplinary Courses

Students may choose from courses covering a variety of disciplines. These courses cover a range of topics, including Accounting and Financial Management, Financial Economics, Monetary Economics, International Trade, Public Expenditure Management, Development Economics, Labor Economics, Game Theory, Japanese Economy, etc.

### Advanced Courses in Economics

Students with exceptional qualifications and capacities have opportunities to take advanced courses offered to Ph.D. candidates of the Policy Analysis Program.

### GRIPS Forums and Seminars in Frontiers of Economics Research

The bi-weekly GRIPS forum provides an excellent opportunity for students to understand major economic and political issues in Japan and the world. The weekly economic seminars open students' eyes to the frontier of economic research.

Please see page 12 for a complete course listing.

### Qualifications

Candidates must hold a Bachelor's degree from a recognized/accredited university and must satisfy the English language requirements with a minimum TOEFL score of 550 (iBT 79) or IELTS 6.0. A strong undergraduate background and/or evidence of experiences with public policy issues in economic management are also required.

### Facilities

GRIPS offers all necessary facilities for students. The GRIPS library maintains an excellent collection of books, journals, databases, and reference materials. Wireless internet access is available on campus. On-campus facilities also include a fitness center, auditorium, conference rooms, individual study rooms, and a health clinic staffed with an English speaking nurse and doctor.

GRIPS helps arranging accommodation for students either at GRIPS International House which is located in Nakano ward in western Tokyo or a privately-owned dormitory.

Further information on the program can be found on the GRIPS website at <http://www.grips.ac.jp/en>.

# Hitotsubashi University

**F**ounded in 1875, Hitotsubashi University is a leading university in economics and business in Japan. Today, it has four departments, seven graduate schools, and two research institutes, covering the fields of business, economics, law, and social sciences. It has an enrollment of approximately 6,000 undergraduate and graduate students, and a faculty and staff of over 600.

## **Master of Public Policy (Public Economics) Asian Public Policy Program, School of International and Public Policy**

For JISPA scholars, Hitotsubashi University offers the two-year Asian Public Policy Program (APPP) at the School of International and Public Policy, leading to the degree of Master of Public Policy (Public Economics). The program targets young professionals in Asian governments, central banks and other policy-related organizations. The APPP has been and continues to be an important stepping-stone for such individuals to become fully-fledged fiscal or financial economists, economic planners, policy analysts, and policymakers in their governments as well as in international organizations.

The course distinguishes itself from other graduate programs offered in the public policy area with its strong focus on economic policy, with almost all of the required and elective courses structured around economics and its applications to policy. The program aims to equip its graduates with the knowledge and skills to analyze and develop policies against a sound knowledge of economic theory.

The Program is also especially attractive for the personalized attention it provides to the students. The class sizes are quite small – at most around 15, and each full-time faculty supervises around 4 student per annual intake, and is able to give close guidance to the student's academic undertakings. The small size of the Program also allows students to build strong ties with their fellow students, which can last a lifetime, and will be a valuable asset in his/her career.

## **The Faculty**

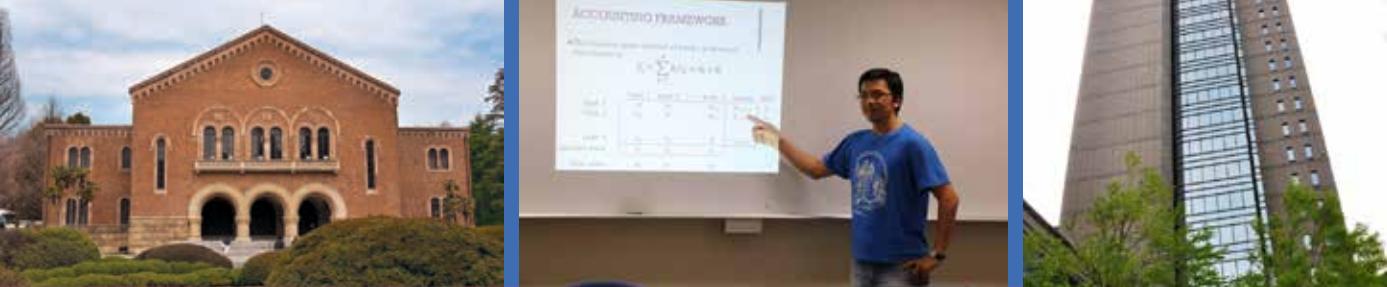

The Asian Public Policy Program's core faculty comprises full-time teaching staff who combine Ph.D. degrees from top US and UK universities with professional working experience at policy institutions including the IMF, World Bank, Bank of Japan, and Japan's Ministry of Finance and the Financial Services Agency. In addition to the core faculty, lectures are given by academics with outstanding reputations from the Graduate School of Economics of Hitotsubashi University as well as by leading professionals with practical experience from public and private sector institutions. Current Visiting Professors include those from Harvard University's Kennedy School of Government and National University of Singapore

## **The Curriculum**

The curriculum focuses on economic policy design and analysis, and is conducted entirely in English. The curriculum consists of core theory courses, fiscal and regulatory policy, monetary and financial policy, workshops on current topics, special intensive courses, and weekly seminars.

A strong emphasis is placed on seminar work and the master's thesis. Seminar work is a long-standing tradition of Hitotsubashi University, where a small group of students work together under the guidance of the academic advisor to discuss economic and policy issues as well as develop and discuss their prospective thesis. The thesis is a required element of the course and provides an opportunity for students to apply their knowledge and skills acquired from the course to analyze real-world policy issues. A total of 44 credits and the submission of a thesis are required for the degree.

