Global Financial Stability Report
The Global Financial Stability Report provides expert and up-to-date analysis of global capital flows that play a critical role in world economic growth and financial stability.

Fiscal Monitor
The Fiscal Monitor, published twice a year, surveys and analyzes developments in public finance, updates medium-term fiscal projections, and assesses policies to put public finances on a sustainable footing. The Monitor's projections are based on the same database used for the World Economic Outlook.

China's Economy in Transition: From External to Internal Rebalancing
This volume looks at various aspects of the rebalancing under way in China. It focuses on three themes: the reasons for the decline in China's current account and signs of growing domestic imbalances; the implications for trading partners; and policy lessons to achieve a stable, sustainable, and more inclusive transformation of China's growth model.

Energy Subsidy Reform: Lessons and Implications
Energy subsidies have wide-ranging economic consequences. This book provides the most comprehensive estimates of energy subsidies currently available for 176 countries. It also presents an analysis of “how to do” energy subsidy reform, drawing on insights from 22 country case studies undertaken by the IMF staff and analyses carried out by other institutions.
