Residential Real Estate

Credit to GDP growth

Equity Markets

Note: Colors represent the extent of the deviation from long-term median expressed in number of median-based standard deviations (median-based Z-scores). Medians and standard deviations are for the period starting 2000Q1, where data are available.

1 Estimated using house price-to-rent and price-to-income ratios.
2 Year-on-year growth of credit-to-GDP ratio.