For those students who wish to pursue doctoral courses in the future, or who have specialized interest in non-economic area of public policy, they may, with the advice and consent of their supervisors, take advanced courses offered by the Graduate School of Economics or by the Global Governance Program of the School of International and Public Policy.

## Course Descriptions

Core Courses taken in the first year provide basic theoretical and analytical skills. The Elective Courses and Intensive Courses are provided throughout the two years and focus on specific policy areas. Students are also required to take an English Thesis Writing course. The Master's thesis is the focus of student's study during much of the second year. (The complete course listings are given in page 13.)

### Required Courses: Theoretical Foundations

Core theory courses provide a solid foundation in microeconomic and macroeconomic theory and public sector economics as a framework for policy analysis. Courses on quantitative techniques of economic analysis and financial programming for macroeconomic policy formulation are also required, with the latter offered as a two-week intensive course.

### Elective Courses: Policy Areas

These courses cover major issues in specific policy areas, covering analytical and practical aspects of policies, with a special emphasis on experience in Japan and Asia. For students with a tax administration background, a special course is offered in Association with the National Tax Agency of Japan, that provides practical knowledge and experience on taxation issues.

### Courses on Current Issues:

They are designed to provide students with a good understanding of the current situation, prospects, and research of the current topics, with lectures provided by external scholars from both Japan and abroad, policymakers of government and international organizations, and other practitioners in public policy.

### Japanese Language Course

Intensive Japanese language course are offered a few weeks a year for JISPA scholars.

## Seminars

Students are required to belong to a seminar group led by their academic advisor. They pursue academic topics of their interest, which provides a basis for their thesis.

## Extracurricular Activities

An overnight trip is organized at the beginning of the academic year as a team building exercise. Field trips outside of Tokyo are also organized. Furthermore, students are given an opportunity to experience Japanese culture, including watching Kabuki and wearing *kimonos*.

## Qualifications

A minimum of two years' full-time public sector working experience in economic policy areas and a BA or BS degree from an officially accredited university are required. A first degree in Economics would be an advantage, but the program welcomes those with other background with a strong desire and commitment to study economics. Candidates should have high English proficiency, i.e., TOEFL score of 550 (CBT 213)/IELTS 6.0 or higher.

## Facilities

The Asian Public Policy Program is located in central Tokyo. Adjacent to the Imperial Palace grounds, the campus is part of a new 23-story building, complete with high-tech communication, library, conference and other facilities.

Hitotsubashi University offers single-occupancy rooms at the University dormitory for all JISPA scholars. Provision of family room is subject to availability. However, please note that current Program regulations do not allow students to bring their family with them to Japan during the first year, due to the intensive nature of the study.

Further information on the program can be found on the Hitotsubashi University website at <http://www.ipp.hit-u.ac.jp/app/index.html>

<sup>1</sup> Hitotsubashi University candidates are required to complete the admissions process for the School of International and Public Policy in addition to the JISPA process, as a formality. A separate application form must be filled out and submitted to the university with the required documents. HIT will contact their finalists for details following the JISPA application results are made.

# International University of Japan (IUJ)

IUJ was founded in 1982 with extensive support from Japanese industrial, financial, and educational communities, and from the local community of Minami-Uonuma City in Niigata prefecture. IUJ consists of two graduate schools: the Graduate School of International Relations (GSIR) and the Graduate School of International Management (GSIM). GSIR currently offers six Master's degrees: Master of Arts in Economics, Master of Arts in International Development, Master of Arts in Public Management, Master of Arts in International Relations, Master of Arts in International Peace Studies and Master of Public Policy. The student body of IUJ comprises about 350 students representing about 40 countries across the globe.

In response to strong needs for higher level professionals in an increasingly globalized society, GSIR launched a PhD Program in September 2015. Targeting future leaders in international organizations, public organizations and/or governments, the PhD Program aims at fostering high level professionals playing an important role in international arena with theoretical, analytical, and practical abilities as well as fostering researchers to operate effectively in international society.

## Macroeconomic Policy Program

For JISPA scholars, IUJ offers the two-year Macroeconomic Policy Program (MPP). The program provides rigorous training in the principles of economics and their applications in policy analyses. The program's objective is to equip scholars with a comprehensive understanding of contemporary macroeconomic issues and to help scholars contribute to sustainable economic growth and development in Asia and the Pacific. The curriculum of the program is designed especially for the government officials from ministries of finance, central banks, and other public institutions. Emphasis is placed on macroeconomic policy formulation and public finance, central banking and monetary policy, and financial market policy, which contribute to human capacity building of such organizations.

## The Faculty

Faculty of the Macroeconomic Policy Program (MPP) consists of core full-time and visiting faculty members. All core full-time faculty members have obtained PhD degrees in economics or related fields from prestigious universities such as Cornell University, University of Essex, Indiana University, University of Rochester, Yale University and University of Wisconsin-Madison. Because many faculty members live on campus, they are readily available to the students.

Faculty members promote the exchanges of ideas and discussions in an objective, supportive, and effective environment. They are not only effective teachers but also productive and excellent scholars. Faculty members have been involved in various policy related research projects financed by organizations such as the Japan Society for the Promotion of Science, Japan International Cooperation Agency, Economic Research Institute for Northeast Asia, and United Nations University. Their research results have been published in internationally refereed academic journals. The JISPA scholars are given the opportunity to learn from and/or be involved in these projects.

## The Curriculum

The curriculum is designed for the scholars who need the critical skills and knowledge of basic macroeconomic concepts (macroeconomic and microeconomic theories, monetary economics, international trade and finance, financial economics, public finance and taxation, econometrics) with a strong emphasis on macroeconomic policy formulation and public finance, central banking and monetary policy, and financial market policy. The two-year curriculum consists of required courses, elective courses, and advanced seminars.

