

## FURTHER INFORMATION AND DATA

This version of the *World Economic Outlook* is available in full on the IMF's website, [www.imf.org](http://www.imf.org). Accompanying it on the website is a larger compilation of data from the WEO database than is included in the report itself, including files containing the series most frequently requested by readers. These files may be downloaded for use in a variety of software packages.

The data appearing in the *World Economic Outlook* are compiled by the IMF staff at the time of the WEO exercises. The historical data and projections are based on the information gathered by the IMF country desk officers in the context of their missions to IMF member countries and through their ongoing analysis of the evolving situation in each country. Historical data are updated on a continual basis, as more information becomes available, and structural breaks in data are often adjusted to produce smooth series with the use of splicing and other techniques. IMF staff estimates continue to serve as proxies for historical series when complete information is unavailable. As a result, WEO data can differ from other sources with official data, including the IMF's *International Financial Statistics*.

The WEO data and metadata provided are “as is” and “as available,” and every effort is made to ensure, but not guarantee, their timeliness, accuracy, and completeness. When errors are discovered, there is a concerted effort to correct them as appropriate and feasible. For details on the terms and conditions for usage of the WEO database, please refer to the IMF Copyright and Usage website, <http://www.imf.org/external/terms.htm>.

Inquiries about the content of the *World Economic Outlook* and the WEO database should be sent by mail, forum, or fax (telephone inquiries cannot be accepted) to
