Figure 2.1. Correlation Between Government Spending and GDP

Correlations between the cyclical components of real government expenditure per capita and real GDP per capita. A positive (negative) correlation indicates procyclical (countercyclical) fiscal policy.

1 Correlations between the cyclical components of real government expenditure per capita and real GDP per capita. A positive (negative) correlation indicates procyclical (countercyclical) fiscal policy.

2 Advanced economies excluding Asia. EME/CIS stands for Emerging Europe and Commonwealth of Independent States.