**First year:** The first-year curriculum introduces core required courses that provide the scholars with tools, concepts, and theories in economics and related fields (please refer to our course listing). It also trains

scholars on how to use various software packages for empirical and quantitative analyses such as STATA, E-Views, Gauss, Matlab, and Fortran. Advanced macroeconomic models such as CGE and DSGE are also taught. These courses expose the scholars to cutting-edge knowledge in macroeconomics, thus helping them to analyze public policy issues within inclusive and coherent theoretical and empirical frameworks. The scholars start preparations for a master's thesis on a unique, macroeconomic related issue toward the end of the first-year. Before the spring term of the first year, all scholars need to decide this research topic and choose an academic supervisor. They, with their supervisor's guidance, plan which elective courses to enroll in that will help them explore their research topic.

**Second year:** The second-year curriculum consists of elective courses and a master's thesis writing. Practical and policy-oriented courses expand the theoretical and empirical capabilities developed in the first year. Simultaneously, the scholars concentrate on their master's thesis while participating in advanced seminar sessions under supervision of faculty members. Through the process, the scholars have an opportunity to analyze their research topic in depth by integrating theories, methods, concepts and their practical applications that they have acquired in the entire two-year program.

### Seminars and other activities

A series of workshops and seminars conducted by renowned lecturers and practitioners enable the scholars to obtain practical knowledge. Field trips to various Japanese financial institutions and cultural places also enrich their IUJ experiences.

### Language programs

GSIR offers a sequence of English and Japanese language courses throughout two years of study. The English Language Program provides effective English language courses to the JISPA scholars who need to improve their English language proficiency.

In addition, the Japanese Language Program offers courses from introductory to advanced levels.

Please see page 14 for a complete course listing.

### Qualifications

Candidates with a strong desire to study and contribute to macroeconomic policy formulation in their countries are encouraged to apply. A strong undergraduate background, evidence of experiences with public policy issues, and high English proficiency are required.

### Facilities

There are three computer labs on campus. In the dormitories, students can also access a highly efficient campus-wide Local Area Network (LAN), which is linked to the internet 24 hours a day. IUJ's Matsushita Library and Information Center has a large collection of books (hard copy and e-books), journals, and databases in the area of business, economics, finance, and politics. It serves as a gateway for students to access a wide range of important information from throughout the world. IUJ has four on-campus student dormitories, of which three are for single students and a small one for married students. An English-speaking housekeeper's office is open from 9:00a.m to 5:00p.m. throughout the year, including weekends and national holidays. For meals and daily supplies, IUJ has a 24-hour simple café, a cafeteria with Halal offerings, and a school shop. Some students prefer cooking their own meals in the common kitchens in the dorms. Along with sporting facilities include tennis courts and a gymnasium, students also have easy access to ski slopes in the winter and hiking trails in summer. There are numerous club activities and extra-curricular activities on and outside of campus throughout the year.

Further information on the program can be found on the IUJ website at <http://www.iuj.ac.jp/gsir>.

The latest brochure of the GSIR is also available upon request through the internet at <http://www.iuj.ac.jp/admis/request>

# The University of Tokyo (UTokyo)

**S**tudy at the University of Tokyo: Tradition of Excellence. As a leading research university with over 4,000 faculty and nearly 30,000 students, the UTokyo offers courses in essentially all academic disciplines at both undergraduate and graduate levels. In addition to providing students with a learning environment that is ideal for both intellectual development and professional skills attainment, the University is known worldwide for the cutting edge research undertaken within our institutions.

## Graduate School of Public Policy (GraSPP)

GraSPP was established in 2004 with a mission to bridge the gap between academic learning and public policy practices. Academic staff and private / public sector policy practitioners work closely together to connect social science theory to real world problems. In the modern globalized world, effective policy-making requires an international perspective. This, coupled with strong foundational academic training, is what we seek to provide our student body in preparation for careers spanning government, business, and the public sector. Despite a short history, GraSPP is now recognized as a leading public policy school in Japan. More than a third of the GraSPP graduates have been placed in various Japanese government ministries.

## Master of Public Policy, International Program (MPP/IP)

For the JISPA scholars, the UTokyo offers the 2-year Master of Public Policy, International Program (MPP/IP), which was launched in October 2010. An extensive and diverse menu of courses in English are offered to learn cutting edge approaches to the public policy arena from internationally renowned faculty members at the University of Tokyo.<sup>1</sup> Student groups and school organized extra-curricular activities are combined

events, allowing for increased social and scholarly exchange between Japanese-stream and English-stream MPP students. Furthermore, MPP/IP students are also able to take courses in other graduate schools (provided language proficiency requirements are met).

## The Faculty

Three UTokyo Graduate Schools (Public Policy, Economics, and Law and Politics) contribute the core teaching staff of the MPP/IP; although other Schools and Research Institutes also provide courses which integrate with the program. The school boasts expertise in macroeconomic and monetary or financial economics, thanks to faculty members with a breadth of applied experience from organizations such as the IMF, the Ministry of Finance, the Bank of Japan, and the Council for Economic and Fiscal Policy. Located in central Tokyo, the university is able to exploit its proximity to corporate headquarters and public ministries to attract many prominent speakers and practitioners to the program.

## The Curriculum

The GraSPP curriculum encompasses a wide range of public policy sub-fields including microeconomics, macroeconomics, policy process studies, governance and development. The JISPA scholars are required to complete 46 units in two years (please see a course listing for details).

<sup>1</sup> All courses offered in the MPP/IP are also open to English-proficient students in the Japanese MPP program.

**First Year:** In the first year, students are expected to take most of the required core courses as well as one or two case studies.

**Second Year:** In the second year, on top of taking other elective courses, students focus on writing a research paper/thesis frequently focusing on topics examined in case study courses to apply to policymaking in the context of their home countries.

### Other Recommended and Elective Courses

Elective courses cover a range of topics, including Development Economics: Macroeconomic Approach, Asian Financial Markets, Theory and Empirics of Unconventional Monetary Policy, Development Finance, and Asian Economic Development and Integration. GraSPP also hosts a Public Policy Seminar Series, inviting world leaders in government, academic and business fields to deliver lectures on current public policy issues.

Please see page 15 for a complete course listing.

### Qualifications

Candidates must hold a Bachelor's degree or its equivalent from a recognized/accredited university and are expected to possess high English language proficiency to be able to pursue studies. A minimum TOEFL score of PBT 570 (CBT 230, iBT89) or IELTS 6.0-6.5 is expected. A strong undergraduate background and/or evidence of experience with public policy issues in economic management are also required.<sup>2</sup>

### Facilities

The main campus of the university is located in Hongo Bunkyo-ku, Tokyo and occupies about 56 hectares of the former Kaga Yashiki, the Tokyo estate of a

major feudal lord. Parts of the seventeenth century landscaping of the original estate have been preserved to provide greenery and open space.

The University of Tokyo Library System is composed of about 40 libraries, including the General Library, the Komaba and Kashiwa Libraries, and departmental libraries. The General Library is the system's main coordinating body. Each faculty / institution library has a large number of materials in their specialized fields.

GraSPP's International Student Adviser provides student support services to help students complete their enrolment and arrange for visas. It also helps coordinate applications for student dormitories or helps students to find accommodation through private real estate firms.

### Japanese Language Courses

The University of Tokyo's International Center offers a variety of Japanese language courses for international students. For further information, please visit the website: [http://www.nkc.u-tokyo.ac.jp/index\\_e.html](http://www.nkc.u-tokyo.ac.jp/index_e.html)

In addition to the Japanese language courses above, GraSPP offers its own Japanese courses (no credits earned) from beginners to intermediate levels. The size of the class is normally 5–7 students.

Further information on the program and our graduate school can be found on the following website: <http://www.pp.u-tokyo.ac.jp/en/index.htm>

Further information on the program can be found on the following website at <http://www.pp.u-tokyo.ac.jp/en/mppip/> [http://www.pp.u-tokyo.ac.jp/en/mppip/?page\\_id=9](http://www.pp.u-tokyo.ac.jp/en/mppip/?page_id=9)

<sup>2</sup> Successful candidates for GraSPP are additionally required to complete and pass the formalities of admissions process for the GraSPP, the UTokyo. A separate application form must be filled out and submitted to the MPP/IP Admissions Office, following the instructions from the university after the JISPA final selection in mid-April 2016. The application form is downloadable on the UTokyo website.

## GRIPS

Macroeconomic Policy Program

Master of Public Policy  
(One-Year Program)

Master of Arts in Public Economics  
(Two-Year Program)

Required Courses and Policy Paper  
(One-Year Program)

Required Courses and Thesis  
(Two-Year Program)

### *Required Courses:*

Introduction to Public Policy Studies

Introduction to Applied Econometrics

Macroeconomics I & II

Microeconomics I & II

International Finance

Public Economics

Required Policy Paper Seminar 1 & 2

(One year Program)

Required Thesis Seminar 1 to 4 (Two year Program)

### *Recommended Courses:*

Quantitative Analysis Skill Courses

Mathematics for Economic Analysis

Statistics

Applied Time Series Analysis for Macroeconomics

Quantitative Social Systems Analysis

Cost Benefit Analysis (Two year Program)

Introduction to Quantitative Methods

(Two year Program)

### *Disciplinary Courses:*

Accounting and Financial Management I, II

Financial Economics

Monetary Economics /Money and Banking

Foreign Direct Investment

Development Economics

International Trade

Public Expenditure Management

Fiscal and Monetary Policy in Japan

Government and Market

Labor Economics

Game Theory

### *Elective Courses: Advanced Economic Courses for Qualified Students*

Advanced Microeconomics I & II & III & IV  
(Two year Program)

Advanced Macroeconomics I & II & III & IV

Advanced Econometrics I & II & III

Advanced Econometrics IV (Two year Program)

X: other courses offered by GRIPS faculty

## Hitotsubashi University

Master of Public Policy (Public Economics)

Asian Public Policy Program

### *Required Courses:*

- Economics of the Public Sector (core)
- Microeconomics for Public Policy (core)
- Macroeconomics: Theory and Policy (core)
- Fundamentals of Econometric Methods (core, one year course)
- Financial Programming for Macroeconomic Policy Formulation (required, two-week intensive course)

### *Elective Courses:*

- Fiscal Policy
- Economic Analysis of Tax Systems
- Tax Policy I: Policy and Systems
- Tax Policy II: International Taxation
- Fiscal Decentralization and Local Government Finance
- Field Research on Tax Administration
- Public Sector Policy
- Economic Analysis of Public Investments
- Economic Analysis of Regulation and Public Enterprise
- Economic Analysis of Social Policy
- Economic Analysis of Social Security Systems
- Monetary and Financial Policy
- International Economy and Finance: Policy and Institutions
- Financial Sector Reform and Development

Monetary Policy in Theory and Practice

Asian Economic Development and Integration

Joint Course

Public Policy in Asia\*

\*This course is joint course with the other IPP program and is held in Kunitachi campus.

### *Workshop on Current Topics (required)*

### *Intensive Courses: (required)*

Issues on Public Policy I–X

(Topics are decided each year.)

Seminar Work

(required, first and second year for Master's thesis)

English Thesis Writing I (required, first year students)

English Thesis Writing II

(required, second year students)

Note: For those students who wish to pursue doctoral courses in the future, they may, with the advice as well as approval from their supervisors, take advanced courses offered by the Graduate School of Economics such as Intermediate Macroeconomics, Advanced Macroeconomics, Advanced Microeconomics or sometimes by other graduate schools at Hitotsubashi University.

## International University of Japan (IUJ)

Master of Arts in Economics

Macroeconomic Policy Program

### *Required Courses:*

Microeconomics I, II  
Macroeconomics I, II  
Mathematics for Economics and Management (A)  
Statistical Methods  
Macroeconomics and Policy Analysis  
Econometrics  
Public Finance  
Monetary Economics and Policy Analysis  
International Trade and Investment  
International Finance

### *Electives: Recommended Courses :*

Agricultural Economics  
Applied Time Series Analysis  
Computable General Equilibrium Modeling  
Corporate Finance  
Cost Benefit Analysis  
Cross-Sectional and Panel Data Analysis  
Development Economics  
Development Planning (Multisector Models)  
Environmental Economics  
Financial Accounting and Reporting  
Financial Markets and Globalization  
Health Economics

Industrial Organization and Public Policy

Inequality and Poverty: Measurement and Applications  
Investment and Asset Pricing  
Japanese Banking and Financial Systems  
Money and Banking  
Public Finance and Budgeting  
Public Sector Economics  
Quantitative Methods for Decision Making  
Research Methodology  
Time Series Analysis

### *Other Elective Courses:*

Policy Evaluation and Management  
Public Management  
Public Policy Modeling  
Public Policy Process

Note: Other courses offered by the Graduate School of International Relations (GSIR) and the Graduate School of International Management (GSIM) can also be taken as elective courses.

English/Japanese Language Courses are not counted for the total number of required credits.

Online syllabi are available at  
[http://www.iuj.ac.jp/web/ijj\\_section.cfm?item=130504](http://www.iuj.ac.jp/web/ijj_section.cfm?item=130504)

## The University of Tokyo (UTokyo)

Master of Public Policy

Master of Public Policy, International Program (MPP/IP)

### Core Courses:

Required Core Courses in Economics:

- i) A or B (4 credits)
- A. Microeconomics for Public Policy
- B. Microeconomics
- ii) A or B (4 credits)
- A. Macroeconomics for Public Policy
- B. Macroeconomics
- iii) A, B or C (4 credits)
- A. Statistical Methods
- B. Applied Econometrics for Public Policy
- C. Econometrics

\* Each of the above economics courses has Practice Session (1 credit)

Required Core Courses in Law & Political Sciences:

A minimum of 6 credits (3 courses) from the following list are required.

- Introduction to Public Management
- Policy Process and Negotiation
- Governance and Development
- International Conflict Study
- Modern Japanese Diplomacy
- Comparative Analysis of Japanese Economic Policy-Making Process
- Law and Public Policy
- Politics and Public Policy
- Science Technology and Public Policy
- Japanese Politics
- International Politics in East Asia
- Introduction to International Politics
- Public International Law and Domestic Implementation
- Security Studies
- Japanese Government
- Japanese Government and Politics
- Human Security: Asian Perspectives

### Case Studies:

A minimum of 8 credits from the following list are required.

- Japanese Macroeconomic Policy: Assessment of Monetary and Fiscal Policies
- Japanese Macroeconomic Policy: Solutions to Monetary and Fiscal Policy Challenges
- Financial Crisis
- Japanese Foreign Economic Policy
- International Political Economy
- Japan's East Asia Policy
- International Financial Institutions
- Private Partnerships and Methods of Health Technology Assessment in Healthcare Policy
- Energy Security and International Organizations
- Diversity and Inclusion
- Business concerns on projects abroad; Learning experience in collaboration with Japanese industry
- Finance and Development in Emerging Asia I
- Finance and Development in Emerging Asia II
- International Field Workshop
- Financial Development and Inequality
- Poverty and Development I
- Project Based Learning on the Medical, Environmental and IT Innovation and the Role of Public Policy

### Development Economics:

- Macroeconomic Approach
- Economic Analysis of Public Policy
- Transportation Policy
- Introduction to Japanese Law in English
- Japanese Government
- The Politics and Diplomacy of Contemporary China
- Norms on the Environment: Creation and Compliance
- Asian Economic Development and Integration
- Asian Financial Markets
- Population Aging and the Generational Economy
- Applied Labor Economics
- Monetary Policy
- Politics of World Trade
- Financial Markets and Institutions
- Advanced Money and Banking
- Advanced Development Economics I
- Central Banking
- Environmental Economics
- Natural Resource and Environmental Economics
- Economic Analysis of Innovation
- Sovereign Debt

\*and more...

\*(Courses are subject to changes) full list of courses and syllabi are available at <http://www.pp.u-tokyo.ac.jp/en/courses/2015/index.html>

Note: Scholars are required to earn at least 46 credits including 21 required core courses in economics, law and political sciences and 8 credits of case study. Credits earned towards completion must also contain 4 credits or more earned from courses which qualify as practical training courses.

### Elective Courses:

- International Trade Policy
- Monetary Policy
- Policy Process and Negotiation
- Development Economics: Microeconomic Approach

## Orientation Program

The JISPA offers the Orientation Program (OP) to newly accepted scholars under the partnership track. The OP aims to ensure that scholars entering the JISPA are well prepared to commence their master's programs in economics at the partnership universities and to adjust to life in Japan through intensive courses in English, math/computational skills, and Japanese. This program is held from mid-July to late-September (2.5 months), prior to commencing studies at the partnership universities. The OP is conducted at the International University of Japan (IUJ) in Niigata prefecture.

The OP comprises:

- a four-week course in academic English (reading, writing, listening, and oral communication skills) and writing tutorial sessions during the subsequent four weeks;
- a four-week course in mathematics for economics and introductory econometrics (including statistical software);

- a one-week course in introductory economics; and
- a one-week course in the Japanese language (including lectures on cross-cultural understanding and field visits).

All of JISPA incoming scholars are requested to participate in the OP. Scholars from countries where the official language is English are exempted from taking the English component, but are requested to participate in the remaining components of the OP.

In addition to the courses mentioned above, the IMF staff will offer lectures on the IMF to introduce its role and functions, as well as contributions made by the Japanese Government to the IMF. Some extracurricular activities are organized by the IUJ to facilitate interaction among the OP participants. The OP aims to develop leadership, organizational, and interpersonal skills through social and cross-cultural communication activities.

Participating in the summer intensive Orientation Program (OP) in IUJ was a valuable opportunity, which allowed me to obtain a great deal of benefits for my master studies and experience for living in Japan.

One essential benefit is that the OP helped me build and strengthen my academic foundation in relation to English proficiency and computational skills such as Mathematics and Econometrics that I am heavily and usefully currently applying in my master courses. Furthermore, it offered me a good chance to make new friends, who

are participants from other countries and Japan, with whom I shared and exchanged my culture, and learned about various cultures. More importantly, building and extending friendships and professional network with all the participants, professors, and my JISPA colleagues were a long-lasting asset and memory.

Ultimately, attending the OP has helped me improve my academic and professional capacity, acquire new useful experience, and make new friends.

Mr. Sina Kheav  
GRIPS 2014-2016  
Ministry of Economy and Finance, Cambodia

# General Information

**S**cholarships provide for admission and tuition fees; a monthly stipend (including a housing and subsistence allowance); medical/accident insurance; one round-trip economy class air-ticket; and a lump-sum allowance to cover visa application costs and testing fees (such as TOEFL); and book-shipping costs. The scholarship covers expenses incurred by the scholar only.

The scholarship covers one year. For the two-year master's programs, the scholarship can be renewed for the second year based on academic performance and the university's recommendation, together with nomination by a scholar's sponsoring agency.

## Travel and Visas

Travel to Japan will be economy class by the most direct flight(s) available. The IMF will provide scholars with pre-paid tickets and a travel allowance. Assistance in applying for visas will be provided by the universities.

## Accommodations

Accommodations in Japan will be arranged for scholars by the university. The location of housing depends on the university's choice and local availability. University arranged housing is only for one-person occupancy. No provision will be made for married scholars wishing to live together.

## Scholar's Family

No additional aid or arrangements are given for a scholar's family. Scholars are generally advised not to bring family members or other dependents to Japan owing to the high cost and other complications. If, however, a scholar must bring a family member to Japan, he or she is required to get prior approval from the university (subject to its guidelines) as well as from the IMF Scholarship Programs Manager. In any event, scholars should be aware that they are responsible for all additional expenditures as well as all required procedures associated with bringing a family member. These would include travel,

insurance, and medical costs, as well as considerably higher housing costs.

## Health Requirements

Scholars are expected to be in excellent physical, mental, and emotional health during their studies in Japan so that they can be engaged in the full-time pursuit of their academic work as scholars funded by the JISPA. Scholars must notify the IMF Scholarship Programs Manager and the university immediately if there are any health issues, including pregnancy.

Arrangements will be made to provide medical insurance covering most medical expenses of the scholar. This insurance, however, does not cover pre-existing conditions.

All students are requested to undergo a thorough medical examination at an approved hospital or clinic in their countries prior to their arrival in Japan. Evidence of the medical examination must be submitted to the university. The cost of this medical examination is expected to be covered by the pre-arrival allowance.

## Other Requirements

Scholars who receive the JISPA scholarship cannot accept other scholarships.

Once accepted into the program, scholars are expected to attend all classes, maintain a solid academic standing, and conduct themselves appropriately in accordance with the university's internal guidelines and Japanese laws and regulations. Any violation of these conditions may be grounds for dismissal from the university and/or revocation of the scholarship.

Upon completion of the program, scholars are also expected to return to their home agency to utilize the knowledge and skills acquired through their studies under the JISPA.

## Important Dates for the Partnership Track

See the table below for important dates. Please note that these dates are indicative, and subject to change.

Application Process	Date
Application deadline	December 1, 2015
Interviews and testing of select applicants	March 1 – March 31, 2016
Notification to Selected Candidates	April 15, 2016
Deadline to accept scholarship	April 22, 2016
Reserve or stand-by applicants are called, if necessary	April 22, 2016
Visa application process	May – August 2016
Arrival in Japan for Orientation Program participants	July 8, 2016 (tentative)
Orientation Program	Mid-July to late-September, 2016 (Mid-July to mid-September, 2016, for JISPA-UTokyo scholars)
Arrival in Japan <sup>1</sup>	GRIPS: October 1, 2016 Hitotsubashi: September 16, 2016 IUJ: September 20, 2016 UTokyo: Mid-September, 2016
Program registration period	GRIPS: October 5–20, 2016 Hitotsubashi: September 16, 2016 IUJ: October 3–11, 2016 UTokyo: mid-September 1, 2016
Courses begin	GRIPS: October 7, 2016 Hitotsubashi: October 3, 2016 IUJ: October 3, 2016 UTokyo: September 26 (tentative), 2016

<sup>1</sup> For those scholars not participating in the Orientation Program. Hitotsubashi University candidates are requested to submit the additional application form requested by the university, for the sake of formality. HIT will contact their finalists for details once the notification of JISPA application results is made in mid-April. Successful candidates for the UTokyo are requested to submit the additional application form requested by the university, for the sake of formality. Such candidates will be contacted by the UTokyo following the notification of the JISPA application results in mid-April.

# Math Test

A math test is given to applicants who are selected for interviews. The result of this test is one of important factors in judging the qualification of applicants, and thus, applicants are requested to be well-prepared for the test.

Past math tests for the period of 2011–2015 are available on the JISPA website at:  
<http://www.imf.org/external/oap/jispa.htm>

## A. Scope of Math Test

- (1) Arithmetic Operations;
- (2) Solving equations;
- (3) Basic operations of exponential and logarithmic functions;
- (4) Basic Differentiation;
- (5) Maximization.

## B. Sample Math Test

Please note the following:

- You will have only 30 minutes to complete the test;
- No calculators are allowed;
- Please show all your work, including calculations and other notations in the margin of this paper.

### Part I. Calculate the following (one point each):

$$1. \left( \frac{3L^{0.5}}{L^{-1.5}} \right)^3 =$$

$$2. 3\log(2x) + 2(\log 1)\log(3x) - 2\log 4x =$$

$$3. \text{The determinant of } \begin{bmatrix} 4 & 3 \\ -1 & -3 \end{bmatrix} =$$

### Part II. Solve the following equations (two points each):

$$4. \frac{2}{x} = \frac{x}{2x} + 1$$

$$5. x(x - 6) = 0$$

### Part III. Find for each of the following (two points each):

$$6. y = x^2 e^{2x}$$

$$7. y = \ln\left(\frac{x}{3x + 5}\right)$$

### Part IV. Please answer the following questions (three points each):

8. The demand and supply functions for a good are given as:

$$\text{Demand function: } P_d = 180 - 3Q_d$$

$$\text{Supply function: } P_s = 100 + 5Q_s$$

Please calculate the equilibrium price and quantity.

9. The profit function of a firm is:  $\pi = -6Q^2 + 24Q - 80$   
Please find the output  $Q$  that maximizes the profit  $\pi$ .

### III. The Open Track

The open track of the JISPA provides support to scholars who wish to study graduate-level macroeconomics or a related field at either the master's or Ph.D. level at any leading university in Japan. However, priority is given to Ph.D. candidates. It is geared towards highly motivated officials who are able to identify a course of study in Japan suitable to their professional pursuits in the public sector and supportive of their future work as an economic policy maker. They typically cover all or most of tuition cost and related expenses and provide a monthly stipend for the scholar. The scholarship covers expenses incurred by the scholar only.

For a master's degree, a scholarship can be awarded for up to two consecutive one-year periods and for a Ph.D. degree for up to three consecutive one-year periods, depending on a university's requirements under a specific course of study. Annual renewal of the scholarship is subject to approval by the IMF, based on the scholar's progress, university's assessment, and sponsoring agency's consent.

To be eligible for the open track, applicants must first apply directly to the university of their choice to be admitted into a graduate-level program in an appropriate discipline. The IMF maintains no information on the application processes at Japanese universities. The IMF can also consider providing

support to those eligible scholars who have already commenced their studies in Japan.

To apply for the open track scholarship, applicants must complete the application form downloadable on the JISPA website at <http://www.imf.org/external/oap/schol.htm>. In addition, they should submit a copy of their letter of acceptance into a graduate-level program from a Japanese university or a copy of the application to a university (see Part IV for complete application guidelines).

Award of the scholarship will depend on the suitability of the chosen university and course of study, as well as a combination of the applicants' educational background, work experience, and potential for future promotion in one of the key government agencies for economic policy making.

Application deadline is June 1, 2016, for admission in September/October 2016 and April 2017. Applicants must notify the IMF of the admission result of the university(ies) to which they are applying prior to receiving a final decision on the scholarship award.

Additional application for April 2017 admission, with the deadline of December 1, 2016, will be opened if positions of open-track scholarships are available as a result of the aforementioned selection.

#### Important Dates for the Open Track

Application Process	Date
Application deadline	June 1, 2016
Review application materials	June 1–30, 2016
Interview with selected applicants	July 1–20, 2016
Acceptance notification to selected interviewees	July 31, 2016
Deadline to accept scholarship	August 6, 2016

# General Information

## Scholarship Benefits

The scholarship covers all reasonable expenses a scholar is expected to incur, including: one return airfare (subject to conditions); admissions and tuition fees; stipend (including a housing and subsistence allowance); medical and accident insurance fees. For scholars enrolled in doctoral programs, research related fees will be additionally covered. The scholarship covers expenses incurred by the scholar only.

The scholarship covers one year. The IMF makes a decision on a renewal for the subsequent year based on the scholar's academic performance and progress, the university's recommendation, and the sponsoring agency's consent. The scholarship award period is for up to two years for a master's program and three years for doctoral programs, depending on the requirement of the university.

## Scholar's Family

No additional aid or arrangements are given for a scholar's family. Scholars are generally advised not to bring family members or other dependants to Japan owing to the high cost and other complications. If, however, a scholar must bring a family member to Japan, he or she is required to get prior approval from the university (subject to its guidelines) as well as from the IMF Scholarship Programs Officer. In any event, scholars should be aware that they are responsible for all additional expenditures as well as all required procedures associated with bringing a family member. These would include travel, insurance, and medical costs, as well as considerably higher housing costs.

## Health Requirements

Scholars are expected to be in excellent physical, mental, and emotional health during their studies in Japan so that they can be engaged in the full-time pursuit of their academic work as scholars funded by the JISPA. Scholars must notify the IMF Scholarship Programs Manager and the university immediately if there are any health issues, including pregnancy.

## Other Requirements

Scholars who receive the JISPA scholarship cannot accept other scholarships.

Once accepted into the program, scholars are expected to attend all classes, maintain a solid academic standing, and conduct themselves appropriately in accordance with the university's internal guidelines and Japanese laws and regulations. Any violation of these conditions may be grounds for dismissal from the university and/or revocation of the scholarship.

Upon completion of the program, scholars are also expected to return to their home agency to utilize the knowledge and skills acquired through their studies under the JISPA.

For further information on program requirements under the open track, please contact:

## IV. Activities For JISPA Scholars

The IMF Regional Office for Asia and the Pacific (OAP) and partnership universities organize several activities for JISPA scholars.

### Networking

OAP hosts welcome and farewell receptions each year for JISPA scholars to help them develop network with other scholars. Officials from the Bank of Japan and the Japanese Ministry of Finance (MOF), together with representatives from the relevant embassies, also attend these events in order for them to get acquainted with the scholars.

### Seminars

OAP organizes a series of occasional seminars on current policy issues exclusively for JISPA scholars. The scholars are encouraged to actively participate in discussion. During the 2014-15 academic year, several seminars on topics related to the Japanese economy and the Euro area crisis were delivered.

OAP also organizes a thesis presentation where representatives among JISPA scholars will present their thesis as an accomplishment of their studies under the program.

JISPA scholars are also invited as observers to high-level regional conferences on macroeconomic and financial policy issues organized by OAP.

### Field Trip

Each partnership university arranges a field trip exclusively for JISPA scholars once a year. This trip helps the scholars promote an understanding of the Japanese economy and traditional culture. Destinations include industrial facilities, local governments, branch offices of ministries and/or the central bank, as well as cultural and historical heritage sites in Japan.

Visits to the Bank of Japan and the Tokyo Stock Exchange are additionally organized.

### Alumni Activities

OAP arranges alumni gatherings in various countries for former JISPA scholars. It also maintains an alumni networking site to promote and facilitate networking opportunities between alumni. The site is for the exclusive use of alumni, and enables them to search and interact with other alumni.

## V. Application to the JISPA

# Application Guidelines for Partnership and Open Track

## Application deadline

**Partnership track:** December 1, 2015 for the 2016–17 academic year.

**Open track:**  
June 1, 2016 for admission in September/October 2016 and April 2017

(December 1, 2016 for admission in April 2017). This additional application will be opened if positions of open-track scholarships are available as a result of the above-mentioned selection.

## Eligibility requirements

Under current program guidelines, candidates must be a national of one of the following countries:

Bangladesh, Bhutan, Cambodia, China, India, Indonesia, Kazakhstan, Kyrgyz Republic, Lao P.D.R., Malaysia, Maldives, Mongolia, Myanmar, Nepal, Pacific Island Countries, Papua New Guinea, Philippines, Sri Lanka, Tajikistan, Thailand, Timor-Leste, Turkmenistan, Uzbekistan, and Vietnam.

Candidates should also currently work for employment from one of the following or related government agencies:

central bank, ministry of economy, ministry of finance, ministry of planning/development, ministry of trade/commerce, tax administration, national statistics bureau, or financial regulatory agencies. The program will also consider officials working in other areas of government that have a significant impact on the formulation or implementation of macroeconomic policy.

Candidates must have a Bachelor's degree or an equivalent with at least 16 years of formal education. Names of schools and attending dates beginning from primary school must be listed in the application. In some cases, 15 years of formal education may be accepted if there is an official explanation (a country's particular educational system or other exceptional circumstances).

Applicants must have an English language proficiency, which needs to be demonstrated as equivalent to or more than an official TOEFL score of 550 or iBT79-80. If TOEFL scores are not available, then an overall IELTS score of at least 6.0 can be substituted.

Applicants must be committed to contributing to the development of their home country, and if selected, are expected to return to their sponsoring agency upon completion of their studies under the JISPA.

Priority is given to applicants (1) whose age is below 40; and (2) who have not yet obtained a master's degree from a university outside of their own country; and (3) who have the minimum of two-three years work experience in the public sector.

## Application procedures

For both the partnership and open track, eligible candidates should submit the following:

1. Completed application form. **The applicant for the partnership track is requested to apply through the online application system** which is available on the IMF Regional Office for Asia and the Pacific website at <http://www.imf.org/external/oap/schol.htm>

2. Official transcripts and official copies of diplomas or degree certificates from all

undergraduate and graduate schools. An official copy means a certified copy of the original document with an official seal obtained from the administration office of the university attended. Copies attested by organizations/persons not having notarized/legal bearing will not be accepted.

3. Two reference letters: References should be from applicants' supervisor at work and/or an academic advisor or professor.

4. TOEFL/IELTS certificate (if available): The TOEFL/IELTS test score must be from an examination taken after December 1, 2013. If a score is unavailable, the applicant will be requested to sit for a TOEFL/IELTS examination prior to receiving a final decision on the scholarship award.

**For the open track only**, eligible candidates should also submit the following:

5. Admission letter or enrollment certificate of the University of Choice, or a copy of the applications to a university<sup>1</sup> (open track applicants only).

All submitted application material must be

presented in English or be accompanied by an official English translation. The material will be considered under the control of the IMF and provided to the relevant school(s) and the Government of Japan as it sees appropriate. None of the material will be returned to applicants.

**Application material should be sent by mail to the IMF Regional Office for Asia and the Pacific (see address below).**

For further information on the application procedure, including the application form, please visit the scholarship website at <http://www.imf.org/external/oap/schol.htm>
